

Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

### Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for Corinth will be the rate shown above; (2) for previously investigated companies not participating in this review, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent segment for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 10.26 percent, the all-others rate made effective by the LTFV investigation.<sup>10</sup> These deposit requirements, when imposed, shall remain in effect until further notice.

### Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

### Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written

notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

### Notification to Interested Parties

This notice is being issued and published in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.213.

Dated: February 2, 2022.

### Sodium Nitrite From India and the Russian Federation: Initiation of Less-Than-Fair-Value Investigations

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**DATES:** Applicable February 2, 2022.

**FOR FURTHER INFORMATION CONTACT:** Joy Zhang (India) or Paola Aleman Ordaz (the Russian Federation (Russia)); AD/CVD Operations, Offices III and IV,

respectively, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-1168 and (202) 482-4031, respectively.

### SUPPLEMENTARY INFORMATION:

#### The Petitions

On January 13, 2022, the Department of Commerce (Commerce) received antidumping duty (AD) petitions concerning imports of sodium nitrite from India and Russia filed in proper form on behalf of Chemtrade Chemicals US, LLC (the petitioner), a domestic producer of sodium nitrite.<sup>1</sup> The Petitions were accompanied by countervailing duty (CVD) petitions concerning imports of sodium nitrite from India and Russia.<sup>2</sup>

Between January 19 and 27, 2022, Commerce requested supplemental information pertaining to certain aspects of the Petitions in separate supplemental questionnaires and telephone calls.<sup>3</sup> The petitioner filed responses to the supplemental questionnaires on January 21, 24, and 27, 2022.<sup>4</sup>

<sup>1</sup> See Petitioner's Letter, "Sodium Nitrite from India and Russia: Antidumping and Countervailing Duty Petitions," dated January 13, 2022 (the Petitions).

<sup>10</sup> See *Large Diameter Welded Pipe from Greece: Amended Final Affirmative Antidumping Determination and Antidumping Duty Order*, 84 FR 18769 (May 2, 2019).

In accordance with section 732(b) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that imports of sodium nitrite from India and Russia are being, or are likely to be, sold in the United States at less than fair value (LTFV) within the meaning of section 731 of the Act, and that imports of such products are materially injuring, or threatening material injury to, the sodium nitrite industry in the United States. Consistent with section 732(b)(1) of the Act, the Petitions were accompanied by information reasonably available to the petitioner supporting its allegations.

Commerce finds that the petitioner filed the Petitions on behalf of the domestic industry, because the petitioner is an interested party, as defined in section 771(9)(C) of the Act. Commerce also finds that the petitioner demonstrated sufficient industry support for the initiation of the requested LTFV investigations.<sup>5</sup>

#### Periods of Investigation

Because the Petitions were filed on January 13, 2022, the period of investigation (POI) for these LTFV investigations is January 1, 2021, through December 31, 2021, pursuant to 19 CFR 351.204(b)(1).<sup>6</sup>

#### Scope of the Investigations

The product covered by these investigations is sodium nitrite from India and Russia. For a full description of the scope of these investigations, see the appendix to this notice.

#### Comments on the Scope of the Investigations

As discussed in the *Preamble* to Commerce's regulations, we are setting aside a period for interested parties to raise issues regarding product coverage (*i.e.*, scope).<sup>7</sup> Commerce will consider all comments received from interested parties and, if necessary, will consult with interested parties prior to the issuance of the preliminary determinations. If scope comments include factual information,<sup>8</sup> all such factual information should be limited to public information. To facilitate preparation of its questionnaires, Commerce requests that all interested parties submit such comments by 5:00 p.m. Eastern Time (ET) on February 22, 2022, which is 20 calendar days from

the signature date of this notice. Any rebuttal comments, which may include factual information, must be filed by 5:00 p.m. ET on March 4, 2022, which is ten calendar days from the initial comment deadline.

Commerce requests that any factual information that parties consider relevant to the scope of these investigations be submitted during this period. However, if a party subsequently finds that additional factual information pertaining to the scope of these investigations may be relevant, the party must contact Commerce and request permission to submit the additional information. All such submissions must be filed on the records of each of the concurrent AD and CVD investigations.

