**Proposed Consent Decree, Clean Air Act Citizen Suit**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of proposed consent decree; request for public comment.

**SUMMARY:** In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed consent decree in *Texas Environmental Justice Advocacy Services, et al. v. Regan*, No. 1:20-cv-03733-RJL. On December 18, 2020, Plaintiffs Texas Environmental Justice Advocacy Services, California Communities Against Toxics, Environmental Integrity Project, Louisiana Environmental Action Network, Ohio Valley Environmental Council, RISE St. James, and Sierra Club (collectively "Plaintiffs") filed a complaint in the United States District Court for the District of Columbia. Plaintiffs alleged that the Environmental Protection Agency (EPA or the Agency) failed to perform certain non-discretionary duties in accordance with the Act to "review and, if appropriate, revise" the New Source Performance Standards ("NSPS") or to promulgate a determination that revision "is not appropriate in light of readily available information on the efficacy of such standard[s]" for four categories of synthetic organic chemical manufacturing industry ("SOCMI") stationary sources, and to "review, and revise as necessary" the National Emission Standards for Hazardous Air Pollutants ("NESHAP") for SOCMI source categories regulated under the Hazardous Organic NESHAP Rule ("HON") at least every 8 years. The proposed consent decree would establish deadlines for EPA to take actions.

**DATES:** Written comments on the proposed consent decree must be received by *January 6, 2022*.

## II. Additional Information About the Proposed Consent Decree

The proposed consent decree would establish deadlines for EPA to take proposed and final actions pursuant to CAA sections 111(b)(1) and 112(d)(6) for the NSPS for SOCOMI under 40 CFR part 60, subparts III, NNN, RRR, and VVa and for the SOCOMI source categories regulated under the HON Rule, 40 CFR part 63, subparts F, G, H, and I. The consent decree would require by December 16, 2022, that EPA review the NSPS under section 111(b)(1)(B) and sign either: (A) A proposed rule containing revisions to the NSPS; or (B) a proposed determination not to revise the NSPS, and then that EPA take final action by March 29, 2024. In addition, it would require by December 16, 2022, that EPA sign for publication a proposed rule containing all “necessary” revisions (taking into account developments in practices, processes, and control technologies) to subparts F, G, H, and I under section 112(d)(6) of the Act, 42 U.S.C. 7412(d)(6), and then that EPA take final action by March 29, 2024.

## III. Additional Information About Commenting on the Proposed Consent Decree

Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2021-0850, via <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from this docket. EPA may publish any comment received to its public docket. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment.

The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA’s electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <https://www.regulations.gov> website to submit comments to EPA electronically is EPA’s preferred method for receiving comments. The electronic public docket system is an “anonymous access” system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment.

Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked “late.” EPA is not required to consider these late comments.
