

COMMISSION ON CIVIL RIGHTS**Notice of Public Meeting of the Georgia Advisory Committee to the U.S. Commission on Civil Rights**

AGENCY: U.S. Commission on Civil Rights.

ACTION: Announcement of virtual business meeting.

SUMMARY: Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission) and the Federal Advisory Committee Act, that the Georgia Advisory Committee (Committee) to the U.S. Commission on Civil Rights will hold a virtual business meeting via Webex at 2:00 p.m. ET on Wednesday, December 8, 2021. The Committee will review testimony from the web briefings on Civil Asset Forfeiture and its Impact on Communities of Color.

DATES: The meeting will take place on Wednesday, December 8, 2021, at 2:00 p.m. ET.

Online Registration (Audio/Visual): <https://bit.ly/3z6nejb>.

Telephone (Audio Only): Dial 800-360-9505 USA Toll Free; Access code: 2762 558 0334.

FOR FURTHER INFORMATION CONTACT:

Melissa Wojnaroski, DFO, at mwojnaroski@usccr.gov or (202) 618-4158.

SUPPLEMENTARY INFORMATION:

Committee meetings are available to the public through the conference link above. Any interested member of the public may listen to the meeting. An open comment period will be provided to allow members of the public to make a statement as time allows. If joining via phone, callers can expect to incur regular charges for calls they initiate over wireless lines, according to their wireless plan. The Commission will not refund any incurred charges. Individuals who are deaf, deafblind, and hard of hearing may also follow the proceedings by first calling the Federal Relay Service at 1-800-877-8339 and providing the Service with the conference details found through registering at the web link above. To request additional accommodations, please email mwojnaroski@usccr.gov at least ten (10) days prior to the meeting.

Members of the public are also entitled to submit written comments; the comments must be received in the regional office within 30 days following the meeting. Written comments may be emailed to Liliana Schiller at lschiller@usccr.gov. Persons who desire additional information may contact the

Regional Programs Unit at (312) 353-8311.

Records generated from this meeting may be inspected and reproduced at the Regional Programs Coordination Unit Office, as they become available, both before and after the meeting. Records of the meeting will be available via www.facadatabase.gov under the Commission on Civil Rights, Georgia Advisory Committee link. Persons interested in the work of this Committee are directed to the Commission's website, <http://www.usccr.gov>, or may contact the Regional Programs Coordination Unit at the above email or street address.

Agenda

- I. Welcome & Roll Call
- II. Review Testimony & Prepare for Report
- III. Public Comment
- IV. Next Steps
- V. Adjournment

Dated: Thursday, November 4, 2021.

David Mussatt,

Supervisory Chief, Regional Programs Unit.

BILLING CODE P

DEPARTMENT OF COMMERCE**Census Bureau****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; National Survey of Children's Health**

AGENCY: Census Bureau, Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act (PRA) of 1995, invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment on the proposed revision of the National Survey of Children's Health, prior to the submission of the information collection request (ICR) to OMB for approval.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before January 10, 2022.

ADDRESSES: Interested persons are invited to submit written comments by

email to ADDP.NSCH.List@census.gov. Please reference National Survey of Children's Health in the subject line of your comments. You may also submit comments, identified by Docket Number USBC-2021-0026, to the Federal e-Rulemaking Portal: <http://www.regulations.gov>. All comments received are part of the public record. No comments will be posted to <http://www.regulations.gov> for public viewing until after the comment period has closed. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. You may submit attachments to electronic comments in Microsoft Word, Excel, or Adobe PDF file formats.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or specific questions related to collection activities should be directed to Carolyn Pickering, Survey Director, by way of phone (301-763-3873) or email (Carolyn.M.Pickering@census.gov).

SUPPLEMENTARY INFORMATION:**I. Abstract**

Sponsored primarily by the U.S. Department of Health and Human Services' Health Resources Services Administration's Maternal and Child Health Bureau (HRSA MCHB), the National Survey of Children's Health (NSCH) is designed to produce data on the physical and emotional health of children under 18 years of age who live in the United States. The United States Department of Agriculture (USDA) and the United States Department of Health and Human Services' Center for Disease Control and Prevention, National Center on Birth Defects and Developmental Disabilities (CDC-NCBDDD) sponsor supplemental content on the NSCH. Additionally, the upcoming cycle of the NSCH plans to include five returning age-based or state-based oversamples and one new region-based oversample. The age-based oversample would be funded by the United States Department of Health and Human Services' Center for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion (CDC-NCCDPHP). The state- or region-based oversamples would be sponsored by Children's Health Care of Atlanta, the State of Colorado, the State of Nebraska, the Ohio Department of Health, the Oregon Center for Children and Youth

with Special Health Care Needs, and the State of Tennessee.

