BILLING CODE 5001–06–P

NATIONAL TRANSPORTATION SAFETY BOARD**49 CFR Part 801**

[Docket No.: NTSB–2021–0006]

Internal Personnel Rules and Practices of the NTSB; Corrections

AGENCY: National Transportation Safety Board (NTSB).

ACTION: Correcting amendments.

SUMMARY: This document corrects the wording reflected in various sections in part 801 as a result of the amendatory language in the interim final rule (IFR) published in the **Federal Register** (FR) on October 4, 2021. The IFR amended part 801, in pertinent part, by revising all references to “public reading room” to read “electronic reading room”. Consequently, that revision resulted in needless repetition of “electronic reading room” in several part 801 regulations. This correction amends the affected regulations to reflect the agency’s original intent.

DATES: Effective on December 30, 2021.

FOR FURTHER INFORMATION CONTACT: Kathleen Silbaugh, General Counsel, (202) 314–6080, rulemaking@ntsb.gov.

SUPPLEMENTARY INFORMATION: This document corrects the wording of

certain regulations in part 801 affected by the amendatory language reflected in the IFR published in the FR on October 4, 2021. 86 FR 54641 (Oct. 4, 2021). Specifically, the IFR amended part 801, in part, by revising all references to “public reading room” to read “electronic reading room”. As seen below, that amendatory instruction resulted in the needless repetition of the word “electronic reading room” in 49 CFR 801.10(b)(2), 801.10(c), 801.30, 801.31, 801.32(b), 801.41.

For example, § 801.10(b)(2) originally read that the NTSB’s Chief, Records Management Division “[m]aintains a *public reference room* and an electronic reading room in accordance with 5 U.S.C. 552(a)(2). The NTSB’s *public reference room* is located at 490 L’Enfant Plaza SW, Washington, DC. The NTSB’s electronic reading room is located on the NTSB’s FOIA website, found at <http://www.nts.gov/>.” (Emphasis added.)

After the IFR, however, that regulation currently provides that the NTSB’s Chief, Records Management Division “[m]aintains an *electronic reading room* and an electronic reading room in accordance with 5 U.S.C. 552(a)(2). The NTSB’s *electronic reading room* is located at 490 L’Enfant Plaza SW, Washington, DC. The NTSB’s electronic reading room is located on the NTSB’s FOIA website, found at <http://www.nts.gov/>.” (Emphasis added.)

To eliminate the redundancy, this document will revise that section to read: “Maintains an electronic reading room in accordance with 5 U.S.C. 552(a)(2). The NTSB’s electronic reading room is accessible on the NTSB’s FOIA website at <https://www.nts.gov/>.”

This document will further revise the remaining affected regulations to reflect the agency’s original intent for part 801.

■ 2. Amend § 801.10 by revising paragraphs (b)(2) and (c) introductory text to read as follows:

§ 801.10 General.

* * * * *

(b) * * *

(2) Maintains an electronic reading room in accordance with 5 U.S.C. 552(a)(2). The NTSB's electronic reading room is accessible on the NTSB's FOIA website at <https://www.nts.gov/>.

■ 3. Revise § 801.30 to read as follows:

§ 801.30 Records from accident investigations.

Upon completion of an accident investigation, the NTSB will compile a public docket containing investigators' factual reports, and documents and exhibits that the agency deemed pertinent to the investigation. The Chief, Records Management Division, will then make the docket available on the NTSB website.

■ 4. Revise § 801.31 to read as follows:

§ 801.31 Public hearings regarding investigations.

Within approximately four (4) weeks after a public investigative hearing conducted in accordance with part 845, subpart A, of this chapter, the Chief, Records Management Division, will make the hearing transcript available in the electronic reading room. On or before the date of the hearing, the Chief, Records Management Division, will make the exhibits introduced at the hearing available on the NTSB website.

■ 5. Amend § 801.32 by revising paragraph (b) to read as follows:

§ 801.32 Accident reports.

* * * * *

(b) These reports will be made available on the NTSB electronic reading room.

