DEPARTMENT OF STATE

[Public Notice: 11625]

Notice of Public Meeting in Preparation for International Maritime Organization HTW 8 Meeting

The Department of State will conduct a public meeting at 10:00 a.m. on Wednesday, February 2, 2022, by way of teleconference. Members of the public may participate up to the capacity of the teleconference phone line, which can handle 500 participants. To RSVP, participants should contact the meeting coordinator, Mr. Charles Bright, by email at Charles.J.Bright@uscg.mil. To access the teleconference line, participants should call (202) 475-4000 and use Participant Code: 877 239 87#.

The primary purpose of the meeting is to prepare for the eighth session of the International Maritime Organization's (IMO) Sub-Committee on Human Element, Training and Watchkeeping (HTW 8) to be held remotely from Monday, February 7, 2022, to Friday, February 11, 2022.

The agenda items to be considered at the public meeting mirror those to be considered at HTW 8, and include:

- Adoption of the agenda
- Decisions of other IMO bodies
- Validated model training courses
- Role of the human element
- Reports on unlawful practices associated with certificates of competency
- Implementation of the Standards of Training, Certification and Watchkeeping (STCW) Convention
- Development of amendments to the Revised guidelines for the development, review and validation of model courses (MSC–MEPC.2/ Circ.15/Rev.1)
- Comprehensive review of the 1995 STCW–F Convention
- Development of amendments to the STCW Convention and Code for the use of electronic certificates and documents of seafarers
- Development of measures to ensure quality of onboard training as part of the mandatory seagoing service required by the STCW Convention
- Development of measures to facilitate mandatory seagoing service required under the STCW Convention
- Development of training provisions for seafarers related to the Ballast Water Management (BWM) Convention
- Biennial status report and provisional agenda for HTW 9
- Election of Chair and Vice-Chair for 2023
- Any other business
- Report to the Maritime Safety Committee

Please note: The IMO may, on short notice, adjust the HTW 8 agenda to accommodate the constraints associated with the virtual meeting format. Any changes to the agenda will be reported to those who RSVP and those in attendance at the meeting.

Those who plan to participate may contact the meeting coordinator, Mr. Charles Bright, by email at Charles.J.Bright@uscg.mil, by phone at (202) 372–1023, or in writing at 2703 Martin Luther King Jr. Ave. SE Stop 7509, Washington, DC 20593–7509. Any requests for reasonable accommodation must be made at that time. Requests made after January 26, 2022, will be considered but might not be possible to fulfill.

Additional information regarding this and other IMO public meetings may be found at: <https://www.dco.uscg.mil/IMO>.

(Authority: 22 U.S.C. 2656 and 5 U.S.C. 552)

Emily A. Rose,

Coast Guard Liaison Officer, Office of Ocean and Polar Affairs, Department of State.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. FAA–2021–1195]

Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Financial Responsibility for Licensed Launch Activities

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The information to be collected will be used to determine if licensees have complied with financial responsibility requirements for maximum probable loss determination (MPL) analysis as set forth in FAA regulations. The FAA is responsible for determining MPL required to cover claims by a third party for bodily injury or property damage, and the United States, its agencies, and its contractors and subcontractors for covered property damage or loss, resulting from a Commercial space transportation permitted or licensed activity. The MPL determination forms the basis for financial responsibility requirements issued in a license or permit order.

DATES: Written comments should be submitted by March 14, 2022.

ADDRESSES: Please send written comments:

By Electronic Docket: www.regulations.gov (Enter docket number into search field).

By mail: Charles Huet, 800 Independence Avenue SW, Room 331, Washington, DC 20591.

By fax: 202–267–5463.

FOR FURTHER INFORMATION CONTACT:

Charles Huet by email at: Charles.huet@faa.gov; phone: 202–267–7427.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a)

Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120–0601.

Title: License Requirements for Operation of a Launch Site.

Form Numbers: There are no FAA forms associated with this collection.

Type of Review: Renewal of an information collection.

Background: This collection is applicable upon concurrence of requests for conducting commercial launch operations as prescribed in 14 CFR parts 401, *et al.*, Commercial Space Transportation Licensing Regulation. A commercial space launch services provider must complete the Launch Operators License, Launch-Specific License or Experimental Permit in order to gain authorization for conducting commercial launch operations.

The information will be collected per 14 CFR part 440 Appendix A. A permit or license applicant is required to provide the FAA information to conduct maximum probable loss determination. Also, it is a mandatory requirement that all commercial permitted and licensed launch applicants obtain financial coverage for claims by a third party for bodily injury or property damage. FAA is responsible for determining the amount of financial responsibility required using maximum probable loss determination. The financial responsibility must be in place and active for every launch activity. Applicants' launched activity can vary, on average, from once a week to once a year. If there are any significant changes to the launch vehicle that potentially could modify the results of the financial responsibility determined, the permitted and licensed applicant must provide updated information to the FAA. The FAA will use the updated collected information and revise the financial responsibility results.

The following is summary of the information required to conduct an MPL:

1. Mission description.
 - Launch trajectory;
 - Orbital inclination; and
 - Orbit altitudes (apogee and perigee).

Start Printed Page 30476.

2. Flight sequence.

3. Staging events and the time for each event.
