

DEPARTMENT OF JUSTICE

[OMB Number 1140–0050]

Agency Information Collection Activities; Proposed eCollection of eComments Requested; Revision of a Currently Approved Collection; Identification Markings Placed on Firearms

AGENCY: Bureau of Alcohol, Tobacco, Firearms and Explosives, Department of Justice.

ACTION: 30-Day notice.

SUMMARY: The Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), Department of Justice (DOJ) will submit the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: Comments are encouraged and will be accepted for an additional 30 days until December 2, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and, if so, how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Revision of a currently approved collection.

(2) *The Title of the Form/Collection:* Identification Markings Placed on Firearms.

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form number: None. Component: Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:*

Primary: Business or other for-profit.

Other: None.

Abstract: This information collection requires licensed firearms manufacturers and importers to legibly identify each firearm by engraving, casting, stamping (impressing), or otherwise conspicuously placing an individual serial number on the frame or receiver of a firearm. The required firearms identification information supports Federal, State, and local law enforcement officials in crime fighting by facilitating the tracing of firearms used in criminal activities.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 17,930 respondents will use this collection annually, and it will take each respondent approximately 1 minute to complete each response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated annual public burden associated with this collection is 66,446 hours, which is equal to 17,930 (total respondents) * 222.3495 (total responses per respondent) * 0.0166667 (1 minute or time taken for each response).

(7) *An Explanation of the Change in Estimates:* Although there is an increase in the total respondents from 13,868 in 2018, to 17,930 in 2021, there is a reduction in both the total responses and burden hours from 5,137,771 to 3,986,663 and 85,630 to 66,446 hours respectively, due to fewer imported firearms. Consequently, the total cost burden for this collection also reduced from \$4,726,749 in 2018, to \$3,667,730 in 2021.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution

Square, 145 N Street NE, Mail Stop 3E.405A, Washington, DC 20530.

Dated: October 27, 2021.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410–FY–P

DEPARTMENT OF LABOR**Occupational Safety and Health Administration**

[Docket No. OSHA–2021–0005]

LabTest Certification Inc.: Grant of Recognition

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces the final decision to grant recognition to LabTest Certification, Inc. (LCI), as a Nationally Recognized Testing Laboratory (NRTL).

DATES: Recognition as a NRTL becomes effective on November 2, 2021.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor, telephone: (202) 693–1999; email: meilinger.francis2@dol.gov.

General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department of Labor, telephone: (202) 693–2110; email: robinson.kevin@dol.gov.

SUPPLEMENTARY INFORMATION:**I. Background**

Many of OSHA’s workplace standards require that a NRTL test and certify certain types of equipment as safe for use in the workplace. NRTLs are independent laboratories that meet OSHA’s requirements for performing safety testing and certification of products used in the workplace. To obtain and retain OSHA recognition, the NRTLs must meet the requirements in the NRTL Program regulations at 29 CFR 1910.7. More specifically, to be recognized by OSHA, an organization must: (1) Have the appropriate capability to test, evaluate, and approve products to assure their safe use in the workplace; (2) be completely independent of employers subject to the

tested equipment requirements, and manufacturers and vendors of products for which OSHA requires certification; (3) have internal programs that ensure proper control of the testing and certification process; and (4) have effective reporting and complaint handling procedures. Recognition is an acknowledgement by OSHA that the NRTL has the capabilities to perform independent safety testing and certification of the specific products covered within the NRTL's scope of recognition and is not a delegation or grant of government authority. Recognition of a NRTL by OSHA also allows employers to use products certified by that NRTL to meet those OSHA standards that require product testing and certification.

The agency processes applications for initial recognition following requirements in Appendix A of 29 CFR 1910.7. This appendix requires OSHA to publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application, provides its preliminary findings, and solicits comments on its preliminary findings. In the second notice, the agency provides its final decision on the application and sets forth the NRTL's scope of recognition.

II. Notice of Final Decision

OSHA hereby gives notice of the agency's decision to grant recognition to LabTest Certification, Inc., (LCI) as a NRTL. According to public information (see <https://labtestcert.com/about-labtest/>) LCI states that it is an

internationally accredited testing laboratory. In its application, LCI lists the current address of its headquarters as: LabTest Certification, Inc., 205—8291 92 Street, Delta, BC Canada V4G 0A4. OSHA has determined preliminarily that LCI has the capability to perform as a NRTL as outlined in 29 CFR 1910.7.

Each NRTL's scope of recognition has two elements: (1) The type(s) of products the NRTL may test, with each type specified by its applicable test standard; and (2) the recognized site(s) that have the technical capability to perform the product-testing and product-certification activities for the applicable test standards within the NRTL's scope of recognition. LCI applied on January 29, 2016, for one recognized site (OSHA-2021-0005-0001). This application was amended on June 10, 2021, to remove three of the eight standards requested in the original application. LCI's original application also requested that supplemental programs be included in their recognition. However, on October 1, 2019, OSHA published an update to the NRTL Program Policies, Procedures and Guidelines Directive, CPL 01-00-004, which eliminated supplemental programs from the NRTL Program. Therefore, OSHA does not grant recognition to NRTL applicants for supplemental programs. OSHA published the preliminary notice announcing LCI's application for recognition in the **Federal Register** on August 16, 2021 (86 FR 45762). The

agency requested comments by September 15, 2021, but it received no comments in response to this notice. OSHA is now proceeding with this final notice to grant recognition to LCI as a NRTL.

