SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information that they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. The OCC asks that OMB extend its approval of this collection.

Title: OCC Guidelines Establishing Standards for Recovery Planning by Certain Large Insured National Banks, Insured Federal Savings Associations, and Insured Federal Branches.

OMB Control No.: 1557-0333.

Abstract: In 2015, the OCC issued guidelines applicable to each insured national bank, insured Federal savings association, and insured Federal branch of a foreign bank (together, banks) with average total consolidated assets equal to or greater than \$50 billion (covered banks). The guidelines stated that each covered bank should develop and maintain a recovery plan that is appropriate for its individual size, risk profile, activities, and complexity, including the complexity of its organizational and legal entity structure, in order to be able to respond quickly to and recover from the financial effects of severe stress. The guidelines established standards for this recovery planning.

The OCC issued a final rule in 2018 that increased the average total consolidated assets threshold for applying the recovery planning guidelines to a bank from \$50 billion to \$250 billion and decreased from 18 months to 12 months the time within which a bank should comply with the recovery planning guidelines after the

bank first becomes subject to the guidelines.¹

Overview of covered bank. A recovery plan should describe the covered bank's overall organizational and legal entity structure, including its material entities, critical operations, core business lines, and core management information systems. The plan should describe interconnections and interdependencies (1) across business lines within the covered bank; (2) with affiliates in a bank holding company structure; (3) between a covered bank and its foreign subsidiaries and (4) with critical third parties.

Triggers. A covered bank's recovery plan should identify triggers that appropriately reflect the bank's particular vulnerabilities.

Options for recovery. A recovery plan should identify a wide range of credible options that a covered bank could undertake to restore financial strength and viability, thereby allowing the bank to continue to operate as a going concern and to avoid liquidation or resolution. A recovery plan should explain how the covered bank would carry out each option and describe the timing required for carrying out each option. The recovery plan should specifically identify the recovery options that require approval.

Impact assessments. For each recovery option, a covered bank should assess and describe how the option would affect the covered bank. This impact assessment and description should specify the procedures the covered bank would use to maintain the financial strength and viability of its material entities, critical operations, and core business lines for each recovery option. For each option, the recovery plan's impact assessment should address the following: (1) The effect on the covered bank's capital, liquidity, funding, and profitability; (2) the effect on the covered bank's material entities, critical operations, and core business lines, including reputational impact; and (3) any legal or market impediment or regulatory requirement that must be addressed or satisfied in order to implement the option.

Escalation procedures. A recovery plan should clearly outline the process for escalating decision-making to the covered bank's senior management, board of directors (board), or appropriate board committee in response to the breach of any trigger. The recovery plan should also identify the departments and persons responsible for executing the decisions

of senior management, the board, or an appropriate board committee.

Management reports. A recovery plan should require reports that provide senior management, the board, or an appropriate board committee with sufficient data and information to make timely decisions regarding the appropriate actions necessary to respond to the breach of a trigger.

Communication procedures. A recovery plan should provide that the covered bank will notify the OCC of any significant breach of a trigger and any action taken or to be taken in response to such breach and should explain the process for deciding when a breach of a trigger is significant. A recovery plan also should address when and how the covered bank will notify persons within the organization and other external parties of its action under the recovery plan. The recovery plan should specifically identify how the covered bank will obtain required approvals.

Other information. A recovery plan should include any other information that the OCC communicates in writing directly to the covered bank regarding the covered bank's recovery plan.

A covered bank should (1) integrate its recovery plan into its risk governance functions and (2) align its recovery plan with its other plans, such as its strategic, operational (including business continuity), contingency, capital (including stress testing), liquidity, and resolution planning. The covered bank's recovery plan also should be specific to that covered bank and coordinated with any recovery and resolution planning efforts by the bank's holding company.

A covered bank's recovery plan should address the responsibilities of the bank's management and board with respect to the plan. Specifically, management should review the recovery plan at least annually and in response to a material event. It should revise the plan as necessary to reflect material changes in the covered bank's size, risk profile, activities, and complexity, as well as changes in external threats. This review should evaluate the organizational structure and its effectiveness in facilitating a recovery. The board is responsible for overseeing the covered bank's recovery planning process. The board of a covered bank or an appropriate board committee should review and approve the recovery plan at least annually, and as needed to address significant changes made by management.

The OCC believes that a large, complex institution should undertake recovery planning in order to be able to respond quickly to and recover from the financial effects of severe stress on the

institution. The process of developing and maintaining a recovery plan also should cause a covered bank's management and its board to enhance their focus on risk governance with a view toward lessening the negative impact of future events. OCC examiners will assess the appropriateness and adequacy of the covered bank's ongoing recovery planning process as part of the agency's regular supervisory activities.

Type of Review: Extension, without change, of a currently approved collection.

Affected Public: Businesses or other for-profit; individuals.

Total Number of Respondents: 8.

Total Burden per Respondent: 7,543 hours.

Total Burden for Collection: 60,344 hours.

On October 29, 2021, the OCC published a 60-day notice for this information collection, 86 FR 60105. No comments were received. Comments continue to be solicited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;

(b) The accuracy of the agency's estimate of the burden of the collection of information;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Theodore J. Dowd,

Deputy Chief Counsel, Office of the Comptroller of the Currency.
