- Is subject to the Congressional Review Act (CRA), 5 U.S.C. 801 *et seq.*, and the EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. The CRA allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA if the agency makes a good cause finding that notice and comment rulemaking procedures are impracticable, unnecessary or contrary to the public interest (5 U.S.C. 808(2)). The EPA has made a good cause finding for this rule as discussed in section II of this preamble, including the basis for that finding.

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by April 11, 2022. Filing a petition for reconsideration by the EPA Administrator of this final rule does not affect the finality of this rule for the purpose of judicial review nor does it extend the time within which petition for judicial review may be filed, and

shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements (see CAA section 307(b)(2)).

Needs and Uses: The Commission adopted a new information collection

associated with the Advanced Methods to Target and Eliminate Unlawful Robocalls Fourth Report and Order (“Call Blocking Fourth Report and Order”), FCC 20–187. In 2019, Congress passed the Pallone-Thune Telephone Robocall Abuse Criminal Enforcement and Deterrence (TRACED) Act. In addition to directing the Commission to mandate adoption of caller ID authentication technology and encourage voice service providers to block calls by establishing safe harbors, the TRACED Act directs the Commission to ensure that both consumers and callers are provided with transparency and effective redress when calls are blocked in error. In the Call Blocking Fourth Report and Order, the Commission adopted a notification requirement and a blocked calls list requirement to better protect consumers from unwanted and illegal robocalls and implement the TRACED Act. While most of the requirements the Commission adopted in the Call Blocking Fourth Report and Order did not include an information collection, two of the requirements required approval prior to implementation.

First, 47 CFR 64.1200(n)(2) establishes an affirmative obligation that voice service providers effectively mitigate illegal traffic when notified of such traffic by the Commission’s Enforcement Bureau. The rule requires that voice service providers receiving notice from the Commission report back with specific information about their investigation and response to such investigation. This requirement gives the Commission an important tool in the fight to stop illegal calls.

Second, 47 CFR 64.1200(k)(10), in order to enhance transparency for consumers, requires that any terminating voice service provider that blocks calls on an opt-in or opt-out basis must provide, on the request of the subscriber to a particular number, a list of all calls intended for that number that the voice service provider or its designee has blocked.

Subsequent to OMB approval of this information collection, the Commission released an Order on Reconsideration, “Advanced Methods to Target and Eliminate Unlawful Robocalls—Petition for Reconsideration and Request for Clarification of USTelecom—The Broadband Association,” CG Docket No. 17–59, FCC 21–126, 86 FR 74373, December 30, 2021. Among other things, this Order on Reconsideration clarified aspects of 47 CFR 64.1200(k)(10). In doing so, the Commission added clarifying language to the existing rule. OMB approved the Commission’s non-

substantive change request for this change on January 20, 2022.

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document amends the FM Table of Allotments, of the Commission’s rules, by removing certain vacant FM allotment channels that were auctioned through our FM competitive bidding process or undergone FM noncommercial filing window, and are no longer considered vacant FM allotments. The FM allotments are currently authorized licensed stations. FM assignments for authorized stations and reserved facilities will be reflected solely in Media Bureau’s Licensing Management System (LMS). These FM allotment channels have previously undergone notice and comment rulemaking. This action constitutes an editorial change in the FM Table of Allotments. Therefore, we find for good cause that further notice and comment are unnecessary.

DATES: Effective February 8, 2022.
