

In this notice, OSHA also announces the final decision to add one new test standard to the NRTL Program's List of Appropriate Test Standards. Table 2 below lists the standard that is new to the NRTL Program. OSHA has determined that this test standard is an appropriate test standard and will add it to the NRTL Program's List of Appropriate Test Standards.

TABLE 2—STANDARD OSHA IS ADDING TO THE NRTL PROGRAM'S LIST OF APPROPRIATE TEST STANDARDS

| Test standard | Test standard title |
|---------------|---|
| UL 2580 | Standard for Safety Batteries for Use in Electric Vehicles. |

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standard listed above as an American National Standard. However, for convenience, OSHA may use the designation of the standards-developing organization for the standard as opposed to the ANSI designation. Under the NRTL Program's policy (see OSHA Instruction CPL 01-00-004, Chapter 2, Section VIII), only standards determined to be appropriate test standards may be approved for NRTL recognition. Any NRTL recognized for an appropriate test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, UL must abide by the following conditions of the recognition:

1. UL must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as a NRTL, and provide details of the change(s);
2. UL must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. UL must continue to meet the requirements for recognition, including all previously published conditions on UL's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of UL, subject to the limitations and conditions specified above. OSHA also adds one new test standard to the NRTL Program's List of Appropriate Test Standards.

III. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW, Washington, DC 20210, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 8-2020 (85 FR 58393, September 18, 2020) and 29 CFR 1910.7.

Signed at Washington, DC, on December 14, 2021.

James S. Frederick,

Deputy Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510-26-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (22-002)]

Aerospace Safety Advisory Panel; Meeting.

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, the National Aeronautics and Space Administration announces a forthcoming meeting of the Aerospace Safety Advisory Panel (ASAP).

DATES: Thursday, January 27, 2022, 1:30 p.m. to 3:00 p.m., Eastern Time.

FOR FURTHER INFORMATION CONTACT: Ms. Lisa M. Hackley, ASAP Administrative Officer, NASA Headquarters, Washington, DC 20546, (202) 358-1947 or lisa.m.hackley@nasa.gov.

SUPPLEMENTARY INFORMATION: The Aerospace Safety Advisory Panel (ASAP) will hold its First Quarterly Meeting for 2022. This discussion is pursuant to carrying out its statutory duties for which the Panel reviews, identifies, evaluates, and advises on those program activities, systems, procedures, and management activities that can contribute to program risk. Priority is given to those programs that involve the safety of human flight. The agenda will include:

—Updates on the International Space Station Program

—Updates on the Commercial Crew Program
 —Updates on Exploration System Development Program
 —Updates on Advanced Exploration Systems Program
 —Updates on Human Lunar Exploration Program

This meeting is only available telephonically. Any interested person may call the USA toll free conference call number 888-566-6133; passcode 8343253 and then the # sign. At the beginning of the meeting, members of the public may make a verbal presentation to the Panel on the subject of safety in NASA, not to exceed 5 minutes in length. To do so, members of the public must contact Ms. Lisa M. Hackley at lisa.m.hackley@nasa.gov or at (202) 358-1947 at least 48 hours in advance. Any member of the public is permitted to file a written statement with the Panel via electronic submission to Ms. Hackley at the email address previously noted. Verbal presentations and written statements should be limited to the subject of safety in NASA. It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants.

Patricia Rausch,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Issued Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit modification issued.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permits issued under the Antarctic Conservation Act of 1978. This is the required notice.

FOR FURTHER INFORMATION CONTACT: Polly Penhale, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703-292-8030; email: ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: On December 3, 2021, the National Science Foundation published a notice in the **Federal Register** of a permit modification request received. The permit modification was issued on January 3, 2022, to:

Permit No. 2018–025

Allison Kean, Quark Expeditions Inc.

Erika N. Davis,

Program Specialist, Office of Polar Programs.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit applications received.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by February 11, 2022. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314 or ACApermits@nsf.gov.

FOR FURTHER INFORMATION CONTACT: Polly Penhale, ACA Permit Officer, at the above address, 703–292–8030.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541, 45 CFR 670), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas as requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Application Details

Permit Application: 2022–028.

1. *Applicant:* Jonathan Hong, COO XM2 Aerial Pty Ltd., 15143 Waterman Dr., Van Nuys CA 91406.

Activity for Which Permit is Requested: Waste Management. The

applicant seeks an Antarctic Conservation Act permit for waste management activities associated with the use of Unmanned Aerial Systems (UAS) in Antarctica. The applicant proposes using multiple UAS for commercial filmmaking purposes in areas surrounding the Antarctica Peninsula. UAS are only to be flown by pre-approved pilots with extensive flight experience. The applicant includes various mitigation measures to limit potential impacts to the environment. These measures include the following: Safety measures that minimize the risk of equipment failure, using observers to maintain visual line of sight with the aircraft and to aid in possible retrieval, not flying above any concentrations of wildlife and disinfecting UAVs after flight to prevent possible contamination between operation sites. The applicant seeks a waste permit to cover any accidental release that may result from UAS use.

Location: Antarctic Peninsula Region.

Dates of Permitted Activities: March 1, 2022–February 28, 2023.

Erika N. Davis,

Program Specialist, Office of Polar Programs.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit modification request received and permit issued.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of a requested permit modification issued.

FOR FURTHER INFORMATION CONTACT:

Polly Penhale, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703–292–7420; email: ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation (NSF), as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541, 45 CFR 670), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for

various activities in Antarctica and designation of certain animals and certain geographic areas as requiring special protection.

Description of Permit Modification Requested: The Foundation issued a permit (ACA 2018–015) to Polar Latitudes Inc. on November 2, 2017. The issued permit allows the applicant to conduct waste management activities associated with coastal camping and operating remotely piloted aircraft systems (RPAS) in the Antarctic Peninsula region.

On October 5, 2021, NSF issued a permit modification authorizing waste management activities associated with planned operations for the 2021–2022 field season. This modification included slight changes in operation. For the 2021–2022 season, Polar Latitudes plans to operate the MS SEAVENTURE, which will carry 149 passengers and 15–20 expedition staff. Polar Latitudes requested that the number of individuals permitted for coastal camping activities be increased from 30 participants to 40 participants and four expedition guides, with increased equipment brought onshore to support a larger group. Now the applicant proposes a modification to his permit to increase the number of individuals permitted for coastal camping activities to be increased from 40 to 50 participants for operator's remaining 2021–2022 season.

The Environmental Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

DATES: November 2, 2017–March 30, 2022.

The permit modification was issued on December 14, 2021.

Erika N. Davis,

Program Specialist, Office of Polar Programs.
