Fisheries of the Exclusive Economic Zone Off Alaska; Groundfish of the Gulf of Alaska; Central Gulf of Alaska Rockfish Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of standard prices and fee percentage.

SUMMARY: NMFS publishes the standard ex-vessel prices and fee percentage for cost recovery under the Central Gulf of Alaska (GOA) Rockfish Program (Rockfish Program). This action is intended to provide participants in a rockfish cooperative with the standard prices and fee percentage for the 2021 fishing year, which was authorized from April 1 through November 15. The fee percentage is 2.77 percent. The fee payments are due from each rockfish cooperative on or before February 15, 2022.

DATES: Valid on: January 24, 2022.

FOR FURTHER INFORMATION CONTACT: Charmaine Weeks, 907–586–7105.

SUPPLEMENTARY INFORMATION:**Background**

The rockfish fisheries are conducted in Federal waters near Kodiak, Alaska by trawl and longline vessels. Regulations implementing the Rockfish Program are set forth at 50 CFR part 679. Exclusive harvesting privileges are allocated as quota share under the Rockfish Program for rockfish primary and secondary species. Each year, NMFS issues rockfish primary and secondary species cooperative quota (CQ) to rockfish quota shareholders to authorize harvest of these species. The rockfish primary species are northern rockfish, Pacific ocean perch, and dusky rockfish. The rockfish secondary species include Pacific cod, rougheye rockfish, shortraker rockfish, sablefish, and thornyhead rockfish. Rockfish cooperatives began fishing under the Rockfish Program in 2012.

The Rockfish Program is a limited access privilege program established under the provisions of section 303A of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Sections 303A and 304(d) of the Magnuson-Stevens Act require NMFS to collect fees to recover the actual costs directly related to the

management, data collection and analysis, and enforcement of any limited access privilege program. Therefore, NMFS is required to collect fees for the Rockfish Program under sections 303A and 304(d)(2) of the Magnuson-Stevens Act. Section 304(d)(2) of the Magnuson-Stevens Act also limits the cost recovery fee so that it may not exceed 3 percent of the ex-vessel value of the fish harvested under the Rockfish Program.

Standard Prices

NMFS calculates cost recovery fees based on standard ex-vessel value prices, rather than actual price data provided by each rockfish CQ holder. Use of standard ex-vessel prices is allowed under sections 303A and 304(d)(2) of the Magnuson-Stevens Act. NMFS generates a standard ex-vessel price for each rockfish primary and secondary species on a monthly basis to determine the average price paid per pound for all shoreside processors receiving rockfish primary and secondary species CQ. An emergency rule authorized the fishing season start on April 1, 2021 instead of May 1, 2021 (86 FR 14851, March 19, 2021). Rockfish processors that receive and purchase landings of rockfish CQ groundfish must submit, on an annual basis, a volume and value report for the period May 1 to November 15 (50 CFR 679.5(r)(10)(ii)). To calculate fees for landings occurring in the month of April, NMFS applied the annual average standard price.

Regulations at 50 CFR 679.85(b)(2) require the Regional Administrator to publish rockfish standard ex-vessel values during the first quarter of each calendar year. The standard prices are described in U.S. dollars per pound for rockfish primary and secondary species CQ landings made during the previous year.

Fee Percentage

NMFS assesses a fee on the standard ex-vessel value of rockfish primary species and rockfish secondary species CQ harvested by rockfish cooperatives in the Central GOA and waters adjacent to the Central GOA when rockfish primary species caught by a cooperative are deducted from the Federal total allowable catch. The rockfish entry level longline fishery and trawl vessels that opt out of joining a cooperative are not subject to cost recovery fees because those participants do not receive rockfish CQ. Specific details on the Rockfish Program's cost recovery provision may be found in the implementing regulations set forth at 50 CFR 679.85.
