

Stop HIV Together campaign focused on HIV prevention that promotes proven, effective prevention strategies, such as pre-exposure prophylaxis (PrEP) and treatment as prevention (TasP). We are requesting a one-year extension to continue surveying target audiences.

Through this extension, we plan to reach the remaining approved 5,445 respondents. To obtain the remaining respondents, we anticipate screening approximately 30,880 individuals. Depending on the target audience for

the campaign phase, the study screener will vary. The study screener may address one or more of the following items: Race/ethnicity, sexual behavior, sexual orientation, gender identity, HIV testing history, HIV status, and injection drug use. Each survey will have a core set of items asked in all rounds, as well as a module of questions relating to specific Let's Stop HIV Together phases and activities.

Respondents will be recruited through national opt-in email lists, the internet,

and external partnerships with community-based and membership organizations that work with or represent individuals from targeted populations (e.g., National Urban League, the National Medical Association). Respondents will self-administer the survey at home on personal computers. The annual response burden is estimated at 3,751 hours. There is no cost to the respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hr)
Individuals (male and female) aged 18 years and older	Study Screener ...	30,880	1	2/60
	Survey Module	5,445	1	30/60

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-22-1318; Docket No. CDC-2021-0124]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Requirement for Negative Pre-Departure COVID-19 Test Result or Documentation of Recovery from COVID-19 For All Airline or Other Aircraft Passengers Arriving into the United States from any Foreign Country and Requirement for Proof of COVID-19 Vaccination for Noncitizen,

Nonimmigrant Air Passengers Arriving Into The United States From A Foreign Country. This proposed information collection is designed to ensure that CDC complies with Orders published October 25 and October 30, 2021, and to confirm that passengers who are coming into the United States via air travel have tested negative for or recently recovered from COVID-19, and that noncitizen, nonimmigrant passengers are fully vaccinated against COVID-19.

DATES: CDC must receive written comments on or before January 18, 2022.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2021-0124 by any of the following methods:

- *Federal eRulemaking Portal: Regulations.gov.* Follow the instructions for submitting comments.

- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to *Regulations.gov*.

Please note: Submit all comments through the Federal eRulemaking portal (*regulations.gov*) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS

H21-8, Atlanta, Georgia 30329; phone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submissions of responses; and
 5. Assess information collection costs.

Proposed Project

Requirement for Negative Pre-Departure COVID-19 Test Result or Documentation of Recovery from COVID-19 For All Airline or Other Aircraft Passengers Arriving into the United States from any Foreign Country and Requirement for Proof of COVID-19 Vaccination for Noncitizen, Nonimmigrant AirPassengers Arriving Into The United States From A Foreign Country (OMB Control No. 0920-1318, Exp. 5/31/2022)—Revision—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Since January 2020, the respiratory disease known as “COVID-19,” caused by a novel coronavirus (SARS-CoV-2), has spread globally, including cases reported in all 50 states within the United States, plus the District of Columbia and all U.S. territories. As of October 22, 2021, there have been over 242,000,000 million cases of COVID-19 globally, resulting in over 4,900,000 deaths. More than 45,000,000 cases have been identified in the United States, with new cases reported daily, and over 733,000 deaths have been attributed to the disease. Many countries have begun widespread vaccine administration; however, 98 countries continue to experience high or substantial incidence rates (>50 cases per 100,000 people in the last seven days) and 65 countries, including the United States, are experiencing a high incidence of reported new cases at this time.¹⁹

SARS-CoV-2 spreads mainly from person-to-person through respiratory fluids released during exhalation, such as when an infected person coughs, sneezes, or talks. Exposure to these respiratory fluids occurs in three principal ways: (1) Inhalation of very fine respiratory droplets and aerosol

particles, (2) deposition of respiratory droplets and particles on exposed mucous membranes in the mouth, nose, or eye by direct splashes and sprays, and (3) touching mucous membranes with hands that have been soiled either directly by virus-containing respiratory fluids or indirectly by touching surfaces with virus on them. Spread is more likely when people are in close contact with one another (within about 6 feet), especially in crowded or poorly ventilated indoor settings. Persons who are not fully vaccinated, including those with asymptomatic or pre-symptomatic infections, are significant contributors to community SARS-CoV-2 transmission and occurrence of COVID-19. New variants of SARS-CoV-2 have emerged globally, several of which have been identified as variants of concern, including the Delta variant. Some variants are more transmissible and some may cause more severe disease, which can lead to more hospitalizations, and deaths among infected individuals.

On October 25, 2021 CDC amended its January 25, 2021 Order, titled, “Requirement for Proof of Negative COVID-19 Test or Recovery from COVID-19 for All Air Passengers Arriving in the United States.” This amendment updates COVID-19 testing requirements for air passengers two years or older boarding a flight to the United States, depending on COVID-19 vaccination status. Those who are fully vaccinated will need to provide a negative pre-departure COVID-19 test conducted with a specimen no more than 3 days before travel to the US, as well as proof of being fully vaccinated. While those who are not fully vaccinated will need to provide a negative pre-departure COVID-19 test conducted with a specimen no more than one day of before travel to the U.S.

