SUPPLEMENTARY INFORMATION: The Privacy Act of 1974, as amended (5 U.S.C. 552a), provides certain protections for individuals applying for and receiving federal benefits. The law governs the use of computer matching by federal agencies when records in a system of records, which contains information about individuals that are retrieved by name or other personal identifier, are matched with records of other federal, state, or local government records. The Privacy Act requires agencies involved in a matching program to:

1. Obtain approval of a Computer Matching Agreement, prepared in accordance with the Privacy Act, by the Data Integrity Board of any federal agency participating in a matching program.

2. Enter into a written Computer Matching Agreement.

3. Provide a report of the matching program to Congress and the Office of Management and Budget (OMB), and make it available to the public, as required by 5 U.S.C. 552a(o), (u)(3)(A), and (u)(4).

4. Publish a notice of the matching program in the **Federal Register** as required by 5 U.S.C. 552a(e)(12) after OMB and Congress complete their review of the report, as provided by OMB Circular A–108.

5. Notify the individuals whose information will be used in the matching program that the information they provide is subject to verification through matching, as required by 5 U.S.C. 552a(o)(1)(D).

6. Verify match findings before suspending, terminating, reducing, or making a final denial of an individual's benefits or payments or taking other adverse action against the individual, as required by 5 U.S.C. 552a(p).

This matching program complies with these requirements.

Linda Boyer,

Deputy Commissioner, OCSE.

Participating Agencies

The Office of Child Support Enforcement (OCSE) is the source agency, and state agencies administering the Supplemental Nutrition Assistance Program (SNAP) are non-federal (recipient) agencies.

Authority for Conducting the Matching Program

The authority for conducting the matching program is contained in section 453(j)(10) of the Social Security Act (42 U.S.C. 653(j)(10)). The Agriculture Act of 2014, Public Law 113–079, amended section 11(e) of the Food and Nutrition Act of 2008 (7 U.S.C. 2020(e)(24)) by adding the requirement that the state agency shall request wage data directly from the NDNH, established under section 453(i) of the Social Security Act (42 U.S.C. 653(i)), relevant to determining eligibility to receive supplemental nutrition assistance program benefits and determining the correct amount of those benefits at the time of certification.

Purpose(s)

The purpose of the matching program is to provide each participating state agency administering SNAP with new hire, quarterly wage, and unemployment insurance information from OCSE's NDNH system of records to assist them in establishing or verifying SNAP applicants' and recipients' eligibility for assistance, reducing payment errors, and maintaining program integrity, including determining whether duplicate participation exists or if the applicant or recipient resides in another state. The state SNAP agencies may also use the NDNH information for the secondary purpose of updating the recipients' reported participation in work activities and updating recipients' and their employers' contact information maintained by the state SNAP agencies.

Categories of Individuals

The categories of individuals involved in the matching program are adult members of households who have applied for or receive SNAP benefits.

Categories of Records

The categories of records involved in the matching program, which may include personal identifiers, are new hire, quarterly wage, and unemployment insurance information.

The specific data elements that will be provided to HHS/ACF/OCSE in a state agency input file are:

- Adult SNAP caseload month and year of adult SNAP applicants and recipients;
- Adult SNAP applicant/recipient Social Security number;
- Adult SNAP applicant/recipient's first, middle, and last name; and
- Name/Social Security number verification request.

Optional:

- Passback data (state agency information used to identify individuals within the input file to be returned on the output file); and
- Same state data indicator (indicates whether the state agency requests NDNH new hire, quarterly wage, or unemployment insurance even if the information was provided by that same state).

HHS/ACF/OCSE will compare the Social Security numbers in the state agency input file to the Social Security numbers in the NDNH, and will provide the state agency with any available new hire, quarterly wage, and available unemployment insurance information in NDNH pertaining to the individuals whose records are contained in the state agency input file. The NDNH data elements that HHS/ACF/OCSE will return to the state agency are as follows:
