

attachers. Both utilities and existing attachers can deviate from the existing pole attachment make-ready timeline for reasons of safety or service interruption by giving written notice to the affected parties that includes a detailed explanation of the need for the deviation and a new completion date. The deviation shall be for a period no longer than necessary to complete make-ready on the affected poles, and the deviating party shall resume make-ready without discrimination when it returns to routine operations.

Section 1.1412. The Commission required utilities to make available, and keep up-to-date, a reasonably sufficient list of contractors that they authorize to perform surveys and make-ready work that are complex or involve self-help work above the communications space of a utility pole. Attachers can request to add to the list any contractor that meets certain minimum qualifications, subject to the utility's ability to reasonably object. For simple work, a utility may, but is not required, to keep an up-to-date, reasonably sufficient list of contractors that they authorize to perform surveys and simple make-ready work. For any utility-supplied contractor list, the utility must ensure that the contractors meet certain minimum requirements. Attachers can request to add to the list any contractor that meets the minimum qualifications, subject to the utility's ability to reasonably object. If the utility does not provide a list of approved contractors for surveys or simple make-ready, or no utility-approved contractor is available within a reasonable time period, then the new attacher may choose its own qualified contractor that meets the minimum requirements, subject to notice and the utility's ability to disqualify the chosen contractor for reasonable safety or reliability concerns.

Section 1.1415. The Commission codified its policy that utilities may not require an attacher to obtain prior approval for overlying on an attacher's existing wires or for third-party overlying of an existing attachment when such overlying is conducted with the permission of the existing attacher. In addition, the Commission adopted a rule that allows utilities to establish reasonable advance notice requirements for overlying (up to 15 days' advance notice). If a utility requires advance notice for overlying, then the utility must provide existing attachers with advance written notice of the notice requirement or include the notice requirement in the attachment agreement with the existing attacher. If, after receiving advance notice, the utility determines that an overlash

would create a capacity, safety, reliability, or engineering issue, then it must provide specific documentation of the issue to the party seeking to overlash within the 15-day advance notice period, and the party seeking to overlash must address any identified issues before continuing with the overlash either by modifying its proposal or by explaining why, in the party's view, a modification is unnecessary. An overlying party must notify the affected utility within 15 days of completion of the overlash and provide the affected utility at least 90 days to inspect the overlash. If damage or code violations are discovered by the utility during the inspection, then it must notify the overlying party, provide adequate documentation of the problem, and elect to either fix the problem itself at the overlying party's expense or require remediation by the overlying party.

DEPARTMENT OF DEFENSE

GENERAL SERVICES ADMINISTRATION

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[OMB Control No. 9000-0048; Docket No. 2021-0053; Sequence No. 12]

Information Collection; Certain Federal Acquisition Regulation Part 15 Requirements

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, and the Office of Management and Budget (OMB) regulations, DoD, GSA, and NASA invite the public to comment on a revision concerning certain Federal Acquisition Regulation (FAR) part 15 requirements.

DoD, GSA, and NASA invite comments on: Whether the proposed collection of information is necessary for the proper performance of the functions of Federal Government acquisitions, including whether the information will have practical utility; the accuracy of the estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. OMB has approved this information collection for use through January 31, 2022. DoD, GSA, and NASA propose that OMB extend its approval for use for

three additional years beyond the current expiration date.

DATES: DoD, GSA, and NASA will consider all comments received by January 25, 2022.

ADDRESSES: DoD, GSA, and NASA invite interested persons to submit comments on this collection through <https://www.regulations.gov> and follow the instructions on the site. This website provides the ability to type short comments directly into the comment field or attach a file for lengthier comments. If there are difficulties submitting comments, contact the GSA Regulatory Secretariat Division at 202-501-4755 or GSARegSec@gsa.gov.

Instructions: All items submitted must cite OMB Control No. 9000-0048, Certain Federal Acquisition Regulation Part 15 Requirements. Comments received generally will be posted without change to <https://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check www.regulations.gov, approximately two-to-three days after submission to verify posting.

FOR FURTHER INFORMATION CONTACT: Zenaída Delgado, Procurement Analyst, at telephone 202-969-7207, or zenaida.delgado@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000-0048, Certain Federal Acquisition Regulation Part 15 Requirements.

B. Need and Uses

DoD, GSA, and NASA are combining OMB Control Nos. for the Federal Acquisition Regulation (FAR) by FAR part. This consolidation is expected to improve industry's ability to easily and efficiently identify burdens associated with a given FAR part. The review of the information collections by FAR part allows improved oversight to ensure there is no redundant or unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports the revision of the expiration date of OMB Control No. 9000-0048 and combines it with the previously approved information collections under OMB Control No. 9000-0078, with the new title "Certain Federal Acquisition Regulation Part 15 Requirements." Upon approval of this consolidated

information collection, OMB Control No. 9000-0078 will be discontinued. The burden requirements previously approved under the discontinued number will be covered under OMB Control No. 9000-0048.

This clearance covers the information that offerors and contractors must submit to comply with the following FAR requirements:

1. FAR 15.407-2(e), Make-or-buy programs. When prospective contractors are required to submit proposed make-or-buy program plans for negotiated acquisitions, paragraph (e) requires the following information in their proposal:

(a) A description of each major item or work effort;

(b) Categorization of each major item or work effort as "must make," "must buy, or "can either make or buy";

(c) For each item or work effort categorized as "can either make or buy," a proposal either to "make" or to "buy";

(d) Reasons for categorizing items and work efforts as "must make" or "must buy," and proposing to "make" or to "buy" those categorized as "can either make or buy";

(e) Designation of the plant or division proposed to make each item or perform each work effort, and a statement as to whether the existing or proposed new facility is in or near a labor surplus area;

(f) Identification of proposed subcontractors, if known, and their location and size status;

(g) Any recommendations to defer make-or-buy decisions when categorization of some items or work efforts is impracticable at the time of submission; and

(h) Any other information the contracting officer requires in order to evaluate the program.

2. FAR 52.215-1(c)(2)(iv)—Authorized Negotiators. This provision requires firms offering supplies or services to the Government under negotiated solicitations to provide the names, titles, and telephone and facsimile numbers (and electronic addresses if available) of authorized negotiators to assure that discussions are held with authorized individuals.

3. FAR 52.215-9, Changes or Additions to Make-or-Buy Program. This clause requires the contractor to submit, in writing, for the contracting officer's advance approval a notification and justification of any proposed change in the make-or-buy program incorporated in the contract.

4. FAR 52.215-14—Integrity of Unit Prices. This clause requires offerors and contractors under negotiated solicitations and contracts to identify those supplies which they will not
