

I. Abstract

To ensure accurate reporting of Government-owned, contractor-held property on the financial statements and to provide information necessary for effective property management in accordance with FAR Part 45, NASA obtains summary data annually from the official Government property records maintained by its contractors. The information is submitted via the NASA Form 1018, at the end of each fiscal year. Additional information submitted to approve the accuracy of the contractor property management system compliance is submitted via NASA Form 1019, at the beginning of awards with NASA property in the hands of contractors; and same information gathered by Federal agencies assisting NASA according to risk matrix. Information for property management system in accordance with FAR Part 45, NASA is the agency responsible for contract administration shall conduct an analysis of the contractor's property management policies, procedures, practices, and systems.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA–21–0017; NARA–2022–007]

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice of certain Federal agency requests for records disposition authority (records schedules). We publish notice in the **Federal Register** and on [regulations.gov](https://www.regulations.gov) for records schedules in which agencies propose to dispose of records they no longer need to conduct agency business. We invite public comments on such records schedules.

DATES: NARA must receive responses on the schedules listed in this notice by December 17, 2021.

ADDRESSES: You may submit comments by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. On the website, enter either of the numbers cited at the top of this notice into the search field. This will bring you to the docket for this notice, in which we have posted the records schedules open for comment. Each schedule has a 'comment' button so you can comment on that specific schedule.

Due to COVID–19 building closures, we are currently temporarily not accepting comments by mail. However, if you are unable to comment via [regulations.gov](https://www.regulations.gov), you may contact request.schedule@nara.gov for instructions on submitting your comment. You must cite the control number of the schedule you wish to comment on. You can find the control number for each schedule in parentheses at the end of each schedule's entry in the list at the end of this notice.

FOR FURTHER INFORMATION CONTACT:

Kimberly Keravuori, Regulatory and External Policy Program Manager, by email at regulation_comments@nara.gov. For information about records schedules, contact Records Management Operations by email at request.schedule@nara.gov or by phone at 301–837–1799.

SUPPLEMENTARY INFORMATION:

Public Comment Procedures

We are publishing notice of records schedules in which agencies propose to dispose of records they no longer need to conduct agency business. We invite public comments on these records schedules, as required by 44 U.S.C. 3303a(a), and list the schedules at the end of this notice by agency and subdivision requesting disposition authority.

In addition, this notice lists the organizational unit(s) accumulating the records or states that the schedule has agency-wide applicability. It also provides the control number assigned to each schedule, which you will need if you submit comments on that schedule.

We have uploaded the records schedules and accompanying appraisal memoranda to the [regulations.gov](https://www.regulations.gov) docket for this notice as “other” documents. Each records schedule contains a full description of the records at the file unit level as well as their proposed disposition. The appraisal memorandum for the schedule includes information about the records.

We will post comments, including any personal information and attachments, to the public docket unchanged. Because comments are public, you are responsible for ensuring that you do not include any confidential or other information that you or a third party may not wish to be publicly posted. If you want to submit a comment with confidential information or cannot otherwise use the [regulations.gov](https://www.regulations.gov) portal, you may contact request.schedule@nara.gov for instructions on submitting your comment.

We will consider all comments submitted by the posted deadline and consult as needed with the Federal agency seeking the disposition authority. After considering comments, we will post on [regulations.gov](https://www.regulations.gov) a “Consolidated Reply” summarizing the comments, responding to them, and noting any changes we have made to the proposed records schedule. We will then send the schedule for final approval by the Archivist of the United States. You may elect at [regulations.gov](https://www.regulations.gov) to receive updates on the docket, including an alert when we post the

Consolidated Reply, whether or not you submit a comment. If you have a question, you can submit it as a comment, and can also submit any concerns or comments you would have to a possible response to the question. We will address these items in consolidated replies along with any other comments submitted on that schedule.

We will post schedules on our website in the Records Control Schedule (RCS) Repository, at <https://www.archives.gov/records-mgmt/rcs>, after the Archivist approves them. The RCS contains all schedules approved since 1973.

Background

Each year, Federal agencies create billions of records. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval. Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives or to destroy, after a specified period, records lacking continuing administrative, legal, research, or other value. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

Agencies may not destroy Federal records without the approval of the Archivist of the United States. The Archivist grants this approval only after thorough consideration of the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value. Public review and comment on these records schedules is part of the Archivist's consideration process.

NUCLEAR REGULATORY COMMISSION

Docket Nos. 50-327 and 50-328

Tennessee Valley Authority, Sequoyah Nuclear Plant, Units 1 and 2 Exemption

I. Background

The Tennessee Valley Authority (TVA) is the holder of Renewed Facility Operating License Nos. DPR-77 and DPR-79, which authorize operation of Sequoyah Nuclear Plant, Units 1 and 2 (Sequoyah). The licenses provide, among other things, that the facilities are subject to all rules, regulations, and orders of the NRC now, or hereafter, in effect. The Sequoyah units are pressurized-water reactors located in Hamilton County, Tennessee, approximately 9.5 miles northeast of Chattanooga. TVA plans to use fuel rods with Optimized ZIRLO™ cladding. Optimized ZIRLO cladding was developed to provide enhanced corrosion resistance in more adverse in-reactor primary chemistry environments and at higher fuel duties with higher burnups.

II. Request/Action

By letter dated September 23, 2020, TVA requested an exemption from title 10 of the *Code of Federal Regulations* (10 CFR) section 50.46, "Acceptance criteria for emergency core cooling systems [ECCS] for light-water nuclear power reactors," and 10 CFR part 50, appendix K, "ECCS Evaluation Models," to allow the use of Optimized ZIRLO fuel rod cladding for future core reload applications. The regulations in 10 CFR 50.46 contain acceptance criteria for the ECCS for reactors fueled with zircaloy or ZIRLO® fuel rod cladding material. In addition, paragraph I.A.5 of 10 CFR part 50,
