

schedules for NARA's approval. Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives or to destroy, after a specified period, records lacking continuing administrative, legal, research, or other value. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

Agencies may not destroy Federal records without the approval of the Archivist of the United States. The Archivist grants this approval only after thorough consideration of the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value. Public review and comment on these records schedules is part of the Archivist's consideration process.

Schedules Pending:

1. Department of Defense, Defense Threat Reduction Agency, Counterintelligence Activities (DAA-0374-2019-0002).
2. Department of Transportation, Federal Aviation Administration, The Aviation Safety Voluntary Safety Reporting Program (DAA-0237-2020-0028).
3. Department of Treasury, Bureau of Engraving and Printing, Banknote Development Process Records (DAA-0318-2020-0001).
4. Court Services and Offender Supervision Agency, Pretrial Services Agency for the District of Columbia, Projects and Reports (DAA-0562-2021-0028).

NATIONAL LABOR RELATIONS BOARD

Privacy Act of 1974; System of Records

AGENCY: National Labor Relations Board.

ACTION: Notice; new system of records.

SUMMARY: In accordance with the Privacy Act of 1974, the National Labor Relations Board ("NLRB" or "Agency") proposes to issue a National Labor Relations Board system of records notice titled, "Backpay Management System" (NLRB-36). The Agency is authorized by the National Labor Relations Act to remedy unfair labor practices by issuing a backpay remedy to an individual, called a "discriminatee," for a monetary loss that results from an unfair labor practice. A charged party that owes backpay is generally referred to as a "respondent." The Agency uses the Backpay Management System (BMS) to record received funds from respondents, to effectuate disbursements of backpay and certain related tax forms to discriminatees, and to facilitate providing certain tax forms, tax reports, and tax payments to the Internal Revenue Service (IRS) and the Social Security Administration. This system notice will be included in the Agency inventory of record systems. All persons are advised that, in the absence of submitted comments considered by the Agency as warranting modification of the notice as here proposed, it is the intention of the Agency that the notice shall be effective upon expiration of the comment period without further action.

DATES: Written comments on the system's routine uses must be submitted on or before March 4, 2022. This system will be effective upon publication. The routine uses in this action will become effective on March 4, 2022 unless written comments are received that require a contrary determination.

ADDRESSES: All persons who desire to submit written comments for consideration by the Agency in connection with this proposed notice of the system of records shall mail them to the Agency's Senior Agency Official for Privacy, National Labor Relations Board, 1015 Half Street SE, Third Floor, Washington, DC 20570-0001, or submit them electronically to privacy@nlrb.gov. Comments may also be submitted electronically through <http://www.regulations.gov>, which contains a copy of this proposed notice.

FOR FURTHER INFORMATION CONTACT: For general questions and privacy issues please contact: NLRB's Privacy Officer, Office of the Chief Information Officer, National Labor Relations Board, 1015 Half Street SE, Third Floor, Washington, DC 20570-0001, (202) 273-3733, or privacy@nlrb.gov.

PURPOSE(S) OF THE SYSTEM:

The purpose of the Backpay Management System (BMS) is to enable the Agency to record funds received from respondents and to effectuate disbursements of backpay and issuance of certain tax forms to discriminatees. The Agency uses the BMS to create disbursement files that are transmitted to the Department of the Treasury for the issuance of payment to discriminatees. The system also facilitates the efforts and responsibility of the Agency to send certain tax forms, tax reports, and tax payments to the Internal Revenue Service (IRS) and the Social Security Administration. The system also generates reports that are used to support and verify the activities being processed.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system covers individuals who are "discriminatees," to whom the Agency is issuing a backpay remedy for a monetary loss as part of an unfair labor practice case under the National Labor Relations Act. The system also covers sole proprietor respondents.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records in the system may include the following types of information about individuals:

- *For each discriminatee:* Name; Social Security number; mailing address; home phone number; cell phone number; email address; work

phone number; work email address; Taxpayer Identification Number (TIN); date of death if applicable; bank name, address, and routing information; payment amount (including wages, interest and dues); related tax information; information about the discriminatee's employer; and heir relationship (which may include name and contact information about the discriminatee's potential heirs for purposes of disbursing backpay funds to them as appropriate in the event of a discriminatee's death).

■ *For sole proprietor respondents:* Business name; Employer Identification Number (EIN); business address; business phone; business fax; and name of business's main person to contact for communications.

RECORD SOURCE CATEGORIES:

The record source categories may include: The Agency's electronic case management system (NxGen); information submitted by discriminatees; information submitted by discriminatees' employers; information submitted by unions and law firms representing discriminatees; disbursement requests uploaded by Agency regional compliance officers; and payment processing data from the Treasury Department, which is manually entered into the BMS by the Agency's Office of the Chief Financial Officer as a result of a payment returned to the Agency primarily due to incorrect banking information, invalid address, or uncashed check after one year.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b), all or a portion of the records or information contained in this system may be disclosed outside the NLRB as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

Abstract: The National Science Foundation (NSF) Innovation Corps (I-Corps) Program was started in 2011 to develop and nurture a national innovation ecosystem built upon fundamental research that guides the output of scientific and engineering discoveries closer to the development of technologies, products, and services that benefit society.

The goal of the I-Corps Program is to use experiential education to help entrepreneurial researchers reduce the time necessary to translate promising ideas from the laboratory bench to widespread implementation. In addition to accelerating technology translation, the NSF I-Corps program also seeks to reduce the risk associated with technology development conducted without insight into industry requirements and challenges.

The NSF I-Corps Program is designed to support the commercialization of "deep technologies," those revolving around fundamental discoveries in science and engineering. The program addresses the skill and knowledge gaps associated with the transformation of
