**SUPPLEMENTARY INFORMATION:** On October 21, 2021, the BLM published a notice in the **Federal Register** announcing the receipt of a withdrawal application filed by the USFS (86 FR 58299). A 90-day public comment period on the proposal was initiated upon publication, which will close on January 19, 2022. The withdrawal application requests that the Secretary of the Interior withdraw all Federal lands and interests in lands (excluding lands with federally owned fractional mineral interests) situated within the exterior boundaries of the area depicted on the map submitted with the application, titled Appendix B: Superior National Forest, dated September 20, 2021, from disposition under the United States mineral and geothermal leasing laws for a period of 20 years, subject to valid existing rights.

The USFS will serve as the lead agency for preparing the environmental assessment to evaluate the impacts of the proposed withdrawal. Comments submitted during the 90-day public comment period will be used to inform the scope and contents of the NEPA analysis of the proposed withdrawal. Public comments previously submitted for the Superior National Forest: Minnesota Application for Withdrawal, which was canceled on September 6, 2018, will be considered during this analysis. The USFS will designate the BLM as a cooperating agency for the NEPA analysis (40 CFR 1508.1(e)). The BLM will independently evaluate and review the analysis and any other documents needed for the Secretary of the Interior to make a decision on the proposed withdrawal.

Comments, including the names and street addresses of respondents, will be available for public review by appointment at the location listed previously in the **ADDRESSES** section during regular business hours.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time.
