50 CFR Part 622

[Docket No. 160906822-7547-02; RTID 0648-XB566]

Snapper-Grouper Fishery of the South Atlantic; 2021 Commercial Accountability Measure and Closure of the Georgia, South Carolina, and North Carolina Hogfish Stock in the South Atlantic

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS implements accountability measures (AMs) applicable to the commercial harvest of hogfish in the South Atlantic exclusive economic zone (EEZ) off Georgia, South Carolina, and North Carolina (Georgia-North Carolina) for the 2021 fishing year through this temporary rule. NMFS estimates that commercial landings of the Georgia-North Carolina hogfish stock have reached the sector's annual catch limit (ACL). Therefore, NMFS closes the commercial sector for the Georgia-North Carolina hogfish stock on November 10, 2021. This closure is necessary to protect the hogfish resource.

DATES: This rule is effective 12:01 a.m., local time, November 10, 2021, until 12:01 a.m., local time, January 1, 2022.

FOR FURTHER INFORMATION CONTACT: Mary Vara, NMFS Southeast Regional Office, telephone: 727-824-5305, email: mary.vara@noaa.gov.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery of the South Atlantic includes hogfish and is

managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The FMP was prepared by the South Atlantic Fishery Management Council and is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

On August 24, 2017, NMFS implemented management measures for hogfish through a final rule for Amendment 37 to the FMP (82 FR 34584; July 25, 2017). For South Atlantic hogfish, that final rule set management and AMs as two stocks: Georgia, South Carolina, and North Carolina (Georgia-North Carolina), and Florida Keys/East Florida (Florida Keys-East Florida). It also specified fishing levels and AMs for those stocks, according to each sector. The commercial inseason AM for Georgia-North Carolina states that if commercial landings reach or are projected to reach the commercial ACL, then the commercial sector will be closed for the remainder of the fishing year (50 CFR 622.193(u)(1)(i)(A)).

The commercial ACL for the Georgia-North Carolina hogfish stock is 23,456 lb (10,639 kg), round weight (50 CFR 622.193(u)(1)(iii)(A)). The NMFS Southeast Fisheries Science Center indicates that the commercial ACL for the Georgia-North Carolina hogfish stock has been reached. Therefore, this temporary rule implements an AM to close the commercial sector of the Georgia-North Carolina hogfish stock for the remainder of the 2021 fishing year. As a result, the 2021 commercial harvest for the Georgia-North Carolina hogfish stock in Federal waters of the South Atlantic EEZ will be closed effective 12:01 a.m., local time, November 10, 2021. During the closure, the recreational bag and possession limits for the Georgia-North Carolina hogfish stock in or from South Atlantic Federal waters is two fish per person, per day.

All sale or purchase of hogfish in or from Federal waters of the South Atlantic off Georgia, South Carolina, and North Carolina is prohibited, and harvest or possession of this species is limited to the bag and possession limits while the recreational sector is open. These bag and possession limits apply to the Georgia-North Carolina hogfish stock on board a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued, without regard to where such species were harvested, *i.e.*, in state or Federal waters (50 CFR 622.193(u)(1)(i)(A)).

Commercial harvest for the 2022 fishing year for the Georgia-North Carolina hogfish stock in South Atlantic Federal waters will open at 12:01 a.m., local time, on January 1, 2022.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 50 CFR 622.193(u)(1)(i)(A), which was issued pursuant to section 304(b) of the Magnuson-Stevens Act, and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), the NMFS Assistant Administrator (AA) finds good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment are unnecessary and contrary to the public interest. Such procedures are unnecessary because the rule that established the commercial ACL and AMs for hogfish has already been subject to notice and comment, and all that remains is to notify the public of the closure. Such procedures are contrary to the public interest because of the need to immediately implement this action to protect the Georgia-North Carolina hogfish stock. The commercial ACL for the Georgia-North Carolina hogfish stock in the South Atlantic has been reached and prior notice and opportunity for public comment would require time, resulting in a harvest well in excess of the established commercial ACL.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 5, 2021.

Ngagne Jafnar Gueye,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-BK96

Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Removal of Prohibitions for Gillnet Gear in Nantucket Lightship and Closed Area I

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This action reopens gillnet fishing in the Nantucket Lightship and Closed Area I Closure Areas previously ordered suspended by a Court decision. Gillnet fishing will be allowed in the Nantucket Lightship and Closed Area I Groundfish Closure Areas, as approved in the New England Fishery Management Council's Omnibus Essential Fish Habitat Amendment 2. This action is necessary to end the suspension of measures from a previously approved and implemented Council action and remove temporary prohibitions that were in place to comply with a Federal court order.

DATES: Effective on November 10, 2021.

FOR FURTHER INFORMATION CONTACT: Moira Kelly, Senior Fishery Program Specialist, Greater Atlantic Regional Fisheries Office, 978-281-9218 Moira.Kelly@noaa.gov.

SUPPLEMENTARY INFORMATION: On January 3, 2018, NMFS partially approved the New England Fishery Management Council's Omnibus Essential Fish Habitat Amendment 2. The Omnibus Amendment updated essential fish habitat designations for all Council-managed species and implemented changes to the spatial management of Council-managed fisheries throughout the Gulf of Maine, Georges Bank, and Southern New England. On April 9, 2018, a final rule implemented the approved measures (83 FR 15240). The final rule opened, modified, and maintained various previously closed areas, as well as established new closures to implement approved measures of the Amendment. The Nantucket Lightship and Closed Area I Groundfish Closure Areas were opened to fishing by gears capable of catching groundfish, including gillnets and bottom-trawls, throughout the areas

in this final rule. (Note, scallop fishing was prohibited for a brief time, pending a follow-on scallop action that incorporated the newly opened areas into the Scallop Fishery Management Plan's rotational management program. See: 83 FR 17300; April 19, 2018.) Directed groundfish fishing had been prohibited in these general areas consistently since the 1980s and early 1990s.

The Conservation Law Foundation filed suit against NMFS arguing that the rulemaking process that allowed the opening of the Nantucket Lightship and Closed Area I Groundfish Closure Areas to gears capable of catching groundfish, including gillnet gear, was not done in compliance with the Endangered Species Act consultation requirements as it pertains to North Atlantic right whales.

On October 28, 2019, First District Court Judge James E. Boasberg (see *Conservation Law Found. v. Ross, No. CV 18-1087 (JEB), 2019 WL 5549814 (D.D.C. Oct. 28, 2019)*) agreed with the Conservation Law Foundation and enjoined NMFS from allowing gillnet fishing in those previously closed areas, until such time that NMFS fully complied with the requirements of the Endangered Species Act and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). We implemented that suspension through a final rule on December 17, 2019 (84 FR 68798).

Reopening Closure Areas to Gillnet Fishing

Recently, NMFS completed the Endangered Species Act Section 7 Consultation on 10 fisheries and the New England Fishery Management Council's Omnibus Essential Fish Habitat Amendment. The consultation concluded that the implementation of the approved portions of the Amendment, including removing the prohibition on gillnet fishing in the Nantucket Lightship and Closed Area I Groundfish Closure Areas, would not result in large shifts of fishing effort across or within the region. As a result, these shifts are not expected to increase the risk to protected species in the region. The completion of this consultation satisfied the requirements of the court order.

Therefore, this action re-opens the Nantucket Lightship and Closed Area I Closure Area to gillnet fishing, as approved in the Omnibus Habitat Amendment.
