

the context of both NEPA and Section 106 of the NHPA.

The BLM will consult with Native American Tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with Tribes and other stakeholders that may be interested in or affected by the proposed action that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request to participate in the environmental analysis as a cooperating agency.

The BLM will evaluate identified issues and place them into one of three categories:

1. Issues to be resolved in the RMP Amendment,
2. Issues to be resolved through policy or administrative action, or
3. Issues beyond the scope of these plans.

The BLM will provide an explanation as to why an issue was placed in category two or three. The public is also encouraged to help identify any management questions and concerns that should be addressed in the RMP Amendment. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns.

The BLM will use an interdisciplinary approach to develop the EA/RMP Amendment in order to consider the variety of resource issues and concerns identified. Specialists with expertise in National Conservation Lands, recreation and visitor services, archaeology, wildlife, and vegetation may be involved in the EA/RMP Amendment.
