

for many years.⁸ No specific global production data were available for these commodities; however, general information suggests that production for each of these commodities is highly concentrated in a few countries.

Scandium was produced mainly as a byproduct in China, Kazakhstan, the Philippines, Russia, and Ukraine. Cesium and rubidium had been produced in Australia, Canada, China, Namibia, and Zimbabwe; however, it is thought that all cesium and rubidium mine production outside of China has either ceased in recent years or come under control of Chinese companies. The REEs that were not analyzed because of the lack of data (namely europium, gadolinium, terbium, holmium, erbium, thulium, ytterbium, and lutetium) were all heavy REEs that were produced only or predominantly in China. Based on this qualitative evaluation, none of these commodities are recommended for removal from the list of critical minerals.

Mineral criticality is not static, but changes over time. This analysis represents the most recent available data for non-fuel mineral commodities and the current state of the methodology for evaluation of criticality.

Notice of Temporary Closure and Temporary Restrictions of Selected Public Lands in La Paz County, AZ

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of temporary closure and restrictions.

SUMMARY: As authorized under the provisions of the Federal Land Policy and Management Act of 1976, as amended, notice is hereby given that temporary closures and temporary restrictions of activities will be in effect on public lands administered by the Lake Havasu Field Office, Bureau of Land Management (BLM) to minimize the risk of potential collisions with spectators and racers during the annual Best in the Desert (BITD) off-highway vehicle (OHV) race events, Parker 250 and Parker 425, authorized under a Special Recreation Permit (SRP).

DATES: This notice is effective upon publication. The temporary restrictions for the Parker 250 take effect at 11:59 p.m., January 4, 2022, through 11:59 p.m., January 9, 2022. The temporary closure for the Parker 250 takes effect at 11:59 p.m., January 5, 2022, through 11:59 p.m., January 9, 2022. FRS is available 24 hours a day, 7 days a week, to leave a message or question. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: On January 6, 2015, the Decision Record authorizing the BITD Parker Races SRP was signed. This permit authorizes the

BITD to utilize the Parker 400 course for the Parker 250 race event on January 6 through 9, 2022, and for the Parker 425 race event on January 20 through 23, 2022. The permit is authorized from 2015 through 2024. The Environmental Assessment analyzing these routes (EA #DOI-BLM-AZ-C030-2014-0040) concluded that allowing permitted motorized racers exclusive use of the *Lake Havasu Field Office Record of Decision/Approved Resource Management Plan* (2007) designated Parker 400 course would mitigate safety concerns. These routes receive the most intense and concentrated high-speed use during the two annual permitted events.

These temporary closures and restrictions affect public lands in and around the Parker 400 course near the communities of Parker and Bouse in La Paz County, Arizona. The temporary closure applies to all public use, including pedestrian and vehicles, unless excepted. The temporary closure area follows the Parker 400 course as designated in the 2007 Lake Havasu Resource Management Plan.

Within the temporary restriction area, the temporary restrictions apply in addition to all existing regulations. The temporary restriction area begins on public lands east of the eastern boundary of the Colorado River Indian Tribe (CRIT) Reservation, along Shea Road, then east into Osborne Wash onto the Parker-Swansea Road to the Central Arizona Project (CAP) Canal, then north on the west side of the CAP Canal, crossing the canal on the county-maintained road, running northeast into Mineral Wash Canyon, then southeast on the county-maintained road, through the four-corners intersection to the Midway (Pit) intersection, then east on Transmission Pass Road, through State Trust Land located in Butler Valley, turning north into Cunningham Wash to North Tank, continuing south to Transmission Pass Road and east (reentering public land) within two miles of Alamo Dam Road. The temporary restriction area boundary turns south and west onto the wooden power line road, onto the State Trust Land in Butler Valley, turning southwest into Cunningham Wash to the Graham Well, intersecting Butler Valley Road, then north and west on the county-maintained road to the "Bouse Y" intersection, two miles north of Bouse, Arizona. The temporary restriction area boundary proceeds north, paralleling the Bouse-Swansea Road to the Midway (Pit) intersection, then west along the north boundary (power line) road of the East Cactus Plain Wilderness Area to Parker-

Swansea Road. The temporary restriction area boundary turns west into Osborne Wash crossing the CAP Canal, along the north boundary of the Cactus Plain Wilderness Study Area; it continues west staying in Osborne Wash and crossing Shea Road along the southern boundary of Gibraltar Wilderness, rejoining Osborne Wash at the CRIT Reservation boundary.

The temporary closures and restrictions are necessary because of the high-speed nature of the race event and the added safety concerns due to the limited visibility when there is no daylight. Roads leading into the public lands under the temporary closure and restrictions will be posted with copies of the temporary closure, temporary restrictions, and associated maps to notify the public. The temporary closure and restriction orders will be posted in the Lake Havasu Field Office and online at: <https://www.blm.gov/office/lake-havasu-field-office>. Maps of the affected area and other documents associated with this temporary closure and restriction are available at the Lake Havasu Field Office, 1785 Kiowa Avenue, Lake Havasu City, Arizona.

The closures and restrictions are issued under the authority of 43 CFR 8364.1, which allows the BLM to establish closures for the protection of persons, property, and public lands and resources. Violation of any of the terms, conditions, or restrictions contained within this closure order may subject the violator to citation or arrest with a penalty of a fine or imprisonment or both as specified by law.

SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act of 1974, the National Indian Gaming Commission (NIGC) proposes to establish a new system of records titled, “NIGC Reasonable Accommodations

Records.” This system of records covers NIGC’s collection and maintenance of records on applicants for employment, employees, and other individuals who participate in NIGC programs or activities who request or receive reasonable accommodations or other appropriate modifications from NIGC for medical or religious reasons. Title V of the Rehabilitation Act of 1973, as amended, prohibits discrimination in services and employment on the basis of disability, and Title VII of the Civil Rights Act of 1974 prohibits discrimination, including on the basis of religion. These prohibitions on discrimination require Federal agencies to provide reasonable accommodations to individuals with disabilities and those with sincerely held religious beliefs unless doing so would impose an undue hardship on the agency. In some instances, individuals may request modifications to their workspace, schedule, duties, or other requirements for documented medical reasons that may not qualify as a disability but may necessitate an appropriate modification to workplace policies and practices. Reasonable accommodations may include, but are not limited to: Making existing facilities readily accessible to individuals with disabilities; restructuring jobs, modifying work schedules or places of work, and providing flexible scheduling for medical appointments or religious observance; acquiring or modifying equipment or examinations or training materials; providing qualified readers and interpreters, personal assistants, service animals; granting permission to wear religious dress, hairstyles, or facial hair or to observe a religious prohibition against wearing certain garments; considering requests for medical and religious exemptions to specific workplace requirements; and making other modifications to workplace policies and practices. NIGC’s Human Resources Office processes requests for reasonable accommodations from employees and applicants for employment, respectively, who require an accommodation due to a medical or religious reason. NIGC’s Human Resources Office also processes requests based on documented medical reasons that may not qualify as a disability but that necessitate an appropriate modification to workplace policies and practices. The request, documentation provided in support of the request, any evaluation conducted internally or by a third party under contract to NIGC, the decision regarding whether to grant or deny a request, and the details and conditions of the reasonable
