

impacts resulting from SPI's timber harvest activities on SPL&T lands in the Sacramento and Trinity River basins upstream of currently impassable dams, where NMFS is proposing to reintroduce populations of ESA-listed salmonids. The purpose of the SHA is to provide incentives for non-Federal property owners to voluntarily conduct beneficial management activities that either support or attract ESA-listed species. The beneficial management activities proposed under the SHA will improve habitat within the SHA Plan Area by using SPI's Road Erosion and Sediment Delivery Index (READI) model to identify sources of sediment from road runoff. Road watercourse crossing improvements will be applied, such as new drains and road surfacing, to reduce sediment delivery to the maximum extent practicable. SPI will also support ESA-listed species reintroduction efforts proposed by NMFS, which is expected to contribute towards the recovery of ESA-listed anadromous fish populations in the Sacramento River and Trinity River basins. These actions are expected to provide a net conservation benefit for ESA-listed salmonids.

On June 19, 2020, NMFS published a Notice of Receipt and Notice of Availability in the **Federal Register** (85 FR 37070; June 19, 2020) asking for public comments on the draft HCP/SHA and the associated draft NEPA EA. NMFS received three letters from the public expressing support for the HCP/SHA and the proposed issuance of the permits. No changes were made in response to the comments received, as none were suggested or requested by the public.

Authority

Section 9 of the ESA and Federal regulations prohibit the taking of a species listed as endangered or threatened. The ESA defines "take" to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may issue permits under limited circumstances to take listed species. Section 10(a)(1)(B) of the ESA and implementing regulations (50 CFR 222.307) provide for authorizing take of listed species, incidental to, and not the purpose of, the carrying out of an otherwise lawful activity.

Enhancement of Survival permits are issued in accordance with Section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR 222.308). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith; (2) if granted

and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permits.
