

yards necessary to gain access to and locate a vehicle that was involved in a crash. Typically, a tow facility operator just needs to give the crash technician permission to enter the yard to inspect the vehicle and involves approximately 5 minutes of staff time. SCI conducts approximately 100 visits to tow facilities per year, and NHTSA estimates that 100 tow facilities will be visited annually (1 request per facility per year). Accordingly, NHTSA estimates the total annual burden to be 8 hours ((100 visits × 5 minutes) ÷ 60 minutes/hour = 8.33 hours) and estimates that each tow facility will, on average, spend 5 minutes providing the requested information each year.

Accordingly, NHTSA estimates that the total burden associated with the SCI data acquisition system is 109 hours (67 + 17 + 17 + 8).

Estimated Total Annual Burden Cost: \$0.

There are no capital, start-up, or annual operation and maintenance costs involved in this collection of information. The respondents would not incur any reporting costs from the information collection beyond the

opportunity or labor costs associated with the burden hours. The respondents also would not incur any recordkeeping burden or recordkeeping costs from the information collection.

Special Studies

Affected Public: Law enforcement jurisdictions that provide access to and a copy of the crash report where the data is not electronic.

Estimated Number of Respondents: 1,000.

Frequency: On occasion (typically once per year).

Estimated Total Annual Burden Hours: 167 hours.

There is only one information collection for Special Studies in this ICR. This ICR only covers special studies involving remote-level investigations.¹ Accordingly, these remote-level investigations do not involve interviews of individuals involved in crashes, collection of medical records from hospitals, or visits to tow facilities. Instead, these special studies only involve the collection of information from police jurisdictions.

NHTSA estimates that the special studies will involve, on average, 1,000

police jurisdictions each year and require approximately 10 minutes of staff time per police jurisdiction. The total annual hour burden on jurisdictions for special studies information is estimated to be 167 hours (1 visit × 10 minutes × 1,000 jurisdictions ÷ 60 minutes/hour = 166.67).

Estimated Total Annual Burden Cost: \$0.

There are no capital, start-up, or annual operation and maintenance costs involved in this collection of information. The respondents would not incur any reporting costs from the information collection beyond the labor costs associated with the burden hours. The respondents also would not incur any recordkeeping burden or recordkeeping costs from the information collection.

Estimated Total Annual Burden Hours All Programs: 7,012 hours.

The total estimated annual burden hours to all respondents for this ICR is 7,012 hours. The table below provides a summary of the estimated annual burden hours.
