The docket can be viewed online at <https://www.regulations.gov>, or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <https://www.epa.gov/dockets>.

Abstract: Owners and operators of sewage sludge incineration units are required to comply with reporting and record keeping requirements for the General Provisions (40 CFR part 60, subpart A), as well as for the applicable standards in 40 CFR part 60, subpart MMMM and 40 CFR part 62 subpart LLL. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by the EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of existing sewage sludge incinerators.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart MMMM and 40 CFR part 62, subpart LLL).

Estimated number of respondents: 86 (total).

Frequency of response: Semiannually, annually.

Total estimated burden: Respondent burden is 32,800 hours (per year), while the State/local agency burden for administering the same rule is 1,880 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: Respondent cost is \$5,230,000 (per year); this sum includes \$1,350,000 annualized capital/startup and/or operation & maintenance costs. State/local agency cost is \$106,000 (per year).

Changes in the Estimates: There is no change in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens for respondents. This situation is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup and/or operation and maintenance (O&M) costs.

This ICR also adjusts the number of respondents subject to the requirements of Subpart MMMM which are implemented under State plans and a Federal Plan to incorporate the burden associated with the Federal Plan. The Federal Plan was finalized at 40 CFR part 62, subpart LLL on April 29, 2016. As of June 3, 2021, the EPA data and the listing of approved State plans in the eCFR indicates that 9 State and local agencies enforce the State plans and the remainder of these SSI units will be covered by the Federal Plan. The burden on State and local agencies is included in respondent burden in this ICR, and is similar to the Agency burden in the previous ICR.

Director, Regulatory Support Division.
