Additionally, this notice includes non-substantive changes to simplify the formatting and text of the previously published notice. This updated system will be included in DHS's inventory of record systems.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act, this modified system of records notice is being published because the Federal Emergency Management Agency (FEMA) collects, maintains, uses, retrieves, and disseminates personally identifiable information of individuals who apply for FEMA disaster assistance when a Presidential disaster declaration or emergency has occurred or may be imminent. FEMA's applicant records included in this system may contain income information, insurance information, housing inspection reports, and correspondence notations about various types of assistance, including information about appeals, recovery of disaster assistance funds, and other related information.

The purpose of this system of records is to: Facilitate registration for FEMA's disaster assistance programs; correspond with applicants; verify Individuals and Households Program (IHP) Assistance applicant information; determine the eligibility of applicants; and focus, direct, and refer applicants to all sources of disaster assistance. Additional purposes include: Preventing a duplication of federal government efforts and benefits, identifying the misuse of disaster assistance, identifying disaster assistance provided in error, identifying and preventing possible fraudulent activity in anticipation of or after a presidentially declared major disaster or emergency, and assessing FEMA's disaster assistance programs for equality, equity, and customer satisfaction. The information contained in this system may also be used to identify and implement measures to reduce future disaster damage. To accomplish these purposes, FEMA may maintain investigative summary reports in this system of records to support the

recoupment, appeals, and oral hearing processes.

FEMA is updating the SORN to reflect the following changes. First, the system location has been updated to broadly reflect the location of the records at the FEMA Headquarters in Washington, DC, FEMA Regional Offices, Joint Field Offices, National Processing Service Centers, and Disaster Recovery Centers. In addition, electronic records stored in the system are maintained at the FEMA Data Center at Bluemont, Virginia, and at the DHS Data Center 2 in Clarksville, Virginia. Second, the categories of records have been updated and consolidated in favor of a more comprehensive list of data elements collected from Individual Assistance applicants. The categories of records also include investigative summary reports compiled through internal FEMA investigations or other DHS/FEMA programs, as well as records of assistance provided under the FEMA National Flood Insurance Program (NFIP). These reports were added to further support FEMA actions during the recoupment, appeals, and oral hearing processes in order to recover disaster assistance funds, as mandated by the Stafford Act, 42 U.S.C. 5155, and 44 CFR secs. 206.116 and 206.191. The National Flood Insurance Program records were added to prevent a duplication of benefits between National Flood Insurance Program and the Group Flood Insurance Policy provided under Other Needs Assistance (ONA). Third, the purpose of the system is being updated to support FEMA efforts to prevent fraud, waste, and abuse by verifying applicant account and identity information and identifying assistance provided in error, funds spent inappropriately by the applicant, or misuse of disaster assistance. Fourth, FEMA is adding and modifying several routine uses. Routine Use E is being modified and Routine Use F is being added to conform to Office of Management and Budget Memorandum M-17-12 regarding breach notification and investigation. Routine Use I is revised to provide added clarity on how states and other entities involved in emergency response efforts request FEMA information. Routine Use K is added to permit verification of billing records as proof of disaster-related expenses incurred. Routine Use M is modified to incorporate information sharing with the Department of Treasury's Bureau of Fiscal Services to verify applicant identity and account information as a fraud prevention measure and for the Treasury's Do Not Pay Working System, established
