DATES: *Comments due within 30 days of publication.* OMB must make a decision about the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

SUPPLEMENTARY INFORMATION:

Description: The purpose of the FACES data collection is to support the 2007 reauthorization of the Head Start program (Pub. L. 110–134), which calls for periodic assessments of Head Start’s quality and effectiveness.

FACES 2019 focuses on Head Start Regions I through X (which are geographically based); AIAN (American Indian and Alaska Native) FACES 2019 focuses on Region XI (which funds Head Start programs that serve federally recognized American Indian and Alaska Native tribes). Both studies will provide data on a set of key indicators for Head Start programs. Information about the Head Start program recruitment and center selection processes and on the fall 2019, spring 2020, and fall 2021 data collection activities for both FACES and AIAN FACES can be found here: https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=202005-0970-009.

This 30-day notice describes:

- The spring 2022 round of FACES program- and classroom-level data collection.
- A follow-up in spring 2022 of the fall 2021 FACES and AIAN FACES child-level data collection.

FACES spring 2022 data collection will take place in 180 Head Start programs nationwide. Of the 180

programs, 60 will have participated in fall data collection and 120 will be added to participate in classroom- and program-data collection only. AIAN FACES will continue in the same 22 programs that participated in 2019, 2020, and 2021 data collection. Data collection activities will include teacher sampling (for the 120 FACES programs not part of fall 2021), parent surveys, teacher child reports, staff surveys, and, for FACES, classroom observations.

In the additional 120 programs added to FACES in spring 2022, data collection will begin with sampling of FACES teachers in 240 Head Start centers. Study team members will request a list of all teachers working with Head Start-funded children.

As in fall 2021, for the spring 2022 follow-up data collection, FACES will survey the parents of 2,400 Head Start children in Regions I–X (FACES 2019) and 800 children in Region XI (AIAN FACES 2019) and ask their Head Start teachers to rate children’s learning skills and social and emotional skills. Parents of sampled children (2,400 for FACES and 800 for AIAN FACES) will complete surveys on the web or by telephone about their children and family. In all 202 programs (180 for FACES and 22 for AIAN FACES), Head Start teachers will rate each sampled child (approximately 10 children per teacher) using the web or paper-and-pencil forms. Teachers, program directors, and center directors will also complete a survey, also using the web or paper-and-pencil forms, about themselves and the services and instruction at Head Start.

Respondents: Parents of Head Start children; Head Start staff.
