Title of the Collection: HHS 42 CFR subpart B; Sterilization of Persons in

Federally Assisted Family Planning Projects.

Type of Collection: Extension.

OMB No.: 0937-0166.

Abstract: The Department of Health and Human Service, Office of Population Affairs is requesting an extension of a currently approved collection for the disclosure and recordkeeping requirements codified at 42 CFR part 50, subpart B ("Sterilization of Persons in Federally Assisted Family Planning Projects"). The consent form solicits information to assure voluntary and informed consent to persons undergoing sterilization in programs of health services which are supported by federal financial assistance administered by the United States Public Health Service (PHS). It provides additional procedural protection to the individual and the regulation requires that the consent form be a copy of the form that is appended to the PHS regulation. In 2003, the PHS sterilization consent form was revised to conform to OMB government-wide standards for the collection of race/ethnicity data and to incorporate the PRA burden statement as part of the consent form. We are requesting a three-year extension.

Type of respondent: Individuals seeking sterilization.

Frequency: Once; prior to procedure.

Certificates of Alternative Compliance for the Thirteenth Coast Guard District

AGENCY: Coast Guard, DHS.

ACTION: Notification of issuance of a certificate of alternative compliance.

Due to the construction and placement of the sidelights, these vessels cannot fully comply with the light, shape, or sound signal provisions of the 72 COLREGS without interfering with their design and construction. SUPPLEMENTARY INFORMATION: The United States is signatory to the International Maritime Organization’s International Regulations for Preventing

Collisions at Sea, 1972 (72 COLREGS), as amended. The special construction or purpose of some vessels makes them unable to comply with the light, shape, or sound signal provisions of the 72 COLREGS. Under statutory law, however, specified 72 COLREGS provisions are not applicable to a vessel of special construction or purpose if the Coast Guard determines that the vessel cannot comply fully with those requirements without interfering with the special function of the vessel.¹

The owner, builder, operator, or agent of a special construction or purpose vessel may apply to the Coast Guard District Office in which the vessel is being built or operated for a determination that compliance with alternative requirements is justified,² and the Chief of the Prevention Division would then issue the applicant a certificate of alternative compliance (COAC) if he or she determines that the vessel cannot comply fully with 72 COLREGS light, shape, and sound signal provisions without interference with the vessel’s special function.³ If the Coast Guard issues a COAC, it must publish notice of this action in the **Federal Register**.⁴

The Chief of Prevention Division, Thirteenth Coast Guard District, U.S. Coast Guard, certifies that the AGAMENTICUS HULL 68, BAKER HULL 71, DECEPTION HULL 69, OLYMPUS HULL 70, RAINIER HULL 67, SENTINEL HULL 72 are towing vessels of special construction or purpose, and that, with respect to the position of the side lights, it is not possible to comply fully with the requirements of the provisions enumerated in the 72 COLREGS, without interfering with the normal operation, construction, or design of the vessel. The Chief of Prevention Division, Thirteenth Coast Guard District, U.S. Coast Guard, further finds and certifies that the sidelights are in the closest possible compliance with the
