

0400. The applicant proposes to mitigate for take of the sand skinks by the purchase the credits equivalent to 5.40 ac of skink-occupied habitat from Lake Wales Ridge Conservation Bank or another Service-approved Conservation Bank. The Service would require the applicant to purchase the credits prior to any clearing activities.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant’s project, including land clearing, infrastructure building, landscaping, and the proposed mitigation measures, would individually and cumulatively have a minor or negligible effect on sand skinks and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and the HCP is low effect under our NEPA regulations at 43 CFR 46.205 and 46.210. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not over time result in significant cumulative effects to environmental values or resources.

Next Steps

The Service will evaluate the application and the comments received to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the above findings, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will

issue ITP number PER0017031–0 to Pulte Home Company, LLC—North Florida Division.

Authority

The Service provides this notice under section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.32) and NEPA (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6 and 43 CFR 46.305).

Robert L. Carey,

Division Manager, Environmental Review, Florida Ecological Service Field Office.

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Reviews of Eight Northeastern Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), are initiating 5-year reviews under the Endangered Species Act, as amended, for eight northeastern species. A 5-year review is based on the best scientific and commercial data available at the time of the review. We are requesting submission of any such information that has become available since the previous 5-year review for each species.

DATES: To ensure consideration, please submit your written information by December 8, 2021. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For instructions on how and where to submit information, see Request for New Information and Table 2—Contacts under **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

General Information: Martin Miller, via email at martin_miller@fws.gov, and via U.S. mail at U.S. Fish and Wildlife Service, 300 Westgate Center Drive, Hadley, MA 01035.

Species-Specific Information and Submission of Comments: Contact the appropriate person or office listed in Table 2—Contacts in **SUPPLEMENTARY INFORMATION**.

Individuals who are deaf or hard of hearing may call the Federal Relay Service at 1–800–877–8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, are initiating 5-year reviews under the Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*) for eight northeastern species: The endangered Shenandoah salamander (*Plethodon shenandoah*), rough rabbitsfoot (*Quadrula cylindrica strigillata*), Roanoke logperch (*Percina rex*), and Harperella (*Ptilimnium nodosum*) and the threatened Madison Cave isopod (*Antrolana lira*), small whorled pogonia (*Isotria medeoloides*), sensitive joint-vetch (*Aeschynomene virginica*), and Cheat Mountain salamander (*Plethodon nettingi*).

A 5-year review is based on the best scientific and commercial data available at the time of the review. We are requesting submission of any such information that has become available since the most recent status review for each species.

Why do we conduct 5-year reviews and species status assessments?

Under the ESA, we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in title 50 of the Code of Federal Regulations at 50 CFR 17.11(h) (for wildlife) and 50 CFR 17.12(h) (for plants). Listed wildlife and plants can also be found at http://ecos.fws.gov/tess_public/pub/listedAnimals.jsp and http://ecos.fws.gov/tess_public/pub/listedPlants.jsp, respectively. Section 4(c)(2)(A) of the ESA requires us to review each listed species’ status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing species under active review. For additional information about 5-year reviews, refer to our fact sheet at <http://www.fws.gov/endangered/what-we-do/recovery-overview.html>.

What species are under review?

We are initiating 5-year status reviews of the species in table 1.

TABLE 1—SPECIES UNDER REVIEW

Common name	Scientific name	Status	Where listed	Listing date and citation
Shenandoah salamander ..	<i>Plethodon shenandoah</i>	Endangered	Wherever found	08/18/1989, 54 FR 34464.

TABLE 1—SPECIES UNDER REVIEW—Continued

Common name	Scientific name	Status	Where listed	Listing date and citation
Rough rabbitsfoot	<i>Quadrula cylindrica strigillata</i> .	Endangered	Wherever found	01/10/1997, 62 FR 1647.
Roanoke logperch	<i>Percina rex</i>	Endangered	Wherever found	08/18/1989, 54 FR 34468.
Harperella	<i>Ptilimnium nodosum</i>	Endangered	Wherever found	09/28/1988, 53 FR 37978.
Madison Cave isopod	<i>Antrolana lira</i>	Threatened	Wherever found	10/04/1982, 47 FR 43699.
Small whorled pogonia	<i>Isotria medeoloides</i>	Threatened	Wherever found	09/09/1982, 47 FR 39827; 10/06/1994, 59 FR 50852.
Sensitive joint-vetch	<i>Aeschynomene virginica</i> ...	Threatened	Wherever found	05/20/1992, 57 FR 21569.
Cheat Mountain salamander.	<i>Plethodon nettingi</i>	Threatened	Wherever found	08/18/1989, 54 FR 34464.

What information do we consider in our 5-year reviews and species status assessments?

A 5-year review considers all new information available at the time of the review. In conducting the review, we consider the best scientific and commercial data that have become available since the most recent status review. We are seeking new information specifically regarding:

- (1) Species biology, including, but not limited to, life-history and habitat requirements and impact tolerance thresholds;
- (2) Historical and current population conditions, including, but not limited to, population abundance, trends, distribution, demographics, and genetics;
- (3) Historical and current habitat conditions, including, but not limited to, amount, distribution, and suitability;
- (4) Historical and current threats, threat trends, and threat projections in relation to the five listing factors (as defined in section 4(a)(1) of the ESA);
- (5) Conservation measures for the species that have been implemented or are planned; and

(6) Other new information, data, or corrections, including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information received will be considered during the 5-year review and will also be useful in evaluating ongoing recovery programs for the species.

