

SUPPLEMENTARY INFORMATION:

Background: The Advisory Board was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Advisory Board include providing advice on the development of probability of causation guidelines that have been promulgated by the Department of Health and Human Services (HHS) as a final rule; advice on methods of dose reconstruction, which have also been promulgated by HHS as a final rule; advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program; and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC). In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to CDC. NIOSH implements this responsibility for CDC.

The Advisory Board's charter was issued on August 3, 2001, renewed at appropriate intervals, and rechartered under Executive Order 13889 on March 22, 2020, and will terminate on March 22, 2022.

Purpose: The Advisory Board is charged with (a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advise the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class. SPR is responsible for overseeing, tracking, and participating in the reviews of all procedures used in the dose reconstruction process by the NIOSH Division of Compensation Analysis and Support (DCAS) and its dose reconstruction contractor (Oak Ridge Associated Universities—ORAU).

Matters To Be Considered: The agenda will include discussions on the following dose reconstruction procedures: (a) Procedures associated specifically with the following sites: Birdsboro Steel, Peek Street facility, and Savannah River Site (SRS), (b)

procedures associated with Atomic Weapons Employers generally; and, (c) general procedures for dose reconstructions. Agenda items are subject to change as priorities dictate.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Administration for Children and Families****Proposed Information Collection Activity; Annual Report on Households Assisted by the Low Income Home Energy Assistance Program (LIHEAP) (OMB #0970-0060)**

AGENCY: Office of Community Services, Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: The Office of Community Services (OCS), Division of Energy Assistance, is requesting a 3-year extension of the Household Report Form (OMB #0970-0060, expiration February 28, 2022). Submission of the completed report is one requirement for LIHEAP grant recipients applying for federal LIHEAP block grant funds. OCS proposes minor changes related to reporting of supplemental funding and to update reporting dates and number of respondents.

DATES: Comments may be submitted through February 25, 2022. In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: Copies of the proposed collection of information can be obtained and comments may be forwarded by emailing infocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: States, the District of Columbia, and the Commonwealth of Puerto Rico are required by the Low-Income Energy Assistance Act of 1981 (42 U.S.C. 8624, Sec 2610) to report statistics for the previous federal fiscal year (FFY) on the following:

- Assisted and applicant households, by type of LIHEAP assistance and funding source;
- Assisted households receiving nominal payments of \$50 or less, by funding source;
- Assisted households receiving only utility payment assistance, by funding source; this information will automatically be transferred to the grant recipient's Performance Data Form;
- Assisted households, regardless of the type(s) of LIHEAP assistance or funding source, excluding households that only receive nominal payments of \$50 or less;
 - Assisted households, by type of LIHEAP assistance and funding source, having at least one vulnerable member who is at least 60 years or older, disabled, or 5 years old or younger;
 - Assisted households, by type of LIHEAP assistance and funding source, with at least one member age 2 years or under;
 - Assisted households, by type of LIHEAP assistance and funding source, with at least one member ages 3 years through 5 years; and
 - Assisted households, regardless of the type(s) of LIHEAP assistance or funding source, having at least one member 60 years or older, disabled, or 5 years old or younger.

Indian tribal grant recipients are required to submit data only on the number of households, by funding source, receiving heating, cooling, energy crisis, and/or weatherization benefits.

In FFY 2020, OCS updated the form to allow for the reporting of households served by separate LIHEAP funding types and benefits provided by the following: (1) Funds from regular LIHEAP FFY appropriations acts, including any Continuing Resolutions and final appropriations acts, reallocated prior year funds, and federal LIHEAP funds carried-over to or expended in the current year; (2) supplemental funds from the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) (Pub. L. 116-136); and (3) funds from any subsequent supplemental LIHEAP appropriations acts. ACF proposes similar changes to the report for FFY 2022, including the addition of lines that allow for the reporting of households served by LIHEAP funds from the American Rescue Plan Act of 2021 (Pub. L. 117-2). OCS has also

updated the request to reflect the current number of expected respondents and appropriate reporting dates.

The information is being collected for the Department's annual LIHEAP Report to Congress. The data also provides

information about the need for LIHEAP funds. Finally, the data are used in the calculation of LIHEAP performance measures under the Government Performance and Results Act of 1993. The data elements will allow the

accuracy of measuring LIHEAP targeting performance and LIHEAP cost efficiency.

Respondents: State governments, tribal governments, U.S. territories, and the District of Columbia.
