[Docket No. CP20-507-000]

#### Transcontinental Gas Pipe Line Company, LLC; Sea Robin Pipeline Company, LLC; Florida Gas Transmission Company, LLC; Notice of Request for Extension of Time

Take notice that on December 22, 2021, Transcontinental Gas Pipe Line Company, LLC (Transco), 2800 Post Oak Boulevard, Houston, Texas 77056, requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until December 31, 2022, in order to complete abandonment activities as authorized in Transco's VR22 to Shore Abandonment Project (Project) in the March 18, 2021 Order Granting Abandonment<sup>1</sup> (March 18 Order). The March 18 Order, Ordering Paragraph (C) required Transco<sup>2</sup> to complete abandonment of the facilities within one year of the order date.

Transco's request for an extension of time until December 31, 2022 to complete abandonment of the Project facilities, due the timing of the issuance of the Louisiana Department of Natural Resources' Office of Coastal Management—Coastal Use Permit, which is anticipated to be received early 2022. Transco estimates that it will submit a Notice-to-Proceed request during the first quarter of 2022. Transco states that its extension request is also due to the challenging nature of offshore activities. Transco asserts that the extended time will allow flexibility in scheduling around weather events that may delay abandonment activities.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Transco's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the

proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).<sup>3</sup>

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for Natural Gas Act facilities when such requests are contested before order issuance. For those extension requests that are contested,<sup>4</sup> the Commission will aim to issue an order acting on the request within 45 days.<sup>5</sup> The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.<sup>6</sup> The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.<sup>7</sup> At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.<sup>8</sup> The OEP Director, or his or her designee, will act on all of those extension requests that are uncontested.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link.