#### Filing Requirements

All submissions to Commerce must be filed electronically via Enforcement and Compliance's Antidumping Duty and Countervailing Duty Centralized Electronic Service System (ACCESS), unless an exception applies.<sup>9</sup> An electronically-filed document must be received successfully in its entirety by the time and date on which it is due. Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information until further notice.<sup>10</sup>

#### Comments on Product Characteristics

Commerce is providing interested parties an opportunity to comment on the appropriate physical characteristics of sodium nitrite to be reported in response to Commerce's AD questionnaires. This information will be used to identify the key physical characteristics of the subject merchandise in order to report the relevant costs of production accurately, as well as to develop appropriate product-comparison criteria.

Interested parties may provide any information or comments that they feel are relevant to the development of an accurate list of physical characteristics. Specifically, they may provide comments as to which characteristics are appropriate to use as: (1) General

product characteristics; and (2) product comparison criteria. We note that it is not always appropriate to use all product characteristics as product comparison criteria. We base product comparison criteria on meaningful commercial differences among products. In other words, although there may be some physical product characteristics utilized by manufacturers to describe sodium nitrite, it may be that only a select few product characteristics take into account commercially meaningful physical characteristics. In addition, interested parties may comment on the order in which the physical characteristics should be used in matching products. Generally, Commerce attempts to list the most important physical characteristics first and the least important characteristics last.

In order to consider the suggestions of interested parties in developing and issuing the AD questionnaires, all product characteristics comments must be filed by 5:00 p.m. ET on February 22, 2022, which is 20 calendar days from the signature date of this notice. Any rebuttal comments must be filed by 5:00 p.m. ET on March 4, 2022, which is ten calendar days from the initial comment deadline. All comments and submissions to Commerce must be filed electronically using ACCESS, as explained above, on the record of each of the LTFV investigations.

#### Determination of Industry Support for the Petitions

Section 732(b)(1) of the Act requires that a petition be filed on behalf of the domestic industry. Section 732(c)(4)(A) of the Act provides that a petition meets this requirement if the domestic producers or workers who support the petition account for: (i) At least 25 percent of the total production of the domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, section 732(c)(4)(D) of the Act provides that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, Commerce shall: (i) Poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A); or (ii) determine industry support using a statistically valid sampling method to poll the "industry."

Section 771(4)(A) of the Act defines the "industry" as the producers as a whole of a domestic like product. Thus,

<sup>5</sup> See *infra*, section titled "Determination of Industry Support for the Petitions."

Information on help using ACCESS can be found at <https://access.trade.gov/help.aspx> and a handbook can be found at [https://access.trade.gov/help/Handbook\\_on\\_Electronic\\_Filing\\_Procedures.pdf](https://access.trade.gov/help/Handbook_on_Electronic_Filing_Procedures.pdf).

<sup>10</sup> See *Temporary Rule Modifying AD/CVD Service Requirements Due to COVID-19; Extension of Effective Period*, 85 FR 41363 (July 10, 2020).

to determine whether a petition has the requisite industry support, the statute directs Commerce to look to producers and workers who produce the domestic like product. The International Trade Commission (ITC), which is responsible for determining whether “the domestic industry” has been injured, must also determine what constitutes a domestic like product in order to define the industry. While both Commerce and the ITC must apply the same statutory definition regarding the domestic like product,<sup>11</sup> they do so for different purposes and pursuant to a separate and distinct authority. In addition, Commerce’s determination is subject to limitations of time and information. Although this may result in different definitions of the like product, such differences do not render the decision of either agency contrary to law.<sup>12</sup>

Section 771(10) of the Act defines the domestic like product as “a product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation under this title.” Thus, the reference point from which the domestic like product analysis begins is “the article subject to an investigation” (*i.e.*, the class or kind of merchandise to be investigated, which normally will be the scope as defined in the petition).

