

TABLE 1—PROPOSED INTERIM DECISIONS

Registration review case name and No.	Docket ID No.	Chemical review manager and contact information
Dimethoxane, Case Number 3064	EPA-HQ-OPP-2010-0686	Kimberly Wilson, wilson.kimberly@epa.gov , (202) 566-0647.
Ferbam, Case Number 8000	EPA-HQ-OPP-2015-0567	Marisa Wright, wright.marisa@epa.gov , (202) 566-2335.
Iprodione, Case Number 2335	EPA-HQ-OPP-2012-0392	Rachel Fletcher, fletcher.rachel@epa.gov , (202) 566-2354
Laminarin, Case Number 6309	EPA-HQ-OPP-2021-0445	Jennifer Odom, odom.jennifer@epa.gov , (202) 566-1536
Linalool, Case Number 6058	EPA-HQ-OPP-2021-0423	Hannah Dean, dean.hannah@epa.gov , (202) 566-1531
Thiram, Case Number 0122	EPA-HQ-OPP-2015-0433	Marisa Wright, wright.marisa@epa.gov , (202) 566-2335
Ziram, Case Number 8001	EPA-HQ-OPP-2015-0568	Marisa Wright, wright.marisa@epa.gov , (202) 566-2335

The registration review docket for a pesticide includes earlier documents related to the registration review case. For example, the review opened with a Preliminary Work Plan, for public comment. A Final Work Plan was placed in the docket following public comment on the Preliminary Work Plan.

The documents in the dockets describe EPA's rationales for conducting additional risk assessments for the registration review of the pesticides included in the tables in Unit IV, as well as the Agency's subsequent risk findings and consideration of possible risk mitigation measures. These proposed interim registration review decisions are supported by the rationales included in those documents. Following public comment, the Agency will issue interim or final registration review decisions for the pesticides listed in Table 1 in Unit IV.

The registration review final rule at 40 CFR 155.58(a) provides for a minimum 60-day public comment period on all proposed interim registration review decisions. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the proposed interim decision. All comments should be submitted using the methods in **ADDRESSES** and must be received by EPA on or before the closing date. These comments will become part of the docket for the pesticides included in the Tables in Unit IV. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date and may provide a "Response to Comments Memorandum" in the docket. The interim registration review decision will explain the effect that any comments had on the interim decision

and provide the Agency's response to significant comments.

Background on the registration review program is provided at: <https://www.epa.gov/pesticide-reevaluation>.

Authority: 7 U.S.C. 136 *et seq.*

Dated: January 27, 2022.

Mary Elissa Reaves,

Director, Pesticide Re-Evaluation Division,
Office of Pesticide Programs.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-2008-0719; FRL-9526-01-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; National Pollutant Discharge Elimination System Program (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), "Information Collection Request (ICR) Supporting Statement for The National Pollutant Discharge Elimination System Program (Renewal)" (EPA ICR Number 0229.25, OMB Control Number 2040-0004) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2022. Public comments were previously requested via the **Federal Register** on July 29, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden

and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before March 7, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-2008-0719, t online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Joshua Baehr, National Program Branch, Water Permits Division, OWM Mail Code: 4203M, Environmental Protection Agency, 1201 Constitution Ave. NW, Washington, DC 20460; telephone number: 202-564-2277; email address: Baehr.Joshua@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket

can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This Information Collection Request (ICR) renews the National Pollutant Discharge Elimination System (NPDES) Program ICR and consolidates the information collection burden and costs associated with activities previously reported in 18 of the NPDES program or NPDES-related ICRs. It calculates the information collection burden and costs associated with the NPDES program, identifies the types of activities regulated under the NPDES program, describes the roles and responsibilities of state governments and the Agency, and presents the program areas that address the various types of regulated activities. This renewal documents the addition of the burden and costs for the four existing NPDES ICRs listed below. Once this renewal ICR is approved, the following ICRs will be discontinued: Public Notification Requirements for Combined Sewer Overflows (CSOs) in the Great Lakes Basin (OMB control no. 2040-0293, EPA ICR 2562.03, expiration date 04/30/24); Effluent Limitation Guidelines and Standards for the Dental Category (OMB control no. 2040-0287, EPA ICR no. 2514.03, expiration 11/30/23); 2020 NPDES Multi-Sector General Permit (MSGP) for Industrial Stormwater Discharges (OMB control no. 2040-0300, EPA ICR no. 2612.02, expiration 03/31/24); and NPDES Electronic Reporting Rule—Phase 2 Extension (OMB Control No.: 2020-0037, EPA ICR No. 2617.02, expiration 12/31/2023).

