SUPPLEMENTARY INFORMATION:

Background: In 2019, the *National Artificial Intelligence Research and Development Strategic Plan: 2019 Update* was released by NSTC’s Select Committee on AI to guide government efforts in AI R&D. The plan set out eight strategic aims:

Strategy 1: Make long-term investments in AI research.

Strategy 2: Develop effective methods for human-AI collaboration.

Strategy 3: Understand and address the ethical, legal, and societal implications of AI.

Strategy 4: Ensure the safety and security of AI systems.

Strategy 5: Develop shared public datasets and environments for AI training and testing.

Strategy 6: Measure and evaluate AI technologies through standards and benchmarks.

Strategy 7: Better understand the national AI R&D workforce needs.

Strategy 8: Expand Public-Private Partnerships to accelerate advances in AI.

On January 01, 2021, the National AI Initiative Act of 2020, as part of the National Defense Authorization Act for FY2021 5103(d)(2) became law. The National AI Initiative Act calls for regular updates to the National AI R&D Strategic Plan to include “goals, priorities, and metrics for guiding and evaluating how the agencies carrying out the National AI Initiative will:

(A) Determine and prioritize areas of artificial intelligence research, development, and demonstration requiring Federal Government leadership and investment;

(B) support long-term funding for interdisciplinary artificial intelligence research, development, demonstration, and education;

(C) support research and other activities on ethical, legal, environmental, safety, security, bias, and other appropriate societal issues related to artificial intelligence;

(D) provide or facilitate the availability of curated, standardized, secure, representative, aggregate, and privacy-protected data sets for artificial intelligence research and development;

(E) provide or facilitate the necessary computing, networking, and data facilities for artificial intelligence research and development;

(F) support and coordinate Federal education and workforce training

activities related to artificial intelligence; and

(G) support and coordinate the network of artificial intelligence research institutes.”

The OSTP, the Select Committee, MLAI-SC, NAIIO, and NITRD NCO seek input on potential revisions to the strategic plan to reflect updated priorities related to AI R&D. Responses could include suggestions as to the addition, removal, or modification of strategic aims, including suggestions to address OSTP’s priorities of ensuring the United States leads the world in technologies that are critical to our economic prosperity and national security, and to maintaining the core values behind America’s scientific leadership, including openness, transparency, honesty, equity, fair competition, objectivity, and democratic values. Responses could include suggestions of AI R&D focus areas that could create solutions to address societal issues such as equity, climate change, healthcare, and job opportunities, especially in communities that have been traditionally underserved. Comments for the strategic plan are welcomed regarding how AI R&D can help address harms due to disparate treatment of different demographic groups; research that informs the intersection of AI R&D and application with privacy and civil liberties; AI R&D to help address the underrepresentation of certain demographic groups in the AI workforce; and AI R&D to evaluate and address bias, equity, or other concerns related to the development, use, and impact of AI. Responses could also include comments on strategic directions related to international cooperation on AI R&D and on providing inclusive pathways for more Americans to participate in AI R&D. Additionally, comments are invited as to existing strategic aims, along with their past or future implementation by the Federal government. Following the receipt of comments, OSTP, the Select Committee, and NAIIO, in consultation with the NSTC Subcommittee on Machine Learning and AI and the NITRD AI R&D Interagency Working Group, will consider the input provided in updating the strategic plan.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-94079; File No. SR-ICEEU-2022-002]

Self-Regulatory Organizations; ICE Clear Europe Limited; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Amendments to the ICE Clear Europe Delivery Procedures

January 27, 2022.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on January 18, 2022, ICE Clear Europe Limited (“ICE Clear Europe” or the “Clearing House”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule changes described in Items I, II and III below, which Items have been prepared primarily by ICE Clear Europe. ICE Clear Europe filed the proposed rule change pursuant to Section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(4)(ii) thereunder,⁴ such that the proposed rule change was immediately effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency’s Statement of the Terms of Substance of the Proposed Rule Change

(a) The principal purpose of the proposed amendments is for ICE Clear Europe to amend its Delivery Procedures (“Delivery Procedures”) on

the basis of certain settlement discipline requirements under the European Union’s Central Securities Depositories Regulation⁵ (the “CSDR”) and Settlement Discipline Regulatory Technical Standards⁶ (the “RTS”). These requirements are set to come into force on 1 February 2022.⁷ A copy of the proposed amendments to the Delivery Procedures is attached [sic] as Exhibit 5.

II. Clearing Agency’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, ICE Clear Europe included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. ICE Clear Europe has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) *Clearing Agency’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change*

(a) Purpose

ICE Clear Europe is proposing to amend its Delivery Procedures due to new settlement discipline requirements contained in the CSDR and RTS, which take effect on 1 February 2022. The settlement discipline requirements, which include settlement failure reporting and cash penalties for settlement failures, would impose certain requirements on ICE Clear Europe as a central counterparty and market participant in its interaction with EU-based settlement facilities. Specifically, the requirements apply to securities that the Clearing House settles on a European Union (“EU”) central securities depository (“CSD”) under F&O Contracts that are equity or bond futures and options, where the underlying is traded on an EU trading venue or cleared by another EU-based CCP.

The settlement discipline requirements that will come into effect

⁵ Regulation (EU) 909/2014 of the European Parliament and of the Council of 23 July 2014 on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU and Regulation (EU) No 236/2012.

⁶ Commission Delegated Regulation (EU) 2018/1229 of 25 May 2018 supplementing Regulation (EU) No 909/2014 of the European Parliament and of the Council with regard to regulatory technical standards on settlement discipline.

⁷ Capitalized terms used but not defined herein have the meanings specified in the Delivery Procedures or, if not defined therein, the ICE Clear Europe Clearing Rules.