■ 6. Revise § 801.41 to read as follows:

§ 801.41 Reports to Congress.

The NTSB submits its annual report to Congress, in accordance with 49 U.S.C. 1117. The report will be available on the NTSB's website at <https://www.nts.gov/>. Interested parties may purchase the report from the U.S. Government Publishing Office or review it in the NTSB's electronic reading room. All other reports or comments to Congress will be available in the NTSB's electronic reading room.

[Docket No. 211202-0250]

RTID 0648-XR115

Endangered and Threatened Species; Removal of *Siderastrea glynni* From the Federal List of Threatened and Endangered Species

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: We, NMFS, are issuing a final rule to remove a coral, *Siderastrea glynni*, from the Federal List of Threatened and Endangered Species. Recently obtained genetic and morphological information demonstrates that *S. glynni* does not meet the statutory definition of a species, and therefore does not qualify for listing under the Endangered Species Act (ESA). Following public comment and peer review of the proposed rule and supporting scientific information, this final rule implements the changes to the listing for *S. glynni*.

DATES: This final rule is effective on January 31, 2022.

FOR FURTHER INFORMATION CONTACT: Adrienne Lohe, NMFS Office of Protected Resources, Adrienne.Lohe@noaa.gov, (301) 427-8442.

SUPPLEMENTARY INFORMATION:**Background**

On July 15, 2013, WildEarth Guardians petitioned us to list 81 marine species, including *Siderastrea glynni*, as threatened or endangered under the ESA and to designate critical habitat. On October 25, 2013, we found that the petition presented substantial scientific information indicating that listing three species of foreign corals, including *S. glynni*, may be warranted, and initiated a Status Review (78 FR 63941).

The Status Review (Meadows 2014) used the best available scientific and commercial data to consider the status of and extinction risk to each of the three species. The Status Review noted genetic similarities between *S. glynni* (occurring in the eastern Pacific) and the Caribbean coral species *Siderastrea siderea* but ultimately concluded that *S. glynni* was a valid and unique species. Based on the lack of known populations

in the wild, existence of only a small captive population in a single location, low growth rate and genetic diversity, and potential increased threats from El Niño, climate change, disease, and habitat degradation should it be reintroduced to Panama, extinction risk for this species was assessed to be high. Informed by the Status Review and the best available scientific and commercial data, NMFS published a final rule to list the species as endangered under the ESA on October 7, 2015, and the listing became effective on November 6, 2015 (80 FR 60560).

On April 7, 2020, we announced a 5-year review (85 FR 19456) for 3 foreign coral species including *S. glynni*. The 5-year review was completed on September 16, 2020 (NMFS 2020) and is available at: <https://www.fisheries.noaa.gov/resource/document/3-foreign-corals-5-year-review>. To complete the review, we collected, evaluated, and incorporated all information on the species that had become available since October 2015, the date of the final listing rule, including newly obtained genetic and morphological information relating to the taxonomy of *S. glynni*. This newly obtained information and the 5-year review inform the conclusions in this final rule.

Proposed Rule

Under section 4(c)(2) of the ESA, the Secretary shall conduct, at least once every 5 years, a review of a listed species and consider, among other things, whether a species' listing status should be changed. Pursuant to implementing regulations at 50 CFR 424.11(e), a species shall be delisted if the Secretary of Commerce finds that, after conducting a status review based on the best scientific and commercial data available:

- (1) The species is extinct;
- (2) The species does not meet the definition of an endangered species or a threatened species; or
- (3) The listed entity does not meet the statutory definition of a species.

Informed by the conclusions of the 5-year review (NMFS 2020) and our interpretation of the best available scientific and commercial data, on May 4, 2021, we issued a proposed rule (86 FR 23657) to remove *S. glynni* from the Federal List of Threatened and Endangered Species because it does not meet the statutory definition of a species. The proposed rule included the following finding on the identity of the species.

The discovery of *S. glynni* occurred in 1992 at Urabá Island, Panama Gulf, where five live colonies of *Siderastrea*