The Clean Water Act (CWA) provides that NPDES permits are required for the discharge of pollutants to waters of the United States. The CWA requires EPA to develop and implement the NPDES permit program. CWA section 402(b) allows states to acquire authority to administer the NPDES program, enabling them to issue NPDES permits for discharges within the state. At present, 47 states and the U.S. Virgin Islands are authorized to administer the NPDES permit program. In states that do not have authority for these programs, the Agency administers the program and issues NPDES permits. Because some permit applications are processed by states and some by EPA, this ICR calculates government burden and cost for both authorized states and EPA. See

Appendix F.1 for a copy of the authorizing regulation.

Form Numbers: EPA Form 3510-1; EPA Form 3510-2A; EPA Form 3510-2B; EPA Form 3510-2C; EPA Form 3510-2D; EPA Form 3510-2E; EPA Form 3510-2F; EPA Form 3510-2S.

Respondents/affected entities: Any point source discharger of pollutants, publicly owned and privately owned treatment works (POTWs and PrOTWs), industrial dischargers to POTWs and PrOTWs, industrial and commercial dischargers to water of the United States, sewage sludge management and disposal operations, large vessels, dischargers of stormwater, construction sites, municipalities, pesticide applicators, local and state governments.

Respondent's obligation to respond: Mandatory, sections 301, 302, 304, 306, 307, 308, 316(b), 401, 402, 403, 405, and 510 of the CWA; the 1987 Water Quality Act (WQA) revisions to CWA section 402(p); 40 CFR parts 122, 123, 124, and 125 (and parts 501 and 503 for Biosolids); and the Great Lakes Critical Programs Act (CPA).

Estimated number of respondents: 827,180 (total). (Includes 637 States/Tribes/Territories).

Frequency of response: Varies depending on the specific response activity and can range from ongoing and monthly to once every five years.

Total estimated burden: 31,143,503 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$1,732,287,018 (per year), includes \$22,999,181 annualized capital or operation & maintenance costs.

Changes in the estimates: The majority of the burden hour increase occurred as a result of an increase in EPA's estimates of permittee respondents, which is largely attributed to improvements in the NPDES Integrated Compliance Information System (ICIS-NPDES) database, implementation of the Electronic Reporting Rule Phase 1, and refined estimates. This ICR eliminates the initial permit application and compliance activities for existing Cooling Water Intake Structure (CWIS) facilities, as these actions have been completed by all existing CWIS facilities. The compliance and administration of small vessels general permit (sVGP) has been removed, which lowered the number of vessel respondents significantly.

Courtney Kerwin,

Director, Regulatory Support Division.

Pesticide Registration Review; Draft Human Health and/or Ecological Risk Assessments for Several Pesticides; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's draft human health and/or ecological risk assessments for the registration review of 1,3-Propanediamine, N-(3-aminopropyl)-N-dodecyl- (1,3-PAD).

DATES: Comments must be received on or before April 4, 2022.

ADDRESSES: Submit your comments, to the docket identification (ID) number for the specific pesticide of interest provided in the Table in Unit IV., using the *Federal eRulemaking Portal* at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting or visiting the docket, along with more information about dockets generally, are available at <http://www.epa.gov/dockets>.

Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is open to visitors by appointment only. For the latest status information on EPA/DC services and access, visit <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

For pesticide specific information contact: The Chemical Review Manager for the pesticide of interest identified in Table 1 in Unit IV.

For general questions on the registration review program, contact: Melanie Biscoe, Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (703) 305-7106; email address: biscoe.melanie@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the