With regard to the domestic like product, the petitioner does not offer a definition of the domestic like product distinct from the scope of the investigations.<sup>13</sup> Based on our analysis of the information submitted on the record, we have determined that sodium nitrite, as defined in the scope, constitutes a single domestic like product, and we have analyzed industry support in terms of that domestic like product.<sup>14</sup>

In determining whether the petitioner has standing under section 732(c)(4)(A) of the Act, we considered the industry support data contained in the Petitions with reference to the domestic like product as defined in the “Scope of the

Investigations,” in the appendix to this notice. To establish industry support, the petitioner provided its own total production volume of sodium nitrite during the calendar year 2021.<sup>15</sup> The petitioner also provided an estimate of the 2021 production volume for the only other known U.S. producer of sodium nitrite, SABIC Innovative Chemicals US, LLC.<sup>16</sup> The petitioner then compared its own production volume of sodium nitrite to the total volume of sodium nitrite produced by the U.S. industry.<sup>17</sup> We relied on data provided by the petitioner for purposes of measuring industry support.<sup>18</sup>

Our review of the data provided in the Petitions, the General Issues Supplement, General Issues Errata, Second General Issues Supplement, and other information readily available to Commerce indicates that the petitioner has established industry support for the Petitions. First, the Petitions established support from domestic producers (or workers) accounting for more than 50 percent of the total production of the domestic like product and, as such, Commerce is not required to take further action in order to evaluate industry support (*e.g.*, polling).<sup>19</sup> Second, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(i) of the Act because the domestic producers (or workers) who support the Petitions account for at least 25 percent of the total production of the domestic like product.<sup>20</sup> Finally, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(ii) of the Act because the domestic producers (or workers) who support the Petitions account for more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the Petitions.<sup>21</sup> Accordingly, Commerce determines that the Petitions were filed

on behalf of the domestic industry within the meaning of section 732(b)(1) of the Act.<sup>22</sup>

### Allegations and Evidence of Material Injury and Causation

The petitioner alleges that the U.S. industry producing the domestic like product is being materially injured, or is threatened with material injury, by reason of the imports of the subject merchandise sold at LTFV. In addition, the petitioner alleges that subject imports exceed the negligibility threshold provided for under section 771(24)(A) of the Act.<sup>23</sup>

The petitioner contends that the industry’s injured condition is illustrated by a significant and increasing volume of subject imports; declining market share; underselling and price depression and suppression; lost sales and revenues; declines in production, shipments, capacity utilization, and employment; and a decline in sales revenues and a negative impact on operating profits.<sup>24</sup> We assessed the allegations and supporting evidence regarding material injury, threat of material injury, causation, as well as negligibility, and we have determined that these allegations are properly supported by adequate evidence, and meet the statutory requirements for initiation.<sup>25</sup>

### Allegations of Sales at LTFV

The following is a description of the allegations of sales at LTFV upon which Commerce based its decision to initiate these LTFV investigations on imports of sodium nitrite from India and Russia. The sources of data for the deductions and adjustments relating to U.S. price and normal value (NV) are discussed in greater detail in the country-specific AD initiation checklists.

### U.S. Price

For India and Russia, the petitioner based export price (EP) on the average unit values (AUVs) of publicly available import data.<sup>26</sup> For India, the petitioner also based EP on price quotes for the sale of sodium nitrite produced in, and

exported from, India and offered for sale in the United States.<sup>27</sup> The petitioner conservatively did not adjust the U.S. prices based on AUVs for movement or other expenses incurred in India and Russia for purposes of calculating net U.S. prices.<sup>28</sup> For India, the petitioner made certain adjustments for movement and other expenses for the U.S. price based on price quotes to calculate a net U.S. price.<sup>29</sup>

#### Normal Value<sup>30</sup>

For India, the petitioner based NV on home market pricing information obtained through market research for sodium nitrite produced in and sold, or offered for sale, in India.<sup>31</sup> For Russia, the petitioner provided information indicating that the home market price it obtained through market research was below the cost of production (COP) and, therefore, the petitioner calculated NV based on constructed value (CV).<sup>32</sup> For further discussion of CV, see the section “Normal Value Based on Constructed Value.”

#### Normal Value Based on Constructed Value

As noted above, the petitioner provided information indicating that the price charged for sodium nitrite produced in and sold, or offered for sale, in Russia was below the COP; therefore, for Russia, the petitioner calculated NV based on CV.<sup>33</sup> Pursuant to section 773(e) of the Act, the petitioner calculated CV as the sum of the cost of manufacturing; selling, general, and administrative expenses; financial expenses; and profit.<sup>34</sup> In calculating the cost of manufacturing, the petitioner relied on its own production experience and input consumption rates, adjusted for known differences, and valued inputs using publicly available information on costs specific to Russia during the proposed POI.<sup>35</sup> In calculating selling, general, and administrative expenses; financial expenses; and profit ratios, the petitioner relied on the 2020 financial statements of a producer of chemical

fertilizers and related mineral products and by-products in Russia.<sup>36</sup>

#### Fair Value Comparisons

Based on the data provided by the petitioner, there is reason to believe that imports of sodium nitrite from India and Russia are being, or are likely to be, sold in the United States at LTFV. Based on comparisons of EP to NV or CV in accordance with sections 772 and 773 of the Act, the estimated dumping margins for sodium nitrite from each of the countries covered by this initiation are as follows: (1) India—53.43 to 153.30 percent; and (2) Russia—207.17 percent.<sup>37</sup>

#### Initiation of LTFV Investigations

Based upon our examination of the Petitions and supplemental responses, we find that they meet the requirements of section 732 of the Act. Therefore, we are initiating these LTFV investigations to determine whether imports of sodium nitrite from India and Russia are being, or are likely to be, sold in the United States at LTFV. In accordance with section 733(b)(1)(A) of the Act and 19 CFR 351.205(b)(1), unless postponed, we will make our preliminary determinations no later than 140 days after the date of this initiation.

#### Respondent Selection

In the Petitions, the petitioner identified four companies in India and one company in Russia as producers and/or exporters of sodium nitrite.<sup>38</sup> With respect to India, following standard practice in LTFV investigations involving market economy countries, in the event that Commerce determines that the number of exporters or producers in any individual case is large such that it cannot individually examine each company based upon its resources, where appropriate, Commerce intends to select mandatory respondents in that case based on U.S. Customs and Border Protection (CBP) data for U.S. imports under the appropriate Harmonized Tariff Schedule of the United States subheadings listed in the “Scope of the Investigations,” in the appendix.

On January 25 and 28, 2022, Commerce released CBP data on U.S. imports of sodium nitrite from India and Russia, respectively, under administrative protective order (APO) to all parties with access to information protected by APO and indicated that interested parties wishing to comment

on the CBP data and/or respondent selection must do so within three business days after the publication date of the notice of initiation of these investigations.<sup>39</sup> Commerce will not accept rebuttal comments regarding the CBP data or respondent selection.

The petitioner named only one company as a producer/exporter of sodium nitrite in Russia, Uralchem, JSC (Uralchem).<sup>40</sup> We placed CBP import data on the record of this proceeding, which supports the petitioner’s identification of Uralchem as the sole producer/exporter of sodium nitrite in Russia.<sup>41</sup> We currently know of no other producers/exporters of subject merchandise in Russia. Accordingly, Commerce intends to examine all known producers/exporters in this investigation (*i.e.*, Uralchem). We are providing interested parties with an opportunity to comment on the CBP data and respondent selection within three business days of publication of this notice in the **Federal Register**.<sup>42</sup> As noted above, Commerce will not accept rebuttal comments regarding the CBP data or respondent selection. If no comments are received, or if the comments that Commerce receives further support the existence of Uralchem as the sole producer/exporter of sodium nitrite in Russia, we do not intend to conduct respondent selection and will issue the AD questionnaire to Uralchem. However, if Commerce receives comments that require it to select a respondent, we intend to finalize our decisions regarding respondent selection within 20 days of publication of this notice.

Comments on CBP data and respondent selection must be filed electronically using ACCESS. An electronically filed document must be received successfully in its entirety via ACCESS by 5:00 p.m. ET on the specified deadline. Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305(b). Instructions for filing such applications may be found on Commerce’s website at <https://enforcement.trade.gov/apo>.

<sup>30</sup> In accordance with section 773(b)(2) of the Act, for these investigations, Commerce will request information necessary to calculate the constructed value (CV) and cost of production (COP) to determine whether there are reasonable grounds to believe or suspect that sales of the foreign like product have been made at prices that represent less than the COP of the product.

### Distribution of Copies of the Petitions

In accordance with section 732(b)(3)(A) of the Act and 19 CFR 351.202(f), copies of the public version of the Petitions have been provided to the governments of India and Russia via ACCESS. To the extent practicable, we will attempt to provide a copy of the public version of the Petitions to each exporter named in the Petitions, as provided under 19 CFR 351.203(c)(2).

### ITC Notification

We will notify the ITC of our initiation, as required by section 732(d) of the Act.

### Preliminary Determinations by the ITC

The ITC will preliminarily determine, within 45 days after the date on which the Petitions were filed, whether there is a reasonable indication that imports of sodium nitrite from India and/or Russia are materially injuring, or threatening material injury to, a U.S. industry.<sup>43</sup> A negative ITC determination for any country will result in the investigation being terminated with respect to that country.<sup>44</sup> Otherwise, these LTFV investigations will proceed according to statutory and regulatory time limits.

### Submission of Factual Information

Factual information is defined in 19 CFR 351.102(b)(21) as: (i) Evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). Section 351.301(b) of Commerce's regulations requires any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted<sup>45</sup> and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct.<sup>46</sup> Time limits for the submission of factual information are addressed in 19 CFR 351.301, which provides specific time limits based on the type of factual information being submitted. Interested parties should review the regulations prior to

submitting factual information in these investigations.

### Particular Market Situation Allegation

Section 773(e) of the Act addresses the concept of particular market situation (PMS) for purposes of CV, stating that “if a particular market situation exists such that the cost of materials and fabrication or other processing of any kind does not accurately reflect the cost of production in the ordinary course of trade, the administering authority may use another calculation methodology under this subtitle or any other calculation methodology.” When an interested party submits a PMS allegation pursuant to section 773(e) of the Act, Commerce will respond to such a submission consistent with 19 CFR 351.301(c)(2)(v). If Commerce finds that a PMS exists under section 773(e) of the Act, then it will modify its dumping calculations appropriately.

Neither section 773(e) of the Act, nor 19 CFR 351.301(c)(2)(v), set a deadline for the submission of PMS allegations and supporting factual information. However, in order to administer section 773(e) of the Act, Commerce must receive PMS allegations and supporting factual information with enough time to consider the submission. Thus, should an interested party wish to submit a PMS allegation and supporting new factual information pursuant to section 773(e) of the Act, it must do so no later than 20 days after submission of a respondent's initial section D questionnaire response.

### Extensions of Time Limits

Parties may request an extension of time limits before the expiration of a time limit established under 19 CFR 351.301, or as otherwise specified by Commerce. In general, an extension request will be considered untimely if it is filed after the expiration of the time limit established under 19 CFR 351.301. For submissions that are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. ET on the due date. Under certain circumstances, we may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, we will inform parties in a letter or memorandum of the deadline (including a specified time) by which extension requests must be filed to be considered timely. An extension request must be made in a separate, stand-alone submission; Commerce will grant untimely filed requests for the extension

of time limits only in limited cases where we determine, based on 19 CFR 351.302, that extraordinary circumstances exist. Parties should review Commerce's regulations concerning factual information prior to submitting factual information in these investigations.<sup>47</sup>

### Certification Requirements

Any party submitting factual information in an AD or CVD proceeding must certify to the accuracy and completeness of that information.<sup>48</sup> Parties must use the certification formats provided in 19 CFR 351.303(g).<sup>49</sup> Commerce intends to reject factual submissions if the submitting party does not comply with the applicable certification requirements.

### Notification to Interested Parties

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305. Parties wishing to participate in these investigations should ensure that they meet the requirements of 19 CFR 351.103(d) (e.g., by filing a letter of appearance as discussed). Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice.<sup>50</sup>

This notice is issued and published pursuant to sections 732(c)(2) and 777(i) of the Act, and 19 CFR 351.203(c).

Dated: February 2, 2022.

### International Trade Administration

#### Meeting of the Civil Nuclear Trade Advisory Committee

**AGENCY:** International Trade Administration, Department of Commerce.

**ACTION:** Notice of a partially closed federal advisory committee meeting.

**SUMMARY:** This notice sets forth the schedule and proposed agenda for a partially closed meeting of the Civil Nuclear Trade Advisory Committee (CINTAC).