Request for New Information

To ensure that 5-year reviews are based on the best available scientific and commercial information, we request new information from all sources. If you submit information, please support it with documentation such as maps, bibliographic references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

How do I ask questions or provide information?

Please submit your questions, comments, and materials to the

appropriate contact in table 2, below. Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800-877-8339 for TTY assistance.

Public Availability of Comments

Before including your address, phone number, electronic mail address, or other personal identifying information in your submission, you should be aware that your entire submission—including your personal identifying information—may be made publicly available at any time.

Although you can request that personal information be withheld from public review, we cannot guarantee that we will be able to do so.

Contacts

New information on the species covered in this notice should be submitted by mail or electronic mail to the appropriate contact shown in table 2, by the deadline provided above in **DATES**.

TABLE 2—CONTACTS

Species	Contact person, email	Contact address
Shenandoah salamander	Jennifer Stanhope, jennifer_stanhope@fws.gov ..	U.S. Fish and Wildlife Service, Virginia Field Office, 6669 Short Lane, Gloucester, VA 23061.
Rough rabbitsfoot	Kim Maison, kim_maison@fws.gov	U.S. Fish and Wildlife Service, Southwestern Virginia Field Office, 330 Cummings Street, Abingdon, VA 24210.
Roanoke logperch	Sumalee Hoskin, sumalee_hoskin@fws.gov	U.S. Fish and Wildlife Service, Virginia Field Office, 6669 Short Lane, Gloucester, VA 23061.
Harperella	Jennifer L. Norris, jennifer_l_norris@fws.gov	U.S. Fish and Wildlife Service, West Virginia Field Office, 6263 Appalachian Highway, Davis, WV 26260.
Madison Cave isopod	Sumalee Hoskin, sumalee_hoskin@fws.gov	U.S. Fish and Wildlife Service, Virginia Field Office, 6669 Short Lane, Gloucester, VA 23061.
Small whorled pogonia	Cherry Keller, cherry_keller@fws.gov	U.S. Fish and Wildlife Service, Chesapeake Bay Field Office, 177 Admiral Cochrane Drive, Annapolis, MD 21401.
Sensitive joint-vetch	Jennifer Stanhope, jennifer_stanhope@fws.gov ..	U.S. Fish and Wildlife Service, Virginia Field Office, 6669 Short Lane, Gloucester, VA 23061.
Cheat Mountain salamander	Jennifer L. Norris, jennifer_l_norris@fws.gov	U.S. Fish and Wildlife Service, West Virginia Field Office, 6263 Appalachian Highway, Davis, WV 26260.

Authority

We publish this document under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

Wendi Weber,

Regional Director, Northeast Region.

BILLING CODE 4333–15–P

DEPARTMENT OF THE INTERIOR**Geological Survey**

[GX22WB12E6R03; OMB Control Number 1028–xxxx]

Agency Information Collection Activities; Caribou Video Data Scoring

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of Information Collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Geological Survey (USGS) are proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before January 7, 2022.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, email heatherjohnson@usgs.gov, or by telephone at 907–786–7155. Individuals who are hearing or speech impaired may call the Federal Relay Service at 1–800–877–8339 for TTY assistance. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below.

We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: We have developed an online application for project collaborators and volunteers to watch video clips that were collected from caribou collars (animal-borne video collars) and enter information about the behaviors and habitats observed in the clips. Information collected from the participants will be analyzed to describe caribou foraging behavior, how it varies across the summer, and the factors that influence it. This information is being collected as part of a long-term project to understand how climate variability influences caribou forage conditions, behaviors, distributions, and population dynamics. Results of the analyses will be published in peer-reviewed scientific publications that will be available to the public.

Title of Collection: Caribou Video Data Scoring.

OMB Control Number: 1028–NEW.

Form Number: None.

Type of Review: New.

Respondents/Affected Public: Project collaborators (including some DOI agency employees) and volunteers.

Total Estimated Number of Annual Responses: 5,000.

Estimated Completion Time per Response: 2 minutes on average.

Total Estimated Number of Annual Burden Hours: 166.

Respondent's Obligation: Voluntary.

Frequency of Collection: Depends on the time and interest of the respondent. Some respondents will enter information on a daily or weekly basis,

others will enter information less frequently.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

John Pearce,

Associate Center Director for Ecosystems.

DEPARTMENT OF THE INTERIOR**National Park Service**

[NPS–WASO–NAGPRA–NPS0032947; PPWOCRADN0–PCU00RP14.R50000]

Notice of Inventory Completion: Tennessee Valley Authority, Knoxville, TN

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The Tennessee Valley Authority (TVA) has completed an inventory of human remains and associated funerary objects in consultation with the appropriate Indian Tribes and has determined that there is no cultural affiliation between the human remains and associated funerary objects and any present-day Indian Tribe. Representatives of any Indian Tribe not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request to the TVA. If no additional requestors come forward, transfer of control of the human remains and associated funerary objects to the Indian Tribes stated in this notice may proceed.

DATES: Representatives of any Indian Tribe not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to the TVA at the address in this notice by December 8, 2021.

FOR FURTHER INFORMATION CONTACT: Dr. Thomas O. Maher, Tennessee Valley Authority, 400 West Summit Hill Drive, WT11C, Knoxville, TN 37902–1401, telephone (865) 632–7458, email tomaher@tnva.gov.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C.
