[Docket Nos. CP07-414-000; CP07-415-000; CP07-416-000]

Golden Triangle Storage, Inc.; Notice of Request for Extension of Time

Take notice that on October 29, 2021, Golden Triangle Storage, Inc. (GTS) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until December 31, 2024, in order to development of Storage Caverns 1 and 2 up to their maximum certificated storage capacities in Jefferson and Orange Counties, Texas. In a December 31, 2007 Order Issuing Certificates the Commission Approved the construction and operation of the GTS project (2007 Order)¹ The 2007 Order required Golden Triangle Storage, Inc to complete construction and make the facilities available for service within six years of the certificate order, that is, by December 13, 2013, pursuant to section 157.20(b) of the Commission's regulations.

In its October 29, 2021 request GTS had stated the 2007 Order recognized that after the caverns are placed in service, they will undergo additional solution mining to increase the working gas capacity of each cavern to its total certificated capacity. On October 15, 2013, GTS filed a request for an extension of time for an additional four years, until December 31, 2017, to complete the project.² On November 15, 2013, the Commission granted an extension of time until and including December 31, 2017, to complete construction of the facilities.³ Due to the capacity of the leaching facilities, GTS states that it must alternate the solution mining of each cavern, thus GTS has requested by its August 29, 2017 letter an additional four year extension of time to complete the leaching of their storage caverns to their maximum certificated capacities.⁴ The Commission, on November 1, 2017, granted an additional extension of time until and including December 31, 2021,