To obtain or review copies of all public documents pertaining to LCI's application, go to www.regulations.gov or contact the Docket Office at (202) 693-2350 (TTY (877) 889-5627). Docket No. OSHA-2021-0005 contains all materials in the record concerning LCI's recognition.

III. Final Decision and Order

OSHA staff performed a detailed analysis of LCI's application packet and reviewed other pertinent information. OSHA staff also performed comprehensive on-site assessments of LCI's testing facilities, at LCI, Delta BC on December 11-12, 2018. Based on the review of this evidence, OSHA finds that LCI meets the requirements of 29 CFR 1910.7 for recognition as a NRTL, subject to the limitations and conditions listed below. OSHA, therefore is proceeding with this final notice to grant recognition to LCI as a NRTL. The following sections set forth the scope of recognition included in LCI's grant of recognition.

A. Standards Requested for Recognition

OSHA limits LCI's scope of recognition to testing and certification of products for demonstration of conformance to the test standards listed in Table 1 below.

TABLE 1—APPROPRIATE TEST STANDARDS FOR INCLUSION IN LCI'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 1598	Luminaires.
UL 60079-0	Explosive Atmospheres—Part 0: Equipment—General Requirements.
UL 60079-1	Explosive Atmospheres—Part 1: Equipment Protection by Flameproof Enclosures “d”.
UL 60079-11	Explosive Atmospheres—Part 11: Equipment Protection by Intrinsic Safety “i”.
UL 60079-15	Explosive Atmospheres—Part 15: Equipment Protection by Type of Protection “n”.

B. Sites Requested for Recognition

OSHA limits LCI's scope of recognition to include one site: LabTest Certification, Inc., 205—8291 92 Street, Delta, BC Canada V4G 0A4. OSHA's recognition of these sites limits LCI to performing product testing and certifications only to the test standards for which the site has the proper capability and programs, and for the test standards in LCI's scope of recognition.

C. Conditions

In addition to those conditions already required by 29 CFR 1910.7, LCI

also must abide by the following conditions of the recognition:

1. LCI must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in the operations as a NRTL, and provide details of the change(s);
2. LCI must meet all the terms of the recognition and comply with all OSHA policies pertaining to this recognition; and
3. LCI must continue to meet the requirements for recognition, including all previously published conditions on

LCI's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby grants recognition to LCI as a NRTL, subject to these limitations and conditions specified above.

IV. Authority and Signature

James S. Frederick, Acting Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 8-2020

(85 FR 58393, September 18, 2020) and 29 CFR 1910.7.

Signed at Washington, DC, on October 20, 2021.

James S. Frederick,

Acting Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510-26-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: 21-071]

Name of Information Collection: NASA Serves the Public To Inspire Reach-Out and Engage (NSPIREHub)

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

DATES: Comments are due by December 2, 2021.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Claire Little, NASA Clearance Officer, NASA Headquarters, 202-358-2375, 300 E Street SW, JF0000, Washington, DC 20546 or email claire.a.little@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Aeronautics and Space Administration (NASA) is committed to effectively performing the Agency's communication function in accordance with the Space Act Section 203 (a) (3) to "provide for the widest practicable and appropriate dissemination of information concerning its activities and the results there of," and to enhance public understanding of, and participation in, the nation's space program in accordance with the NASA Strategic Plan.

The NASA Serves the Public to Inspire Reach-Out and Engage (NSPIREHub) is a one-stop, web-based volunteer management system that streamlines communications, recruitment and marketing and enhances reporting and management of official outreach events. The NSPIREHub engages, informs and inspires current docents, employees (civil servants and contractors), interns and qualified members of the general public to share NASA's advancements, challenges and contributions through participation in official outreach (*i.e.*, launch support, special events support activities, etc.).

The NSPIREHub utilizes a multiple tiered, role-based NAMS provisioning to empower system administrators to request and collect specific user information for the purpose of coordinating the carrying out of NASA's official outreach activities. These specific purposes include but are not limited to: Facilitating pre-event briefings, onsite and virtual support trainings, shadowing opportunities and assignment scheduling.

The information collected and protected within the NSPIREHub helps to ensure all outreach support team members, prior to serving, are equipped with the tools, skills, and confidence necessary to share their stories in alignment with NASA's communication priorities. It also makes possible the efficient reporting of metric data relevant to the impact of official outreach on fulfillment of NASA's responsibilities as related to the Space Act, section 203.

II. Methods of Collection

Electronic.

III. Data

Title: NASA Serves the Public to Inspire, Reach-out, and Engage VolunteerHub (NSPIREHub).

OMB Number:

Type of review: New.

Affected Public: Individuals.

Estimated Annual Number of Activities: 5,250.

Estimated Number of Respondents per Activity: 3.

Annual Responses: 15,750.

Estimated Time per Response: 10 minutes.

Estimated Total Annual Burden Hours: 2,630.

Estimated Total Annual Cost: \$66,938.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance

of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Cheryl Parker,

Federal Register Liaison Officer.