The Order requiring a negative COVID-19 test or documentation of recovery has a list of categorical exemptions that would not be subject to this information collection. These include, crew members of airlines or

other aircraft operators who follow industry standard protocols for the prevention of COVID-19; airlines or other aircraft operators transporting passengers with COVID-19 pursuant to CDC authorization and in accordance with CDC guidance; U.S. federal law enforcement personnel on official orders; U.S. military personnel, including civilian employees, dependents, contractors, and other U.S. government employees when traveling on U.S. military assets; and any person who may apply and receive a time limited exemption for urgent humanitarian reasons.

Also on October 25, 2021, President Biden issued a Proclamation “Advancing Safe Resumption of Global Travel During the COVID-19 Pandemic”. This Proclamation allowed CDC to issue an Order Implementing Proclamation on Advancing Safe Resumption of Global Travel During the COVID-19 Pandemic on October 25, 2021, followed by an amendment on October 30, 2021 which provided minimal updates and superseded the October 25, 2021 Order.

This Proclamation and Order will only apply to noncitizen, nonimmigrants. It will not apply to any person who is a U.S. citizen, U.S. national, lawful permanent resident, or immigrant. The Proclamation also does not apply to crew members of airlines or other aircraft operators if they follow industry standard protocols for the prevention of COVID-19. Some noncitizen, nonimmigrants who are not fully vaccinated, as defined by the Order, may fall into a category that allows them to be excepted to the requirement if they can present to an airline or aircraft operator that they meet the criteria for that category, such as letters confirming registration in a vaccine clinical trial, or U.S. military identification.

For information collection activities associated with these Orders, CDC requests OMB approval for an estimated 352,538,030 annual burden hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Air Passenger	Section 1 of Combined Passenger Disclosure and Attestation to the United States of America.	123,000,000	1	2	246,000,000
Noncitizen Nonimmigrant Air Passenger.	Section 2 of Combined Passenger Disclosure and Attestation to the United States of America.	90,000,000	1	1	90,000,000

ESTIMATED ANNUALIZED BURDEN HOURS—Continued

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Airline Desk Agent	Combined Passenger Disclosure and Attestation to the United States of America.	123,000,000	1	8/60	16,400,000
Air Passenger	Request Humanitarian Exemption to COVID-19 Test or Documentation of Recovery.	600	1	2	1,000
Noncitizen Nonimmigrant Air Passenger.	Request Humanitarian or Emergency Exception to Proof of Vaccination Requirement.	600	1	2	1,000
Air Passenger (undergoing compliance check).	Questions Asked to Air Passengers Going Through Compliance Checks.	1,230,000	1	5/60	102,500
Air Passenger (undergoing compliance check with non-compliant documentation).	Air Travel Illness or Death Investigation or Traveler Follow-up Form.	7,380	1	10/60	1,230
Noncitizen Nonimmigrant Air Passenger (undergoing compliance check and using humanitarian or emergency exception).	Air Travel Illness or Death Investigation or Traveler Follow-up Form.	190,000	1	10/60	31,667
Air Traveler (for illness or death investigation).	Air Travel Illness or Death Investigation or Traveler Follow-up Form.	1,700	1	15/60	425
Returned Inadmissible Passenger	Contact information collection for public health follow up.	835	1	5/60	70
Airline Representative	Contact information collection for public health follow up.	835	1	10/60	139
Total	352,538,030

Jeffrey M. Zirger,

Lead, Information Collection Review Office, Office of Scientific Integrity, Office of Science, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Intergovernmental Reference Guide (IRG) (OMB No.: 0970-0209)

AGENCY: Office of Child Support Enforcement, Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: The Administration for Children and Families (ACF), Office of Child Support Enforcement (OCSE), is requesting the Office of Management

and Budget (OMB) to approve the Intergovernmental Reference Guide (IRG), with content and organizational revisions, for an additional three years. The IRG contains state and tribal child support information that assists state and tribal child support enforcement (CSE) agencies administering their respective programs. The current OMB approval expires on January 31, 2022.

DATES: *Comments due within 30 days of publication.* OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent directly to the following: www.reginfo.gov/public/do/PRAMain. Find this particular information

collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION:

Description: The IRG is a centralized and automated repository of state and tribal profiles that contains high-level descriptions of each CSE program. These profiles provide state, tribal, and foreign country CSE agencies with an effective and efficient method for updating and accessing information needed to process intergovernmental child support cases. Fourteen comments received after the 60-day **Federal Register** publication and comment period have resulted in revisions to the proposed state profile to clarify the content and amend the organizational format. No comments were received regarding the proposed tribal profile organizational changes.

Respondents: State and Tribal Child Support Enforcement Agencies.

ANNUAL BURDEN ESTIMATES

Information collection instrument	Total number of annual respondents	Number of annual responses per respondent	Average annual burden hour per response	Annual burden hours
IRG: State Profile Guide(states and territories)	54	18	0.3	292
IRG: Tribal Profile Guide	62	18	0.3	335
