

applications imported, sold for importation, and/or sold after importation by respondents Zhejiang Yajia Cotton Picker Parts Co., Ltd.; Zhejiang Yajia Packaging Materials Co., Ltd.; Southern Marketing Affiliates, Inc.; and Hai'an Xin Fu Yuan of Agricultural, Science and Technology Co., Ltd. Parties are to file public interest submissions pursuant to 19 CFR 210.50(a)(4).

The Commission is interested in further development of the record on the public interest in this investigation. Accordingly, members of the public are invited to file submissions of no more than five (5) pages, inclusive of attachments, concerning the public interest in light of the ALJ's Recommended Determination on Remedy and Bonding issued in this investigation on December 10, 2021. Comments should address whether issuance of the recommended remedial orders in this investigation, should the Commission find a violation, would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

- (i) Explain how the articles potentially subject to the recommended remedial order are used in the United States;
- (ii) identify any public health, safety, or welfare concerns in the United States relating to the recommended order;
- (iii) identify like or directly competitive articles that complainant, its licensees, or third parties make in the United States which could replace the subject articles if they were to be excluded;
- (iv) indicate whether complainant, complainant's licensees, and/or third-party suppliers have the capacity to replace the volume of articles potentially subject to the recommended order within a commercially reasonable time; and
- (v) explain how the recommended order would impact consumers in the United States.

Written submissions must be filed no later than by close of business on January 9, 2022.

Persons filing written submissions must file the original document electronically on or before the deadlines stated above. The Commission's paper filing requirements in 19 CFR 210.4(f) are currently waived. 85 FR 15798 (Mar. 19, 2020). Submissions should refer to the investigation number ("Inv. No. 337-TA-1210") in a prominent place on the cover page and/or the first page. (See *Handbook for Electronic Filing Procedures*, <https://www.usitc.gov/>

documents/handbook_on_filing_procedures.pdf). Persons with questions regarding filing should contact the Secretary (202-205-2000).

Any person desiring to submit a document to the Commission in confidence must request confidential treatment by marking each document with a header indicating that the document contains confidential information. This marking will be deemed to satisfy the request procedure set forth in Rules 201.6(b) and 210.5(e)(2) (19 CFR 201.6(b) & 210.5(e)(2)). Documents for which confidential treatment by the Commission is properly sought will be treated accordingly. A redacted non-confidential version of the document must also be filed simultaneously with any confidential filing. All information, including confidential business information and documents for which confidential treatment is properly sought, submitted to the Commission for purposes of this investigation may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements. All nonconfidential written submissions will be available for public inspection on EDIS.

This action is taken under the authority of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: December 14, 2021.

Lisa Barton,

Secretary to the Commission.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation and Liability Act

On December 14, 2021, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Southern District of Illinois in the lawsuit entitled *United States v. Pharmacia LLC, et al.*, Civil Action No. 21-1681.

The United States filed a Complaint in this lawsuit under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). The United States' complaint names Pharmacia LLC and Solutia Inc. as defendants. The complaint requests recovery of oversight and other response costs that the United States incurred in connection with remedial efforts taken in Sauguet Area 2 and an order requiring completion of remedial work selected in a Record of Decision for Sauguet Area 2 located in Sauguet, St. Clair County, Illinois. The defendants signed the proposed Consent Decree, agreeing to pay a total of \$700,000 in response costs and complete the work, estimated to cost \$17.9 million. In addition, two property owners in Sauguet Area 2, the Village of Sauguet and Eagle Marine Industries,

Inc., have signed the Consent Decree agreeing to provide access to the defendants to complete the work. Finally, 148 Settling Non-Participating Parties, each of which entered into settlements with Solutia and Pharmacia, have joined the Consent Decree agreeing to forego further litigation over their liability in Sauguet Area 2. In return, the United States agrees not to sue the defendants under sections 106 and 107 of CERCLA related to this work.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Pharmacia LLP, et al.*, D.J. Ref. No. 90–11–2–06089/7. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations (CFR) part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, sections 44.10 and 44.11 of 30 CFR establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M–2021–034–C.
Petitioner: Rosebud Mining Company, 301 Market Street, Kittanning, Pennsylvania 16201.

Mine: Knob Creek Mine, MSHA ID No. 36–09394, located in Indiana County, Pennsylvania.

Regulation Affected: 30 CFR 75.1700 (Oil and gas wells).

Modification Request: The petitioner requests a modification of the existing standard, 30 CFR 75.1700, as it relates to oil and gas wells at the mine. Specifically, the petitioner is proposing procedures for: Cleaning out and preparing oil and gas wells prior to plugging or re-plugging; plugging or re-plugging oil or gas wells to the surface; plugging or replugging oil or gas wells for use as degasification boreholes; preparing and plugging or re-plugging oil or gas wells; and mining through a plugged or re-plugged well.

The petitioner states that:

(a) The Knob Creek Mine is opened into the Upper Kittanning Coal seam through three drifts. Coal is produced on one underground section using a continuous mining machine and a continuous haulage system. The mine normally operates one production shift per day, 5 to 6 days per week, and produces an average of 452 tons of raw coal per day. The mine employs 20 persons underground and 3 on the surface.

(b) The Knob Creek mine uses a room and pillar method of mining. A continuous miner with attached haulage develops main entries. After the mains are established, butts, rooms, and/or panels are developed off of the mains. The length of the rooms and/or panels typically extends a distance of 600 feet, depending on permit boundaries, projections, and conditions.
