

Estimated annual number of responses per respondent: 14.

Estimated annual number of responses: 231.

Estimated total annual burden on respondents: 158 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 8th day of November 2021.

Jack Shere,

Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: USDA National Hunger Clearinghouse Database Form.

Form Number: FNS-543.

OMB Number: 0584-0474.

Expiration Date: 02/28/2022.

Type of Request: Extension of Collection.

Abstract: Section 26(d) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1769g(d)) (the Act), which was added to the Act by section 123 of Public Law 103-448 on November 2, 1994, mandated that FNS enter into a contract with a non-governmental

organization to establish and maintain an information clearinghouse (named "USDA National Hunger Clearinghouse" or "Clearinghouse") for groups that assist low-income individuals or communities regarding nutrition assistance programs or other assistance. Section 26(d) of this Act was amended again by Public Law 113-79 on May 20, 2021 to extend funding for the Clearinghouse through fiscal year 2022 for \$250,000. FNS awarded this contract to the hunger advocacy organization Hunger Free America on May 1, 2019.

The Clearinghouse includes a database of non-governmental, grassroots organizations in the areas of hunger and nutrition, along with a mailing list to communicate with these organizations. These organizations enter their information into the database, and Clearinghouse staff use that information to provide the public with information about where they can get food assistance. Surveys (FNS-543) will be completed online at www.hungerfreeamerica.org. Information from past collections will be used as an estimate for future data collection for fiscal year 2021. From this information collection, the following information was determined:

Affected Public: Respondent groups identified include (1) Food banks—Not for Profit, (2) Business or Other For-Profits, and (3) Other Not For Profit. Most of these groups are organizations providing nutrition assistance services to the public.

Estimated Number of Respondents: 600.

Estimated Number of Responses per Respondent: Each respondent is expected to only participate in one survey.

Estimated Total Annual Responses: 600.

Estimated Time per Response: 5 minutes (0.0833 hours).

Estimated Total Annual Burden on Respondents: 3,000 minutes (50 hours).

See the table below for estimated total annual burden for each type of respondent.

Respondent	Estimated number respondent	Responses annually per respondent	Total annual responses (col. bxc)	Estimated avg. number of hours per response	Estimated total hours (col. bxc)
Reporting Burden					
Food Banks (Not for Profit)	300	1	300	0.0833	24.99
Business and Other For Profit	100	1	100	0.0833	8.33
Other Not For Profit	200	1	200	0.0833	16.66
Total Reporting Burden	600	600	49.98

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Construction Progress Reporting Surveys

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on August 27, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Commerce.

Title: Construction Progress Reporting Surveys.

OMB Control Number: 0607–0153.

Form Number(s): C–700, C–700(R), C–700(SL), C–700(F).

Type of Request: Regular submission, Request for an Extension, without change of a currently approved collection.

Number of Respondents: 22,000.

Average Hours per Response:

Respondents will each complete 12 monthly reports on average. We estimate it will take 30 minutes to complete the survey the first month and 10 minutes each remaining month that the project is under construction.

Burden Hours: 51,333.

Needs and Uses: The Construction Progress Reporting Surveys (CPRS) collect information on the dollar value of construction put in place on non-residential building projects under construction by private companies or individuals, private multifamily residential buildings, and building projects under construction by federal and state and local governments.

Form C–700 is used to collect data on the construction of privately-owned nonresidential buildings and structures.

Form C–700(R) is used to collect data on privately-owned residential building projects with two or more housing units. Form C–700(SL) is used to collect data on state and local government construction projects. Form C–700(F) is used to collect data on federal government construction projects.

The Census Bureau uses the information collected on these forms to publish estimates of the monthly dollar value of construction put in place. Statistics from the CPRS become part of the monthly “Value of Construction Put in Place” or “Construction Spending” series, a Principal Economic Indicator. Published estimates are used by a variety of private business and trade associations to estimate the demand for building materials and to schedule production, distribution, and sales efforts. They also provide various government agencies with a tool to evaluate economic policy. For example, Bureau of Economic Analysis staff use data to develop the construction components of gross private domestic investment in the gross domestic product. The Federal Reserve Board and the Department of the Treasury use the value put in place data to predict the gross domestic product, which is presented to the Board of Governors and has an impact on monetary policy.

Affected Public: Business or other for-profit organizations; Not-for-profit institutions; State, Local, or Tribal government; Federal government.

Frequency: Monthly.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Sections 131 and 182.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0607–0153.

Title: Management and Organizational Practices Survey.

OMB Control Number: 0607–0963.

Form Number(s): MP–10002.

Type of Request: Regular submission, Request for a Reinstatement, with Change, of a Previously Approved Collection.

Number of Respondents: 51,000.

Average Hours per Response: 45 minutes.

Burden Hours: 38,250.

Needs and Uses: The 2021 Management and Organizational Practices Survey (MOPS) will be conducted as a joint project by the Census Bureau, the University of Chicago Booth School of Business, Stanford School of Humanities and Sciences, and the Stanford Institute for Human-Centered Artificial Intelligence. The MOPS will utilize the Annual Survey of Manufactures (ASM) sample and collect information on management and organizational practices at the establishment level. Data obtained from the survey will allow the Census Bureau to estimate a firm's stock of management and organizational assets, specifically the use of establishment performance data, such as production targets in decision-making and the prevalence of decentralized decision rights. The results will provide information on investments in management and organizational practices thus providing a better understanding of the benefits
