

13 new data elements to the web-based system, (3) add a School Associated Violent Death (SAVD) module as part of the NVDRS web-based system, (4) add new variables to NVDRS software, and (5) add a Public Safety Officer suicide module as part of the NVDRS web-based system.

In 2018, the NVDRS expanded by adding 10 new states and now includes all 50 states, the District of Columbia, and U.S. territory health departments

(56 jurisdictions). Jurisdictions are funded to abstract standard data elements from three primary data sources: Death certificates, coroner/medical examiner records, and law enforcement records, into a web-based data entry system, supplied by CDC. The exception is for large states that have more than 2,000 violent deaths occurring per year; these states have the option to collect data in selected counties/targeted areas that represent at

least 40% of all violent deaths occurring within their jurisdiction, and some may achieve statewide coverage. The goal of NVDRS is to collect state-wide data in all funded entities. No sampling methods will be employed.

OMB approval is requested for three years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 41,827.

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10398 #17]

Medicaid and Children’s Health Insurance Program (CHIP) Generic Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: On May 28, 2010, the Office of Management and Budget (OMB) issued Paperwork Reduction Act (PRA) guidance¹ related to the “generic” clearance process. Generally, this is an expedited process by which agencies may obtain OMB’s approval of collection of information requests that are “usually voluntary, low-burden, and uncontroversial collections,” do not raise any substantive or policy issues, and do not require policy or methodological review. The process requires the submission of an overarching plan that defines the scope of the individual collections that would

fall under its umbrella. On October 23, 2011, OMB approved our initial request to use the generic clearance process under control number 0938-1148 (CMS-10398). It was last approved on April 26, 2021, via the standard PRA process which included the publication of 60- and 30-day Federal Register notices. The scope of the April 2021 umbrella accounts for Medicaid and CHIP State plan amendments, waivers, demonstrations, and reporting. This Federal Register notice seeks public comment on one or more of our collection of information requests that we believe are generic and fall within the scope of the umbrella. Interested persons are invited to submit comments regarding our burden estimates or any other aspect of this collection of information, including: The necessity and utility of the proposed information collection for the proper performance of the agency’s functions, the accuracy of the estimated burden, ways to enhance the quality, utility and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments must be received by February 2, 2022.

ADDRESSES: When commenting, please reference the applicable form number (see below) and the OMB control number (0938-1148). To be assured consideration, comments and recommendations must be submitted in any one of the following ways:
