Background

On November 6, 2020, at 85 FR 71136, FHWA advised the public that it had prepared a Revised Environmental Assessment and a FONSI for the I-5 Rose Quarter Improvement Project. The proposed improvements would extend existing auxiliary lanes in the northbound and southbound directions

to improve safety and operations on Interstate-5 (I-5) between Interstate 84 and Interstate 405, and make improvements to local streets to improve multimodal connections over I-5. Changes made to the project after the FONSI was issued necessitate vacating that finding and conducting additional analysis to account for altered environmental impacts before proceeding. A new decision under the National Environmental Policy Act and any other necessary Federal environmental determinations will be issued consistent with this additional analysis.

Division Administrator, Federal Highway Administration.