**DATES:** The meeting is scheduled for Thursday, February 17, 2022, from 10:00 a.m. to 3:00 p.m. Eastern Standard Time (EST). The deadline for members of the public to register to participate, including requests to make comments during the meeting and for auxiliary aids, or to submit written comments for dissemination prior to the meeting, is 5:00 p.m. EST on Friday, February 11, 2022.

**ADDRESSES:** The meeting will be held virtually via Microsoft Teams. Requests to register to participate (including to speak or for auxiliary aids) and any written comments should be submitted via email to Mr. Jonathan Chesebro, Office of Energy & Environmental Industries, International Trade Administration, at [jonathan.chesebro@trade.gov](mailto:jonathan.chesebro@trade.gov).

**FOR FURTHER INFORMATION CONTACT:** Mr. Jonathan Chesebro, Office of Energy & Environmental Industries, International Trade Administration (Phone: 202-482-1297; email: [jonathan.chesebro@trade.gov](mailto:jonathan.chesebro@trade.gov)).

#### SUPPLEMENTARY INFORMATION:

**Background:** The CINTAC was established under the discretionary authority of the Secretary of Commerce and in accordance with the Federal Advisory Committee Act, as amended (5 U.S.C. app.), in response to an identified need for consensus advice from U.S.

industry to the U.S. Government regarding the development and administration of programs to expand United States exports of civil nuclear goods and services in accordance with applicable U.S. laws and regulations, including advice on how U.S. civil nuclear goods and services export policies, programs, and activities will affect the U.S. civil nuclear industry’s competitiveness and ability to participate in the international market.

The Department of Commerce renewed the CINTAC charter on August 5, 2020. This meeting is being convened under the seventh charter of the CINTAC.

**Topics to be considered:** The agenda for the CINTAC meeting on Thursday, February 17, 2022, is as follows:

Closed Session (10:00 a.m.–1:00 p.m.)—Discussion of matters determined to be exempt from the provisions of the Federal Advisory Committee Act relating to public meetings found in 5 U.S.C. app. (10)(a)(1) and 10(a)(3). The session will be closed to the public pursuant to Section 10(d) of FACA as amended by Section 5(c) of the Government in Sunshine Act, Public Law 94-409, and in accordance with Section 552b(c)(4) and Section 552b(c)(9)(B) of Title 5, United States Code, which authorize closure of meetings that are “likely to disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential” and “likely to significantly frustrate implementation of a proposed agency action,” respectively. The part of the meeting that will be closed will address (1) nuclear cooperation agreements; (2) encouraging ratification of the Convention on Supplementary Compensation for Nuclear Damage; and (3) identification of specific trade barriers impacting the U.S. civil nuclear industry.

Public Session (1:00 p.m.–3:00 p.m.)—Discuss work of the subcommittees, review of deliberative recommendations, and opportunity to hear from members of the public.

Members of the public wishing to attend the public session of the meeting must notify Mr. Chesebro at the contact information above by 5:00 p.m. EST on Friday, February 11, 2022 in order to pre-register to participate. Please specify any requests for reasonable accommodation at least five business days in advance of the meeting. Last minute requests will be accepted but may not be possible to fill. A limited amount of time will be available for brief oral comments from members of the public attending the meeting. To accommodate as many speakers as

possible, the time for public comments will be limited to two (2) minutes per person, with a total public comment period of 30 minutes. Individuals wishing to reserve speaking time during the meeting must contact Mr. Chesebro and submit a brief statement of the general nature of the comments and the name and address of the proposed participant by 5:00 p.m. EST on Friday, February 11, 2022. If the number of registrants requesting to make statements is greater than can be reasonably accommodated during the meeting, the International Trade Administration may conduct a lottery to determine the speakers.

Any member of the public may submit written comments concerning the CINTAC’s affairs at any time before or after the meeting. Comments may be submitted to Mr. Jonathan Chesebro at [Jonathan.chesebro@trade.gov](mailto:Jonathan.chesebro@trade.gov). For consideration during the meeting, and to ensure transmission to the Committee prior to the meeting, comments must be received no later than 5:00 p.m. EST on Friday, February 11, 2022. Comments received after that date will be distributed to the members but may not be considered at the meeting.

Copies of CINTAC meeting minutes will be available within 90 days of the meeting.

Dated: February 3, 2022.
