SUPPLEMENTARY INFORMATION:

Description: The U.S. Department of Health and Human Services (HHS) provides letters of certification to foreign national victims of severe forms of trafficking in persons under the authority of the Trafficking Victims Protection Act of 2000 (TVPA), as amended 22 U.S.C. Section 7105(b)(1)(C) and (E). HHS delegated this authority to OTIP. Certification is required for foreign national adult victims of human trafficking in the United States to apply for federally funded benefits and services.

OTIP developed a form for potential victims and their advocates, including case managers, attorneys, law enforcement officers, service providers, and other representatives to provide the required information for certification to HHS in accordance with the TVPA of 2000, as amended. The RFC form (formerly titled Trafficking Victims Tracking System) was renamed in order to create continuity between the RFC and Request for Assistance for Child Victims of Human Trafficking (RFA)

forms (OMB Control Number 0970–0362).

Since the RFC form originally received clearance, OTIP modernized its request process and launched Shepherd, an online case management system, to process requests for certification and assistance on behalf of foreign national adult and minor victims of trafficking. The PDF version of the form should only be used in exceptional circumstances when the online case management system is inaccessible. If a requester encounters issues submitting a request through Shepherd, they may submit the RFC form to OTIP as a password protected PDF to Trafficking@acf.hhs.gov. The form asks the requester for their identifying information, identifying information for the foreign national adult in the event the form is submitted by a case manager, and information describing the victim’s case management service needs. The minor revisions made to this form enable OTIP to better fulfill its mandate in accordance with the TVPA of 2000, as amended. These revisions also enable OTIP to be more responsive to congressional inquiries, federal reporting requirements, and the needs of victims, as the information provided will be factored into policy and program development efforts.

Respondents: Potential victims of a severe form of trafficking in persons and their advocates, including case managers, attorneys, law enforcement officers, service providers, and other representatives.