The NSCH collects information on factors related to the well-being of children, including access to health care, in-home medical care, family interactions, parental health, school and after-school experiences, and neighborhood characteristics. The goal of the 2022 NSCH is to provide HRSA MCHB, the supplemental sponsoring agencies, states, regions, and other data users with the necessary data to support the production of national estimates yearly and state- or region-based estimates with pooled samples on the health and well-being of children, their families, and their communities as well as estimates of the prevalence and impact of children with special health care needs.

NSCH is seeking clearance to make the following changes:

- **Increased sample size**—The MCHB sponsored NSCH sample plus the separately sponsored age-, state-, or region-based oversamples will be approximately 360,000 addresses for the 2022 NSCH, compared with 300,000 in 2021. The increased sample will allow individual states and agencies to produce statistically sound child health estimates in a fewer number of pooled years than if the sample were to remain the same annually, thereby resulting in more timely age-, state- and region-based health estimates of children.

- **Revised questionnaire content**—The NSCH questionnaires with newly proposed and revised content from the sponsors at HRSA MCHB are currently undergoing two rounds of cognitive testing. This testing request was submitted under the generic clearance package and approved by OMB.¹ Based on the results, a final set of proposed new and modified content will be included in the full OMB ICR for the 2022 NSCH.

- **Oversamples**²—In order to inform various priorities that are otherwise not supported by the NSCH, some stakeholders have shown interest in sponsoring an oversample of particular populations as part of the annual NSCH administration. Currently, there are five states, one region, and one federal partner contributing to an oversample as part of the 2022 NSCH. Four states (Colorado, Nebraska, Ohio, and Oregon)

and the Atlanta, GA Metro Area were initially oversampled in 2020 or 2021 and are continuing with the option as part of the 2022 NSCH. One additional state (Tennessee) will be oversampled for the first time in 2022. CDC–NCCDPHP is supporting an oversample of households with young children. Additionally, MCHB is requesting oversamples within the states of California, New York, Pennsylvania, and Wyoming.

Besides the proposed changes listed above, the 2022 NSCH will proceed with the current design outlined in the previous OMB ICR package, including the use of incentives. Response rates for the unconditional monetary incentive group continues to show a statistically significant difference over the control group that did not receive an unconditional monetary incentive. As part of the initial screener mailing, 90% will include \$5 and 10% will not receive an incentive. The incentive assignment to each sampled address would still be random as was done in prior cycles and approved by OMB. Additionally, the use of a \$5 or \$10 incentive with the initial paper topical mailing will be used. We will continue to make modifications to data collection strategies based on modeled information about paper or internet response preference. Results from prior survey cycles will continue to be used to inform the decisions made regarding future cycles of the NSCH.

From prior cycles of the NSCH, using American Association for Public Opinion Research definitions of response, we can expect for the 2022 NSCH an overall screener completion rate to be about 44.5% and an overall topical completion rate to be about 36.0%. This is different from the overall response rate, which we expect to be about 40.3%.

II. Method of Collection

The 2022 NSCH plan for the web push data collection design includes approximately 70% of the production addresses receiving an initial invite with instructions on how to complete an English or Spanish-language screener questionnaire via the web. Households that decide to complete the web-based survey will be taken through the screener questionnaire to determine if they are eligible for one of three topical instruments. Households that list at least one child who is 0 to 17 years old in the screener are directed into a topical questionnaire immediately after the last screener question. If a household in the web push treatment group decides to complete the paper screener, the household may have a

chance to receive an additional topical questionnaire incentive. This group will receive two web survey invitation letters requesting their participation in the survey prior to receiving up to two additional paper screener questionnaires in the second and third follow-up mailings.

