#### SUPPLEMENTARY INFORMATION:

*Title; Associated Form; and OMB Number:* Police Records Check; DD Form 369; OMB Control Number 0704-0007.

*Needs and Uses:* Title 10, U.S. Code, Sections 504, 505 and 12102 establish minimal standards for enlistment into the Armed Forces. Among other items, these sections specifically prohibit the enlistment of those convicted of a felony. The Services have therefore developed standards which address the acceptability for Service persons with police records, adverse juvenile adjudications or court convictions. The standards are designed to screen out categories of persons who have probability of either becoming serious disciplinary problems or may not be able to adjust to the disciplinary demands of the Armed Forces. This information collection is needed to identify persons who may be undesirable for military service. The existence of a police record is one of the factors considered in establishing eligibility for enlistment or entry into highly sensitive career fields. Therefore, verification data from the individual and law enforcement agencies must be obtained before enlistment can occur. The form associated with this information collection is DD Form 369, "Police Record Check." It is used by recruiters to inquire on applicants' backgrounds prior to acceptance to the Armed Forces, when, in the judgment of the recruiter, an applicant may be withholding information of prior offense history.

*Title; Associated Form; and OMB Number:* Defense User Registration System; OMB Control Number 0704-0546.

*Responses per Respondent:* 1.

*Annual Responses:* 5,836.

*Average Burden per Response:* 10 minutes.

*Annual Burden Hours:* 973.

*Needs and Uses:* The Defense Technical Information Center (DTIC) requires all eligible users to be registered for access to DTIC's repository of access-controlled scientific and technical information documents. The Defense User Registration System (DURS) collects registration requests from respondents, validates their eligibility, and maintains an official registry that identifies individuals who apply for, and are granted access privileges to DTIC owned or controlled databases, products, services, and electronic information systems. The registration of a user enforces validation of an individual's identity, as well as that individual's persona (*i.e.*, whether the individual is DoD, Federal government, or a contractor supporting the DoD or another federal agency) and authority to access limited and classified documents with distribution controls. A role-based environment based on a user's identification ensures security for DTIC's electronic information collection while the online systems increase availability of information to each user based on his or her mission needs.
