DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Modification to Consent Decree Under the Clean Water Act

On January 27, 2022, the Department of Justice lodged a proposed modification to the consent decree with the United States District Court for the District of New Jersey in *United States v. Jersey City Municipal Utilities Authority*, Civil Action No. 2:11-cv-04120 (D.N.J.).

The United States filed this lawsuit in 2011 under the Clean Water Act ("Act"). The complaint sought injunctive relief and civil penalties for violations of the Act related to discharges of pollutants from Jersey City Municipal Utilities Authority's ("JCMUA") combined sewer system ("CSS") through numerous outfalls into Penhorn Creek, the Hackensack River, Newark Bay, and the Lower Hudson River. The consent decree entered by the Court on September 27, 2011 provides for JCMUA to perform injunctive measures as described in the consent decree, to pay a civil penalty, and to perform a supplemental environmental project. The proposed modification to the consent decree, among other things: (1) Expands injunctive relief requirements to ensure that three projects under the consent decree—*i.e.*, (a) repairs to the CSS to address flooding and sewer backups; (b) the cleaning and replacement as necessary of certain city sewer lines; and (c) improvements to pump stations—are completed in a

manner necessary to bring the CSS into compliance with the Clean Water Act; (2) extends the time periods for JCMUA to complete these projects; and (3) creates a schedule for JCMUA to perform voluntary removal of numerous lead drinking water service lines.

The publication of this notice opens a period for public comment on the modification to the consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Jersey City Municipal Utilities Authority*, D.J. Ref. No. 90-5-1-1-09499. All comments must be submitted no later than sixty (60) days after the publication date of this notice. Comments may be submitted either by email or by mail:

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA–2022–026]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: We have submitted a request to the Office of Management and Budget (OMB) for approval to continue to use a currently approved information collection. Independent researchers use OMB 3095–0054, Independent Researchers Listing Application (NA Form 14115), to provide their contact information so we can make the information available to people looking for a researcher. We invite you to comment on this proposed information collection.

DATES: OMB must receive written comments on or before March 4, 2022.

ADDRESSES: Send any comments and recommendations on the proposed information collection in writing to

www.reginfo.gov/public/do/PRAMain. You can find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Tamee Fechhelm, Paperwork Reduction Act Officer, by email at tamee.fechhelm@nara.gov or by telephone at 301.837.1694 with any requests for additional information.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104–13), we invite the public and other Federal agencies to comment on proposed information collections. We published a notice of proposed collection for this information collection on November 23, 2021 (86 FR 66595) and we received no comments. We are therefore submitting the described information collections to OMB for approval.

If you have comments or suggestions, they should address one or more of the following points: (a) Whether the proposed information collection is necessary for NARA to properly perform its functions; (b) our estimate of the burden of the proposed information collection and its accuracy; (c) ways we could enhance the quality, utility, and clarity of the information we collect; (d) ways we could minimize the burden on respondents of collecting the information, including through information technology; and (e) whether this collection affects small businesses.

In this notice, we solicit comments concerning the following information collection:

Title: Independent researcher listing application.

OMB number: 3095–0054.

Agency form numbers: NA Form 14115 (Independent Researcher Listing Application).

Type of review: Regular.

Affected public: Individuals or households.

Estimated number of respondents: 300.

Estimated time per response: 10 minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 50 hours.

Abstract: Collecting information to populate the independent researcher application listing is a service we provide to researchers and those who wish to hire them. In the past, at the request of customers, the National Archives made use of various lists of independent researchers who perform freelance research for hire in the Washington, DC, area. We sent these

lists upon request to researchers who could not travel to the metropolitan area to conduct their own research. To better accommodate both the public and NARA staff in this process, the Archival Operations division of the National Archives began to maintain a listing of independent researchers who wished to participate. To populate that list, we allow interested independent researchers to provide their contact information for this purpose on NA Form 14115. Collecting contact and other key information from each independent researcher and providing such information to the public when appropriate increases researcher business. This form is voluntary and is not a burden to an independent researcher who chooses to submit one. Inclusion on the list is not an endorsement by NARA. The listing is compiled and disseminated as a service to the public.

Swarnali Haldar,

Executive for Information Services/CIO.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA–2022–025]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: We have submitted a request to the Office of Management and Budget (OMB) for approval to continue to use three currently approved information collections. People use the first information collection to request permission to film, photograph, or videotape at a NARA facility for news purposes. People use the second and third information collections to request permission to use NARA facilities for events in the Washington, DC, area, at a Federal records center, or at a Presidential library. Previously, we have handled each of these last two items as separate information collections, but we have recently revised the underlying regulation and the processes for requesting use of different kinds of NARA facilities, so we are proposing to combine these two into one ICR. All three collections are based on requirements in the same regulation. We invite you to comment on the proposed information collections.
