

Although DOE has routinely accepted public comment submissions through a variety of mechanisms, including postal mail and hand delivery/courier, DOE has found it necessary to make temporary modifications to the comment submission process in light of the ongoing Covid-19 pandemic. DOE is currently accepting only electronic submissions at this time. If a commenter finds that this change poses an undue hardship, please contact Office of Resource Sustainability staff at (202) 586-2627 or (202) 586-4749 to discuss the need for alternative arrangements. Once the Covid-19 pandemic health emergency is resolved, DOE anticipates resuming all of its regular options for public comment submission, including postal mail and hand delivery/courier.

SUPPLEMENTARY INFORMATION:

Summary of Change in Control

MPL states that, by means of a transaction (Transaction) that closed effective as of September 30, 2021, its ownership has changed. In the Supplement, MPL states that Q-LNG Holdings, LLC, a Delaware limited liability company, has become the holder of more than 10% of the membership interest in MPL, through its acquisition of 100% of the newly-created Series C ownership units. The three largest equity owners of MPL in terms of total ownership are now Q-LNG Holdings, LLC (38.2%), AVAIO MPL Special, LP (24.3%), and DKRW Energy Partners, LLC (8.0%), as discussed in the Supplement and shown in the accompanying Exhibit A (revised 10/01/2021). In the Notification, MPL states that, effective as of September 30,

2021, members of MPL have entered into an amended and restated limited liability agreement reflecting the new MPL ownership structure.

Additional details can be found in MPL's filings posted on the DOE website at: <https://www.energy.gov/sites/default/files/2021-11/Mexico%20Pacific%20Limited%20LLC-%20CIC.pdf> (Notification) and https://www.energy.gov/sites/default/files/2021-11/MPL%20CIC%2011_23_21.pdf (Supplement).

DOE Evaluation

DOE will review the Notification and Supplement in accordance with its Procedures for Changes in Control Affecting Applications and Authorizations to Import or Export Natural Gas (CIC Procedures).² Consistent with the CIC Procedures, this notice addresses MPL's authorization to export liquefied natural gas (LNG) to non-free trade agreement (non-FTA) countries, granted in DOE/FE Order No. 4312.³ If no interested person protests the change in control and DOE takes no action on its own motion, the change in control will be deemed granted 30 days after publication in the **Federal Register**. If one or more protests are submitted, DOE will review any motions to intervene, protests, and answers, and will issue a determination as to whether the change in control has been demonstrated to render the underlying authorizations inconsistent with the public interest.

Public Comment Procedures

Interested persons will be provided 15 days from the date of publication of this notice in the **Federal Register** to move to intervene, protest, and answer MPL's Notification and Supplement.⁴ Protests, motions to intervene, notices of intervention, and written comments are invited in response to this notice only as to the change in control described in the Notification and Supplement. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by DOE's regulations in 10 CFR part 590.

As noted, DOE is only accepting electronic submissions at this time. Please email the filing to fergas@hq.doe.gov. All filings must include a reference to "Docket No. 18-70-LNG"

² 79 FR 65541 (Nov. 5, 2014).

³ MPL's Notification and Supplement also apply to its existing authorization to export LNG to FTA countries, but DOE will respond to that portion of the filings separately pursuant to the CIC Procedures, 79 FR 65542.

⁴ Intervention, if granted, would constitute intervention only in the change in control portion of these proceedings, as described herein.

or "Mexico Pacific Limited LLC Change in Control" in the title line.

Please Note: Please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

The Notification, Supplement, and any filed protests, motions to intervene, notices of intervention, and comments will be available electronically by going to the following DOE Web address: <https://www.energy.gov/fecm/division-natural-gas-regulation>.

Signed in Washington, DC, on December 14, 2021.
