SUPPLEMENTARY INFORMATION:

I. Abstract

In January 2021, President Biden issued Executive Order 13985, '*Advancing Racial Equity and Support for Underserved Communities*', which established policy instructing the Federal Government to pursue a comprehensive approach to advancing equity for all, including people of color and others who have been historically underserved, marginalized, and adversely affected by persistent poverty and inequality, and tasks agencies with developing proactive policies, regulations, and guidance that affirmatively promote equity and speak to the needs of underserved communities. This will require agencies to review existing policies, rules, regulatory actions, and guidance. It will

also require that agencies identify drivers of systemic inequities that are not currently being addressed and develop potential policies to address those inequities.

This new information collection will enable the Department of Commerce to act in accordance with this Executive Order to improve both efficiency and mission delivery, and to remove systemic barriers to opportunities and benefits for underserved communities. To accomplish this mission effectively, Commerce needs ongoing feedback on its programs and services. This information collection item allows Commerce to solicit clients' opinions about the use of products, services, and events.

Commerce will collect, analyze, and interpret information gathered through this information collection to identify gaps in equity and make improvements in accessibility, navigation, use, and service delivery based on insights gathered through developing an understanding of the user experience in underserved communities. Commerce will develop a question bank for all Bureaus to use to solicit information from both federal and non-federal individuals and organizations to develop policies and programs that deliver resources and benefits equitably to all.

These data collection efforts may be either qualitative or quantitative in nature or may consist of mixed methods. Additionally, data may be collected via a variety of means, including but not limited to electronic or social media, direct or indirect observation (*i.e.*, in person, video and audio collections), interviews, questionnaires, surveys, and focus groups. Steps will be taken to ensure anonymity of respondents in each activity covered by this request.

As a general matter, these information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature and matters that are commonly considered private. Personally identifiable information (PII) is collected only to the extent necessary and is not retained.

If this information is not collected, Commerce will be unable to systematically determine the actual and relative levels of performance for its programs and services to underserved communities and to provide clear, actionable insights for equitable intervention.

II. Method of Collection

The Department of Commerce will collect this information by electronic

means when possible, as well as by mail, fax, telephone, technical discussions; and customer experience activities such as feedback surveys, focus groups, user testing, and in-person interviews. Department of Commerce may also utilize observational techniques to collect this information.

This could include individuals or households; businesses or other for-profit organizations; not-for-profit institutions; State, local or tribal governments; Federal government; and Universities.

Estimated Number of Respondents: 150,000.
