For all non-reviewed firms, we will instruct CBP to continue to collect cash deposits of estimated countervailing duties at the most recent company-specific or all-others rate applicable to the company, as appropriate. These cash deposits, when imposed, shall remain in effect until further notice.

Abstract: This is a request for extension of a currently approved collection. The collection of this information is part of the government-wide effort to improve the performance and accountability of all federal programs, under the Government Performance and Results Act (GPRA) passed in 1993, the Uniform Guidance, and the Education Department General Administrative Requirements (EDGAR). Under GPRA, a process for using performance indicators to set program performance goals and to measure and

report program results was established. To implement GPRA, the Department developed GPRA measures at every program level to quantify and report program progress required by the Elementary and Secondary Education Act of 1965, as amended. Under the Uniform Guidance and EDGAR, recipients of federal awards are required to submit performance and financial expenditure information. The GPRA program level measures and budget information for the Magnet Schools Assistance Program (MSAP) are reported in the Annual Performance Report (APR). The APR is required under 2 CFR 200.328 and 34 CFR 75.118 and 75.590. The annual report provides data on the status of the funded project that corresponds to the scope and objectives established in the approved application and any amendments. To ensure that accurate and reliable data are reported to Congress on program implementation and performance outcomes, the MSAP APR collects the raw data from grantees in a consistent format to calculate these data in the aggregate.

[Docket No. CP22-31-000]

Columbia Gas Transmission, LLC.; Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline

Take notice that on December 17, 2021, Columbia Gas Transmission, LLC (Columbia), 700 Louisiana Street, Suite 1300, Houston, Texas 77002-2700, filed in the above referenced docket, a prior notice request pursuant to sections 157.205, 157.208 and 157.216 of the Federal Energy Regulatory Commission's (Commission) regulations under the Natural Gas Act. Columbia requests authorization to replace approximately 68 feet of 2-inch and 4-inch-diameter transmission pipelines and to abandon in place approximately 13,364 feet of existing Line L-722 transmission pipeline (L-722). Further, Columbia will abandon in place

approximately 7,693 feet of the SLW-3879, SLW-4401, and SL-3280 storage pipelines (Wellington Storage Field Lines), and to perform other related appurtenant activities, all located in Medina County, Ohio.

Columbia proposes to abandon and replace the facilities under authorities granted by its blanket certificate issued in Docket No. CP83-76-000.¹ Columbia says that the proposed replacement will have no impact on Columbia's existing customers or affect its existing storage operations and that the project is necessary to ensure compliance with the DOT regulation. The estimated cost for the Project is approximately \$2.15 million, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<https://ferc.gov>) using the "eLibrary" link. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other

milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or environmental assessment (EA) for this proposal. The filing of an EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.
