ENVIRONMENTAL PROTECTION AGENCY

[FRL–9236–01–OMS]

Privacy Act of 1974; System of Records

AGENCY: Office of Research and Development (ORD), Environmental Protection Agency (EPA).

ACTION: Notice of a modified system of records.

SUMMARY: The U.S. Environmental Protection Agency's (EPA) Office of Research and Development (ORD) is giving notice that it proposes to modify a system of records pursuant to the provisions of the Privacy Act of 1974. This system will use SORN EPA-38. EPA-38 will be modified to change the name from Invention Reports to Federal Technology Transfer Act (FTTA) and Inventory for Patent Inventions (IfPI). Additionally, EPA is modifying the location, ownership, and categories of records in the FTTA and IfPI system. The purpose of the system is to provide the opportunity for the knowledge and expertise within the Agency to be shared with outside entities through collaborative agreements and licensing. Records are maintained for the purpose of documenting inventions made under EPA sponsorship, including filing patent applications, determining rights to inventions, licensing inventions, and ascertaining inventorship and priority of invention. Unless noted in this modification, all exemptions and provisions included in the previously published system of record notice for Invention Reports will transfer to the modified system of record notice for Federal Technology Transfer Act (FTTA) and Inventory for Patent Inventions (IfPI).

DATES: Persons wishing to comment on this system of records notice must do so by February 14, 2022. New or modified routine uses for this system of records will be effective February 14, 2022.

SUPPLEMENTARY INFORMATION: The purpose of the system is to provide the opportunity for the knowledge and expertise within the Agency to be shared with outside entities through collaborative agreements and licensing. The FTTA and IfPI system houses FTTA mechanisms: Cooperative Research and Development Agreements (CRADAs), Materials CRADAs (MCRADAs), Materials Transfer Agreements (MTAs), and Non-Disclosure Agreements (NDAs). For each agreement, the system tracks general information for the partner and EPA. We have a description of the project, potential products, associations, budgets. The system also tracks the status and workflows of each agreement. IfPI contains the Employee Reports of Invention (EROIs) database, which tracks License and Patent information. The License information is identical to how EPA tracks FTTA agreements. The Patent information includes our inventors and relative information regarding new inventions, which is contained in EROIs.
