Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of coal and wood burning appliances.

Estimated Number of Respondents: An estimated five submissions annually.

Estimated Time per Response: Three hours per submission and 30 minutes for collecting and mailing the information to the CPSC.

General Description of Collection: 16 CFR part 1406, Coal and Wood Burning Appliances—Notification of Performance and Technical Data requires that manufacturers and importers provide consumers with written notification regarding certain technical and performance information related to safety on each coal and wood burning appliance. Manufacturers are also required to provide to the CPSC a copy of the notification to consumers and an explanation of all clearance distances contained in the notification. For existing models, all known manufacturers have complied with the requirements. Accordingly, there is no new burden associated with the requirements of 16 CFR part 1406, except in cases where existing models are changed, or new models are introduced. Fewer than five submissions are estimated annually from new stove models coming into the market, or new firms entering the market.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Safety Standard for the Flammability of Carpets and Rugs and Standard for the Flammability of Small Carpets and Rugs.

OMB Number: 3041–0017.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of carpets and rugs.

Estimated Number of Respondents: Approximately 120 firms are subject to the information collection requirements under the FFA. An estimated 100 firms issue a general conformity certificate (GCC) or a children’s product certificate (CPC). In addition, an estimated 20 firms elect to issue a guaranty of compliance with the FFA. Staff estimates that the average firm issuing a GCC, CPC, or guaranty under the FFA is

required to conduct, on average, 100 tests per year, although the actual number of tests required by a given firm may vary, depending upon the number of carpet styles and the annual production volume.

Estimated Time per Response: For firms issuing a GCC or CPC, staff estimates that the time to conduct each test is 2 hours, including the time required to establish and maintain the test records. For firms issuing a guaranty of compliance, staff estimates that the time to conduct each test is 2.5 hours, including the time required to establish and maintain the test records.

Total Estimated Annual Burden: Staff estimates the total annualized burden to respondents to be 25,000 hours (20,000 hours for firms that issue a GCC/CPC plus 5,000 hours for firms that issue a guaranty of compliance).

Total Estimated Annual Cost to Respondents: The total annualized costs to all respondents for the hour burden for collection of information is estimated to be as high as \$1,557,750 using a mean hourly employer cost-per-hour-worked of \$62.31 (Bureau of Labor Statistics: Total compensation rates for management, professional, and related occupations, June 2021) (25,000 hours × \$62.31).

General Description of Collection: The Standard for the Surface Flammability of Carpets and Rugs (16 CFR part 1630) and the Standard for the Surface Flammability of Small Carpets and Rugs (16 CFR part 1631) establish requirements to reduce the flammability of carpets and rugs. The standards’ provisions include requirements for testing and recordkeeping for manufacturers and importers who furnish guaranties subject to the carpet and rug flammability standards. Separate from the guaranties, the Consumer Product Safety Improvement Act of 2008 (CPSIA) established product certification requirements for applicable consumer product safety standards and rules. 15 U.S.C. 2063. Manufacturers and importers of carpets and rugs intended for general use must certify in a GCC that the product complies with the applicable standards based on testing or a reasonable testing program. Manufacturers and importers of children’s carpets and rugs must certify in a CPC that the product complies with the applicable standards based on testing by a CPSC accredited third-party conformity assessment body.
