SUPPLEMENTARY INFORMATION:

I. Background

For many years, the definition of “device” has been codified at section 201(h) of the Federal Food, Drug, and Cosmetic Act (FD&C Act). As a result of the enactment of the Safeguarding Therapeutics Act (Pub. L. 116–304), the definition of “device” was redesignated as paragraph (h)(1) and a new definition of “counterfeit device” was codified at paragraph (h)(2) of section 201 of the FD&C Act.

FDA is issuing this draft guidance to clarify how the Agency intends to interpret existing references to section 201(h) of the FD&C Act and how we intend to reference the definitions of “device” and “counterfeit device” going forward. This guidance, when finalized, is intended to provide clarity on references to the terms “device” and “counterfeit device”—as well as references to section 201(h) of the FD&C Act—in guidance, regulatory documents, and other communications and documents for FDA staff, industry, and other stakeholders.

This draft guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on “Referencing the Definition of ‘Device’ in the Federal Food, Drug, and Cosmetic Act in Guidance, Regulatory Documents, Communications, and Other Public Documents.” It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if

it satisfies the requirements of the applicable statutes and regulations.

II. Electronic Access

Persons interested in obtaining a copy of the draft guidance may do so by downloading an electronic copy from the internet. A search capability for all Center for Devices and Radiological Health guidance documents is available at <https://www.fda.gov/medical-devices/device-advice-comprehensive-regulatory-assistance/guidance-documents-medical-devices-and-radiation-emitting-products>. Please use the document number 21008 and complete title to identify the guidance you are requesting.

III. Paperwork Reduction Act of 1995

FDA tentatively concludes that this draft guidance contains no collection of information. Therefore, clearance by the Office of Management and Budget under the Paperwork Reduction Act of 1995 is not required.

Dated: December 9, 2021.

Associate Commissioner for Policy.
