Title: SNAP E&T Performance Measure, Monitoring, and Reporting Requirements.

Form Number: Not applicable.

OMB Number: 0584-0614.

Expiration Date: 12/31/2022.

Type of Request: Extension, without change, of a currently approved collection.

Abstract: Section 16(h)(5) of the Food and Nutrition Act of 2008, as amended, and Supplemental Nutrition Assistance Program (SNAP) regulations at 7 CFR 273.7(c)(17) require State agencies to submit annual outcome reports to monitor the effectiveness of SNAP Employment and Training (E&T) programs. State agencies must maintain records in order to support data reported in the annual outcome reports. The information collected on the annual outcome report includes: (1) The

number and percentage of E&T participants who retain employment 2 quarters and 4 quarters after completing E&T; (2) the median wages for participants with earnings 2 quarters after completion of E&T; (3) the number and percentage of participants that completed a training, education, work experience or on-the-job training component; (4) certain unique characteristics of SNAP E&T participants; and (5) additional reporting requirements for State agencies that pledge to serve all at-risk Able-bodied Adults without Dependents (ABAWDs). State agencies are also required to identify appropriate outcome reporting measures for each proposed component that is intended to serve a threshold number of participants of at least 100 a year. The reporting measures for these components are identified in State agencies' E&T annual plans (OMB Control Number 0584-0083, expiration 8/31/2023) and the outcome data are reported to the Food and Nutrition Service (FNS) in State agencies' annual outcome reports. State agencies are required to submit outcome reports to FNS Regional Offices annually.

Using the information from the annual outcome reports, as well as information contained within States' Employment and Training Plans and quarterly Program Activity Reports (FNS-583) collected through the Food Programs Reporting System (FPRS) (OMB Control Number 0584-0594, expiration 07/31/2023), FNS conducts an analysis to identify and resolve technical or programmatic issues with the data as reported by the State agencies. Once data issues are resolved FNS prepares an Outcome Summary Report and a Technical Assistance Report for each State agency that highlights the State's outcome data and

identifies areas for improvement. The expectation is that State agencies will use these reports for continuous program improvement. This process is critical to building a more effective E&T operation nationally that will help move more individuals into the workforce. FNS is not seeking to modify the FNS-583 (OMB Control Number 0584-0594, expiration 7/31/2023) data collection through this request.

State agencies use a combination of methods to collect the outcome data, including existing automated data systems, new data collection, sampling methods, and some direct contact with SNAP E&T participants. FNS estimates that the burden associated with these activities averages approximately 231 hours annually per State, or 12,233 hours per year total. The breakdown of the burden hours is itemized in the table below.

Affected Public: State, Local and Tribal Government.

Estimated Number of Respondents: The total estimated number of respondents is 53 State agencies, including the agencies responsible for SNAP administration in 50 States, the District of Columbia, Guam and the U.S. Virgin Islands.

Estimated Number of Responses per Respondent: The 53 State agencies are required to submit data on the outcome report annually. State agencies are required to maintain data to support 1 report per year.

Estimated Total Annual Responses: 53.

Estimated Time per Response: The estimated time of response, including recordkeeping and reporting is 32.796 hours per response.

Estimated Total Annual Burden on Respondents: 12,233 hours See the table below for estimated total annual burden for each type of respondent.