The 2022 NSCH plan for the mixed-mode data collection design includes up to 30% of the production addresses receiving a paper screener questionnaire in either the initial or the first nonresponse follow-up and instructions on how to complete an English or Spanish language screener questionnaire via the web. Households that decide to complete the web-based survey will follow the same screener and topical selection path as the web push. Households that choose to complete the paper screener questionnaire rather than completing the survey on the internet and that have eligible children will be mailed a paper topical questionnaire upon receipt of their completed paper screener at the Census Bureau's National Processing Center. If a household in the mixed-mode group chooses to complete the paper screener instead of completing the web-based screener via the internet, then the household may receive an additional topical questionnaire incentive. This group will receive both a web survey invitation letter along with a mailed paper screener questionnaire with either the initial invitation or the first follow-up and each additional nonresponse follow-up mailing.

III. Data

OMB Control Number: 0607–0990.
Form Number(s): NSCH–S1 (English Screener), NSCH–T1 (English Topical for 0- to 5-year-old children), NSCH–T2 (English Topical for 6- to 11-year-old children), NSCH–T3 (English Topical for 12- to 17-year-old children), NSCH–S–S1 (Spanish Screener), NSCH–S–T1 (Spanish Topical for 0- to 5-year-old children), NSCH–S–T2 (Spanish Topical for 6- to 11-year-old children), and NSCH–S–T3 (Spanish Topical for 12- to 17-year-old children).

Type of Review: Regular submission, Request for a Revision of a Currently Approved Collection.

Affected Public: Parents, researchers, policymakers, and family advocates.

Estimated Number of Respondents: 131,884.

Estimated Time per Response: 5 minutes per screener response and 35–36 minutes per topical response, which in total is approximately 40–41 minutes for households with eligible children.

Estimated Total Annual Burden Hours: 46,587.

¹ Generic Clearance Information Collection Request: https://www.reginfo.gov/public/do/PRAViewIC?ref_nbr=201909-0607-002&icID=248532.

² State Oversampling in the National Survey of Children's Health: Feasibility, Cost, and Alternative Approaches https://census.gov/content/dam/Census/programs-surveys/nsch/NSCH_State_Oversample_Summary_Document.pdf.

Estimated Total Annual Cost to Public: \$0 (This is not the cost of respondents' time, but the indirect costs respondents may incur for such things as purchases of specialized software or hardware needed to report, or expenditures for accounting or records maintenance services required specifically by the collection.)

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C. Section 8(b); 42 U.S.C. Section 701; 42 U.S.C. Section 1769d(a)(4)(B); and 42 U.S.C. Section 241.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include, or summarize, each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans to request a 3-year approval from the Office of Management and Budget (OMB) for a new survey, the Business Pulse Survey. During the Coronavirus pandemic, the Census Bureau launched new weekly and monthly programs to measure the pandemic's impact on the economy. The Census Bureau was commended by policy makers, media, academia, and other stakeholders on its timeliness and rapid response to their data needs to understand the impact of the pandemic on the economy. The Census Bureau has a need to collect and publish economic baseline data on a frequent, ongoing basis.

The Business Pulse Survey will be a new experimental survey with bi-weekly data collection and publication. This continuous near real time data publication will provide a baseline of the U.S. economy and will measure change as a result of current and future economic shocks. The ongoing nature of the Business Pulse Survey is in response to stakeholder feedback on the Small Business Pulse Survey (SBPS), which was that economic baseline or 'norms' data would have been helpful to have in comparison to the SBPS data on pandemic impact.

The Business Pulse Survey will evolve and progress to its full desired scope over time, in stages or phases. The Census Bureau plans to learn from the incremental progress of the Business Pulse Survey and make improvements to the survey as it matures. Initially, the Business Pulse Survey will be an expansion of the Small Business Pulse Survey (OMB Number: 0607-1014). The SBPS was restricted to small businesses with 1-499 employees and included only a single island territory, Puerto Rico. The Business Pulse Survey's initial sample criteria will include all single unit employer businesses in the U.S. and U.S. Island Areas. At full scope, the Business Pulse Survey will allow for data collection from businesses across most non-farm sectors of the U.S. economy, while producing statistics on employer and non-employer businesses across all employer size classes, as well as geographically detailed data on the fifty U.S. states, Washington DC, and the U.S. Island Areas.

The Business Pulse Survey will collect the following high-level topics:

- Overall current business performance or business climate
- Change in operating revenues/sales/receipts
- Change in employment
- Change in hours of paid employees
