SUPPLEMENTARY INFORMATION: *Background.* EPA approved California's initial application for primary enforcement authority ("primacy") of drinking water systems on June 9, 1978 (43 FR 25180). Since initial primacy approval, EPA has approved various revisions to California's primacy program. For the revision covered by this action, EPA promulgated rules incorporating the APA as a requirement of primacy at 40 CFR 142.10(f) on April 28, 1998 (63 FR 23362) to codify the requirements of Section 1413(a)(7) of SDWA. Section 1413(a)(7) of SDWA requires that, as a condition of primacy, states have administrative penalty authority for all violations of their approved primacy program, unless prohibited by the state constitution. Specifically, the APA requires that states must have the authority to impose administrative penalties on public water systems (PWSs) serving a population greater than 10,000 individuals in an amount that is not less than \$1,000 per day per violation. For PWSs serving a population of 10,000 individuals or less,
