DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Oil Pollution Act

On November 30, 2021, the Department of Justice and the Texas Office of the Attorney General filed a civil Complaint and lodged a proposed Consent Decree with the United States District Court for the Southern District of Texas in the lawsuit entitled *United States of America and State of Texas v. Kirby Inland Marine, LP*, Civil Action No. 3:21–cv–00335. The United States is acting at the request of the designated federal trustees for natural resources: The Department of Commerce through the National Oceanic and Atmospheric Administration and the United States Department of the Interior through the United States Fish and Wildlife Service and the National Park Service. The State of Texas is acting through its designated State trustees: The Texas General Land Office, the Texas Commission on Environmental Quality, and the Texas Parks and Wildlife Department.

This is a civil action brought against Defendant Kirby Inland Marine, LP for recovery of damages for injury to, destruction of, loss of, or loss of use of natural resources, under Section 1002 of the Oil Pollution Act, 33 U.S.C. 2702. The United States and Texas seek damages in order to compensate for and restore natural resources injured by Kirby’s oil discharge that occurred in the Houston Ship Channel at the Texas City “Y” crossing on March 22, 2014. The United States and the State also seek to recover unreimbursed costs of assessing such injuries.

The Complaint in this natural resource damages case was filed against Kirby concurrently with the lodging of the proposed Consent Decree. The Complaint alleges that Kirby is liable for damages under the Oil Pollution Act. The Complaint alleges that oil was discharged from a Kirby barge during a collision in the Ship Channel and that natural resources were injured as a result of the discharge.

Kirby will pay \$15,334,768.83 under the proposed Consent Decree. Of this total, \$15.3 million is designated for the trustees to restore, replace, or acquire the equivalent of the natural resources allegedly injured, destroyed, or lost as a result of the oil spill, and the remaining amount will go to reimburse the trustees for their remaining unpaid assessment costs.

The publication of this notice opens a period for public comment on the proposed Consent Decree. Comments should be addressed to the Acting Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States of America and State of Texas v. Kirby Inland Marine, LP*, D.J. Ref. No. 90–5–1–1–11096/1. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted by either email or by mail:

Title: Improving Customer Experience (OMB Circular A–11, Section 280 Implementation).

Abstract: A modern, streamlined and responsive customer experience means: Raising government-wide customer experience to the average of the private sector service industry; developing indicators for high-impact Federal programs to monitor progress towards excellent customer experience and mature digital services; and providing the structure (including increasing transparency) and resources to ensure customer experience is a focal point for agency leadership.

This proposed information collection activity provides a means to garner customer and stakeholder feedback in an efficient, timely manner to improve customer service delivery as discussed in Section 280 of OMB Circular A–11 at <https://www.whitehouse.gov/wp-content/uploads/2018/06/s280.pdf>.

As discussed in OMB guidance, agencies should identify their highest-impact customer journeys (using customer volume, annual program cost, and/or knowledge of customer priority as weighting factors) and select touchpoints/transactions within those journeys to collect feedback.

These results will be used to improve the delivery of Federal services and programs. It will also provide government-wide data on customer experience that can be displayed on www.performance.gov to help build transparency and accountability of Federal programs to the customers they serve.

As a general matter, these information collections will not result in any new system of records containing privacy

information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

IMLS will only submit collections if they meet the following criteria:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered is intended to be used for general service improvement and program management purposes;
- Upon agreement between OMB and the agency all or a subset of information may be released as part of A–11, Section 280 requirements only on performance.gov. Summaries of customer research and user testing activities may be included in public-facing customer journey maps or summaries.
- Additional release of data must be done coordinated with OMB.

These collections will allow for ongoing, collaborative and actionable communications between the Agency, its customers and stakeholders, and OMB as it monitors agency compliance on Section 280. These responses will inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on services will be unavailable.

Current Action: New Collection of Information.

Type of Review: New.

Affected Public: Museums, Libraries, Institutions of Higher Education, Non-profits, State, Local or Tribal Government.

Estimated Number of Respondents: Below is a preliminary estimate of the aggregate burden hours for this new collection. IMLS will provide refined estimates of burden in subsequent notices.

Average Expected Annual Number of Activities: Three types of customer experience activities: Interviews, feedback surveys, and user testing.

Average Number of Respondents per Activity: 1 response per respondent per activity.

Annual Responses: 2,740.

Average Minutes per Response: Varied, dependent upon the data collection method used. The possible response time to complete a questionnaire or survey may be 3 minutes or up to 30 minutes to participate in an interview.

Burden Hours: IMLS requests approximately 454 burden hours.

Request for Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

All written comments will be available for public inspection.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

Dated: November 29, 2021.

Suzanne Mbollo,

Grants Management Specialist, Institute of Museum and Library Services.
