Procedures for the conduct of and participation in ACRS meetings were

published in the **Federal Register** on June 13, 2019 (84 FR 27662). In accordance with those procedures, oral or written views may be presented by members of the public, including representatives of the nuclear industry. Persons desiring to make oral statements should notify Quynh Nguyen, Cognizant ACRS Staff and the Designated Federal Officer (Telephone: 301-415-5844, Email: Quynh.Nguyen@nrc.gov), 5 days before the meeting, if possible, so that appropriate arrangements can be made to allow necessary time during the meeting for such statements. In view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the Cognizant ACRS staff if such rescheduling would result in major inconvenience.

An electronic copy of each presentation should be emailed to the Cognizant ACRS Staff at least one day before meeting.

In accordance with Subsection 10(d) of Public Law 92-463 and 5 U.S.C. 552b(c), certain portions of this meeting may be closed, as specifically noted above. Use of still, motion picture, and television cameras during the meeting may be limited to selected portions of the meeting as determined by the Chairman. Electronic recordings will be permitted only during the open portions of the meeting.

ACRS meeting agendas, meeting transcripts, and letter reports are available through the NRC Public Document Room (PDR) at pdr.resource@nrc.gov, or by calling the PDR at 1-800-397-4209, or from the Publicly Available Records System component of NRC's Agencywide Documents Access and Management System (ADAMS), which is accessible from the NRC website at <https://www.nrc.gov/reading-rm/adams.html> or <https://www.nrc.gov/reading-rm/doc-collections/#ACRS/>.

SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC has issued a renewal of Facility Operating License No. R-125, held by UML, which authorizes operation of the UMLRR. The UMLRR is a plate-type-fueled research reactor located on the UML campus in Lowell, Massachusetts. The renewed license continues to authorize the licensee to operate the UMLRR at a steady-state power level up to a maximum of 1000 kilowatts (thermal). Renewed Facility Operating License No. R-125 will expire 20 years from its date of issuance, February 3, 2022.

The renewed facility operating license complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations set forth in chapter I of title 10 of the *Code of Federal Regulations*. The Commission has made appropriate findings as required by the Act and the Commission's regulations, and sets forth those findings in the renewed facility operating license. The agency afforded an opportunity for hearing in the Notice of Opportunity to Request a Hearing published in the **Federal Register** on March 19, 2018 (83 FR 12036). The NRC received no requests for a hearing following the notice.

The NRC staff prepared a safety evaluation report (SER)—Renewal of the Facility Operating License for the University of Massachusetts Lowell Research Reactor related to the renewal of Facility Operating License No. R-125 and concluded, based on that evaluation, that the licensee can continue to operate the facility without endangering the health and safety of the public. The NRC staff also prepared an environmental assessment and finding of no significant impact regarding the renewal of the facility operating license, published in the **Federal Register** on August 4, 2021 (86 FR 41998), and concluded that renewal of the facility operating license will not have a significant impact on the quality of the human environment.
