This notice also generally describes the bidding process for the sale and certain persons who are ineligible to bid. This is the seventh sale offering of its type and the sale will be held on December 1, 2021.

SUPPLEMENTARY INFORMATION: This notice announces HUD's intention to sell in HVLS 2022–1 due and payable Secretary-held reverse mortgage loans.

HUD is offering six multiple residential reverse mortgage pools totaling approximately 1,700 reverse mortgage notes with a loan balance of approximately \$420 million. The mortgage loans consist of first liens secured by single family, vacant residential properties, where all borrowers are deceased, and no borrower is survived by a non-borrowing spouse. Qualified non-profit or unit of state or local government bidders will have the opportunity to bid on all loans and may receive a priority bidding opportunity for up to 50 percent of the loans in five of the multi-loan pools (Carve-Out Pool).

HUD also intends to include in HVLS 2022–1 a single asset pool for sale consisting of a reverse mortgage loan secured by an Illinois multi-unit single-family property, where there is no surviving borrower or non-borrowing spouse but some units are currently tenant-occupied. This single asset pool has a loan balance of approximately \$158 thousand. For one of the multi-loan pools and the single asset pool, HUD will prioritize bids from non-profit or unit of state or local government bidders (each a Priority Pool).

A listing of the mortgage loans will be included in the due diligence materials made available to qualified bidders. The mortgage loans will be sold without FHA insurance and with servicing released. HUD will offer qualified bidders an opportunity to bid competitively on the mortgage loan pools.

The Bidding Process

The BIP describes in detail the procedure for bidding in HVLS 2022–1. The BIP also includes a standardized non-negotiable Conveyance, Assignment and Assumption Agreement for HVLS 2022–1 (CAA). Qualified bidders will be required to submit a deposit with their bid. Deposits are calculated based upon each qualified bidder's aggregate bid price.

HUD will evaluate the bids submitted and determine the successful bid, in terms of the best value to HUD, in its sole and absolute discretion. If a qualified bidder is successful, the qualified bidder's deposit will be non-refundable and will be applied toward the purchase price. Deposits will be returned to unsuccessful bidders.

This notice provides some of the basic terms of sale. The CAA, which is included in the BIP, provides comprehensive contractual terms and conditions. To ensure a competitive bidding process, the terms of the bidding process and the CAA are not subject to negotiation.

Due Diligence Review

The BIP describes how qualified bidders may access the due diligence materials remotely via a high-speed internet connection.

Mortgage Loan Sale Policy

HUD reserves the right to remove mortgage loans from HVLS 2022–1 at any time prior to the Award Date and the settlement date for the mortgage loans. HUD also reserves the right to reject any and all bids, in whole or in part, and include any reverse mortgage loans in a later sale. Deliveries of mortgage loans will occur in conjunction with settlement and servicing transfer no later than 60 days after the Award Date.

The HVLS 2022–1 reverse mortgage loans were insured by and were assigned to HUD pursuant to section 255 of the National Housing Act, as amended. The sale of the reverse mortgage loans is pursuant to section 204(g) of the National Housing Act.

Mortgage Loan Sale Procedure

HUD selected an open competitive whole-loan sale as the method to sell the mortgage loans for this specific sale transaction. For HVLS 2022–1, HUD has determined that this method of sale optimizes HUD's return on the sale of these loans, affords the greatest opportunity for all qualified bidders to bid on the mortgage loans, and provides the quickest and most efficient vehicle for HUD to dispose of the due and payable mortgage loans.

Bidder Ineligibility

In order to bid in HVLS 2022–1 as a qualified bidder, a prospective bidder must complete, execute, and submit both a Confidentiality Agreement and a Qualification Statement acceptable to HUD. SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a draft recovery plan for desert yellowhead (*Yermo xanthocephalus*), a plant listed as threatened under the Endangered Species Act, as amended (Act; 16 U.S.C. 1531 *et seq.*). We request review and comment on this draft recovery plan from Federal, State, Tribal, and local agencies and the public.

Species Information

On April 15, 2002, we listed desert yellowhead as a threatened plant (March 14, 2002; 67 FR 11442). On April 15, 2004, we designated approximately 360 acres (ac) (146 hectares (ha)) of critical habitat (March 16, 2004; 69 FR 12278).

Desert yellowhead is the only member of a monotypic genus. It is an endemic, herbaceous, perennial plant, with two known populations in Fremont County, Wyoming—Sand Draw and Cedar Rim. The two populations are approximately 5 miles (mi) (8 kilometers (km)) apart. New plants establish from seed or ramet, grow for multiple years before flowering, and may subsequently have years in which no flower production occurs (Doak *et al.* 2016, p. 4). This species is likely pollinated by visually oriented insects attracted to its bright yellow disk flowers and bracts (Dorn 1991, pp. 198–201). The two populations are found in sparsely vegetated cover at approximately 6,750 feet (ft) (2,057 meters (m)) for Sand Draw and 7,080 ft (2,158 m) for Cedar Rim.

We do not know the historical distribution of desert yellowhead. Currently, the total area occupied by the two populations is approximately 11.9 ac (4.8 ha). Both populations are located on lands administered by the Bureau of Land Management (BLM). Only the Sand Draw population occurs within designated critical habitat; the Cedar Rim population was not discovered until 2010, after critical habitat had been designated. Due to the variability of monitoring methods employed in different years, it is difficult to evaluate abundance trends; however, populations appear relatively stable.

The primary threat to desert yellowhead identified at the time of listing was mineral development, and secondary threats included invasive plants; grazing and trampling by livestock, wild horses, and ungulates; off-road vehicle recreation; deliberate
