

18, 2022. The Continuing Resolution maintains funding at \$4,250,000. Technology Initiative Grant decisions for FY2022 will be made by September 2022. LSC anticipates publicizing the total amount available for Technology Initiative Grants when Congress enacts the FY2022 appropriation.

LSC will not designate fixed or estimated amounts for the two different funding categories and will make grant awards for the two categories within the total amount of funding available.

E. Grant Terms

Applicants to the Technology Initiative Grant (TIG) program may propose grant terms between 12 and 36 months for general category projects and between 12 and 18 months for technology improvement projects. The grant term is expected to commence on October 1, 2022.

III. Grant Application Process

A. Technology Initiative Grant Application Process

The Technology Initiative Grant (TIG) application process will be administered in LSC's unified grants management system, GrantEase. Applicants must first submit a pre-application to LSC in GrantEase by March 18, 2022, at 11:59 p.m. EDT, to be considered for a grant. After review by LSC staff, LSC's president decides which applicants will be asked to submit a full application. Applicants will be notified of approval to submit a full application by late-April 2022. Full applications are due to LSC in the GrantEase system on June 3, 2022, at 11:59 p.m. EDT. Once received, full applications will undergo a rigorous review by LSC staff. LSC's president makes the final decisions on funding for the Technology Initiative Grant program.

As noted above, applicants applying for Technology Improvement Project funding are not required to submit pre-applications. LSC will launch the online application system for these projects by April 15, 2022, and set a submission deadline of May 20, 2022, at 11:59 p.m. EDT.

B. Late or Incomplete Applications

LSC may consider a request to submit a pre-application after the deadline, but only if the applicant has submitted an email to techgrants@lsc.gov explaining the circumstances that caused the delay prior to the pre-application deadline. Communication with LSC staff, including assigned program liaisons, is not a substitute for sending a formal request and explanation to techgrants@lsc.gov.

lsc.gov. At its discretion, LSC may consider incomplete applications. LSC will determine the admissibility of late or incomplete applications on a case-by-case basis.

C. Multiple Pre-Applications

Applicants may submit multiple pre-applications under the same or different funding category. If applying for multiple grants, applicants should submit separate pre-applications for each funding request.

D. Additional Information and Guidelines

Additional guidance and instructions on the pre-application and application processes for Technology Initiative Grants will be available and regularly updated at <https://www.lsc.gov/grants/technology-initiative-grant-program>.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2021-0188 in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov/> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection*: Part 150 of title 10 of the *Code of Federal Regulations* (10 CFR), "Exemptions and Continued Regulatory Authority in Agreement States and in Offshore Waters Under Section 274."

2. *OMB approval number*: 3150-0032.

3. *Type of submission*: Extension.

4. *The form number, if applicable*: Not applicable.

5. *How often the collection is required or requested*: One-time or as needed.

6. *Who will be required or asked to respond*: Agreement States who have signed Section 274(b) Agreements with the NRC.

7. *The estimated number of annual responses*: 8.

8. *The estimated number of annual respondents*: 8.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request*: 190.

10. *Abstract*: The NRC regulations in 10 CFR part 150, provide certain exemptions to persons in Agreement States from the licensing requirements contained in Chapters 6, 7, and 8 of the Atomic Energy Act of 1954, as amended, and certain regulations of the Commission. The regulations in 10 CFR part 150 also define the Commission's continued regulatory authority over Agreement State activities which include byproduct, source, and special nuclear material reporting requirements related to reciprocity and enforcement. 10 CFR part 150 requires telephonic notification to the NRC when an Agreement State licensee identifies attempted theft or diversion of special nuclear material, byproduct material, and tritium. This notification must be followed by a written report either 15 or 60 days after the initial report, depending on the materials involved. If additional information is available after submission of the written report, an additional report is submitted. These reports are used to inform the Commission, staff, and other Federal agencies when special nuclear material, byproduct material, or tritium is lost or stolen.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: February 1, 2022.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.
